

PAPER AND PULP FIRMS TO FORM UNION IN CANADA

Plans Are Laid for Combine Backed by \$500,000,000 of British Capital.

STOCK QUOTATIONS GO UP

Gouin and Caine Make Significant Statements Regarding Industry.

Montreal, June 7.—A Canadian merger that will be at least equal and will probably exceed in size and importance the recent gigantic amalgamation of steel and shipping companies is planned by British capital. It involves the linking up of all the paper and pulp industries of Canada into one tremendous organization whose capitalization will not be less than half a billion, and may exceed that amount.

The project would develop along the lines of a great battle between British and American capital for control of Canada's newspaper output and be the second of the supreme efforts put forward by Great Britain to link the Dominion and the mother country still closer by strengthening the bonds of kinship and sentiment through weaving into them the golden threads of mutual commercial and financial interest. It will be a fight for supremacy between the two nations starting with the American dollar and will in the opinion of those on the inside result in a jump in the paper industry of Canada which will clear the past into the future. The events have greatly impressed the financial world—the visit of Sir Lomer Gouin to Europe, followed by the information that he would not resign the Premiership of Quebec, as he had definitely decided to do, and the visit paid recently to Canada by G. R. Hall Caine, former British Deputy Paper Controller, and his election as a director of the Saguenay Pulp and Paper Company.

Both Sir Lomer and Mr. Caine have in their public utterances spoken of the vast possibilities for British capital in the pulp and paper industry of Canada and have hinted that an undertaking of stupendous magnitude is already in preparation. It can be stated with certainty that before many weeks have passed the financial world will have more light on the significance of the steady upward movement in the stocks of paper making companies, which is beginning to reflect other causes than the prospect of increasing prices for their output.

It is not generally realized that the lease held by the big paper companies of their vast timber limits in Quebec are terminable at the will of the Government at the conclusion of each year. Though in practice they have been permanent in law these limits are held on yearly lease. Before Sir Lomer Gouin resigns the Premiership of Quebec there is good reason to believe that an act will be passed insuring the possession of these limits in perpetuity to the leaseholders. That will be the first step toward effecting the great consolidation.

Mr. Caine, as reported in a London dispatch to THE SUN AND NEW YORK HERALD, has emphasized the point that there is no shortage of material for paper making, since in Quebec province alone there are 500,000,000 cords of pulpwood ready for the ravages of fire. There is positive information that the interests involved in the proposed deal studied carefully and arrived at definite conclusions on the subject of reforestation. Sir Lomer Gouin in his address to the Canada Club in London did not seek to hide the fact that great developments are afoot. He announced that the Province of Quebec had sixty million acres of forest areas, with hundreds of millions of cords of pulpwood to offer British capital, and reminded the representatives of British industry that a paper mill is as valuable as a gold mine. There was significance in his invitation to British capital to come and develop Quebec's immense native wealth and take possession of the largest share of her seven million horse power of water power.

GERMAN ELECTION RESULT IN DOUBT

Old Reactionary Leaders Return to Power and Radicals Stronger.

By RAYMOND SWING.

Staff Correspondent of THE SUN AND NEW YORK HERALD. Copyright, 1920, by THE SUN AND NEW YORK HERALD. BERLIN, June 7.—The Germany of the past lifted up her head in the elections yesterday and brought into positions of commanding influence, if not into actual power, some of the leaders who advocated the war. Opposed to them, instead of a safe majority of moderates, was a greatly strengthened radical wing of Independent Socialists.

Among those reactionary chiefs who were re-elected were Count Westarp, who as Conservative (German National) floor leader defended the Government's war measures, and Dr. Gustav Stresemann, leader of the German People's party, formerly the National Liberals and now one of the strongest political organizations in Germany and who was the staunchest kind of an advocate of unrestricted submarine warfare, even in defiance of the danger of America entering the world conflict.

The two right parties which have gained so hugely in the elections have not altered their principles in so far as nationalism and industrial policy are concerned. The German National party, formerly the Conservatives, ended all its campaign meetings with a cheer for the Kaiser.

The German People's party quietly renounced the monarchy, but openly espoused candidates favorable to the monarchy, and Hugo Stinnes, Germany's most powerful capitalist and head of one of her biggest businesses, the steel industry, admittedly heavily financing its candidates.

By the Associated Press.

Geneva, June 7.—Mme. De Witt Schlumberger, president of the French union for woman suffrage and French delegate to the International Woman Suffrage Alliance Congress, was loudly applauded at this morning's session when she declared that if all women had been possessed of suffrage before 1914 there would have been no war.

Belgium is not represented at the congress, because, it is said, the Belgian Women Suffrage Association demanded that the German delegates condemn, or at least express regret for, German atrocities committed in Belgium during the war. This, it is reported, the Germans refused to do.

Message of Right Arm Permits Him to Grant Audiences.

By the Associated Press.

Rome, June 7.—Pope Benedict is suffering from an attack of rheumatism. Although fatigued by yesterday's ceremonies he passed a peaceful night and his physician this morning found him rested. The pain had decreased and he was better able to use his arm, but care was ordered lest he overtake himself. A message of the right arm, which is chiefly affected, was ordered by the physician. That the pontiff's general health is satisfactory was proved by the fact that he granted several audiences to-day to church dignitaries.
