WAR DECEPTION OF DEMOCRATS SHOWN

Harding Says Wilson Juggled With American Lives to Win 1916 Election.

KNEW FIGHT WAS COMING

'Premeditated Neglect' Charge Wins Heavy Applause of Front Porch Crowd.

By a Staff Correspondent of THE SUN and NEW YORK HERALD.

MARION, Ohio, Aug. 25.—The Wilson Administration deliberately deceived the country to win votes in 1916, Senator Harding charged to-day. Knowing that the nation could not escape going to war the Administration "premeditated neglect" and the result was great loss in life and treasure.

Speaking to 600 Republicans from Wyandot county who came to his front porch, the Senator scored the Wilson Administration for its neglect and deception. His charge of "premeditated neglect" came as a digression from his set speech, and the accusation stirred the audience of 2,000 persons to great applause.

The Senator was moved deeply by the presence of two blind soldiers, who sat on his porch close behind him.

"They can never see Old Glory again, signaling our conception of freedom and justice throughout the world," the Senator said, addressing the soldiers. Raising his voice, he said: "But I pledge these two sons of Wyandot that there never shall be a substitute for the Stars and Stripes day that beheld."

The Senator was happy to-day. The visit of Charles E. Hughes and his warm, enthusiastic endorsement of the Republican nominee greatly pleased the Senator.

SMOOT FACES HOT FIGHT FOR ELECTION

Opposition to Utah Senator Keener This Year Than Ever Before.

DEMOCRATS IN CONTROL

Record of Accomplishment of G. O. P. Nominee Counted On for Success.

Special to THE SUN and NEW YORK HERALD.

SALT LAKE CITY, Utah, Aug. 25.—On the eve of the State Republican convention which will open in Salt Lake City to-morrow, the atmosphere of the entire State is teeming with politics. For the first time in seventeen years Senator Reed Smoot is having organized opposition to grapple with, and even his friends and closest supporters admit that he will have to fight hard to win in the November election.

The campaign against Senator Smoot has been waged fiercely throughout the State, and it is expected that it will break out in full force in the convention to-morrow. Still, the Senator has strong support. Business men all over the State, no matter of what political faith, have promised their aid to the man who, they say, "has put Utah on the map." Even the Mormon church, of which Senator Smoot is an apostle, has been accused of interfering in his behalf by influencing the laity.

Heretofore Senator Smoot has never met with any serious opposition. He has always had things pretty much his own way. Particularly has he become popular on account of his reputation for hard work and reliability in pushing through successfully any requests that have come to him.

However, this year many forces are at work to bring about the defeat of the Senator. Although he has no opposition in his own party for the Senatorial nomination efforts are under way to bring about the nomination of W. H. Wattle of Ogden for Governor, one of the leading stockholders in the Utah-Idaho Sugar Company, who was recently indicted by the Federal Government for profiteering. This scandal has caused much unpleasantness in Utah and the friends of Senator Smoot view the boom for Wattle with disfavor, declaring that Wattle as a gubernatorial running mate would prove disastrous to the Senator.

COX HERE TO-MORROW.

Will Keep to His Car During Hour's Stop En Route.

Gov. Cox, Democratic Presidential nominee, will make his first campaign visit to New York to-morrow, when he passes through this city en route from Pittsburg to New Haven. He will be here just an hour, arriving over the Pennsylvania Railroad at 9 o'clock in the morning and leaving an hour later over the New York, New Haven and Hartford.

Senator Pat Harrison, director of the Democratic national speakers' bureau, stated that Gov. Cox will not leave his car while here. He is expected to be visited by George White, chairman of the Democratic National Committee; Senator Harrison and the campaign treasurer.

Gov. Cox will speak in New Haven to-morrow and then will return to New York for his reception and speech at the police field day at Gravesend Bay Saturday.

SMOOT HAS STRONG SUPPORT.

