**5 Times Across the Continent On One Set of Tires**

*Cole Aero-EIGHTS* Average More Than 15,000 Miles on Original Tire Equipment Besides Increasing Gasoline Mileage 50% for Cars of Their Capacity and Power

Tires never have to be taken into consideration by the owner of a *Cole Aero-EIGHT*. The original equipment outlasts every expectation. That is one reason for the extremely slow depreciation of the *Aero-EIGHT*. Its remarkable economy in the use of tires and fuel and the sturdy dependability and continuous improvement of the mechanism with use cause it to gain in service and utility as time goes on. It retains its original value indefinitely.

The *Cole Aero-EIGHT* was the first car to negotiate uniformly under all conditions of travel upwards of 15,000 miles on tires—5 times the distance across continent on its original casings. Besides, it affords fully 50% more mileage per gallon of gasoline than is ever expected of a car of its capacity and power. Owners of *Cole Aero-EIGHTS* understand the significance of aero-type construction as it is revealed to them in the performance of their cars.

Miles Per Gallon of Gasoline Under Ordinary Conditions of Travel	Average Gasoline Mileage for Trip
2000	26.5 m.p.g.
3000	39.2 m.p.g.
4000	57.2 m.p.g.
5000	75.5 m.p.g.