Utah's most influential business men have come out openly for Senator Smoot, most of them men who have heretofore never been active in politics. They argue that Utah has been well served during the past seventeen years by one of its ablest business men, and it is only right that he should be returned to Washington. Foremost among these are President Bishop C. W. Nibley, who is directing head of the Utah-Idaho Sugar Company; Lorenzo N. Stohli, vice-president and general manager of the Beneficial Life Insurance Company; Thomas R. Cutler, vice-president and former general manager of the Utah-Idaho Sugar Company; John C. Howard, president and general manager of the Utah Oil Refining Company; and John C. Cutler, former Governor of the State and prominent banker.

Indications now are that Senator Smoot will be re-elected, even though the political organization of the State and committee is in the control of the Democrats, because of Senator Smoot's loyalty to the State and unswerving devotion to duty. The people seem to be for him, even though they may vote for the rest of the Democratic national and State ticket.

COX PLEDGES TO LET SECRET OUT TO-NIGHT

Tells Indiana He Will Bare G. O. P. Plan.

By a Staff Correspondent of THE SUN and NEW YORK HERALD.

EVANSVILLE, Ind., Aug. 25.—Gov. Cox, speaking to-night before 5,000 persons in the Coliseum, flourished a mass of papers, which he declared contained evidence "sufficient to convict every mother's son" of the Republican leaders of raising a \$15,000,000 "slush fund to buy the Presidency."

"I don't trust this evidence to any one," Gov. Cox yelled as the crowd applauded. "I carry it in my own pocket. I shall convince the people of the United States that a plot has been formed, a conspiracy to buy the Presidency of the United States. The evidence is con-

Increased Telephone Rates Are Necessary

A Statement to the Public of New York City by Howard F. Thurber, President of the New York Telephone Company

THE New York Telephone Company is charged by the public with the responsibility of furnishing telephone service to the people of this

City and the State of New York. We are your service agents. To fulfil our obligations to you we must do three things:—

1. Pay necessary operating expenses.
2. Pay to investors a fair return on the money already put into telephone property.
3. Earn sufficient net revenue so that investors will continue, by the purchase of telephone securities, to furnish the large amounts of new capital required each year for the extension of the system.

For years New York City's telephone service has been recognized as the best in the world. It has been furnished at the lowest reasonable rates. We built our system, trained our workers, and introduced improvements and economies into the system—all with the aim of being prepared to furnish efficient service at all times in any required amount.

We are facing the greatest demand for new service in our history, and at the same time, we are trying to still further improve the handling of an abnormal volume of traffic. This effort has resulted in a heavy increase in expense that has not been met by increased revenue. Our net revenue has dropped so rapidly since the first of the year that unless we receive financial aid through increased rates we cannot enlarge our plant, continue to improve the service and attract the new money required for constructing new telephone facilities.

Until recently our revenue has been such as to enable us to keep our facilities and organization always ready to do these things. But our revenue no longer is equal to the demands you put upon it.

Because:

All materials and supplies have increased enormously in cost. Increases in wages of our employees during the past twelve months to enable them to meet the high cost of living amount to \$8,295,868.

\$4,739,837 more have been added to our payroll by the employment of additional workers.

Our 1920 expansion program calls for an expenditure of over \$26,000,000 and we must expend equally large amounts annually during the next few years.

Public necessity and public safety demand the maintenance of adequate telephone service. Business men realize this particularly. In many states they have urged the adoption of increased rates to insure the continuance of good service.

is unthinkable that you would permit your telephone service to be crippled in the same way.

Adequate service depends upon adequate revenue. Insufficient revenue means a repetition in the telephone business of what has happened to the railroads. Inadequate rates stifled their development and every community in the country is suffering as a consequence. It

The telephone is New York's first assistant. It is our task to make it serve not only as well as before, but in a far larger way. We have done what we could to accomplish this task in the face of rising costs and the delays and difficulties due to after-the-war economic conditions. We want to carry the work to completion. We believe you want us to do so.

Therefore:

We have filed with the Public Service Commission, Second District, a petition asking for an increase in rates in the City of New York.

The situation deserves your most active consideration and support. It vitally affects you and every other person in this community.

All the facts relating to our need for increased revenue will be given to the public. We invite your careful consideration, your support and your cooperation.

New York Telephone Company
