

### PLOT TO RESTORE KING CHARLES TOLD

Minister Breter Informs National Assembly of Magyar Monarchists' Plans.

HAS CULPRITS' NAMES

Disclosure Made by Officer Who Got Offer to Command Hungarian Army.

Special Cable Despatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.  
 BUDAPEST, Aug. 28.—M. Breter, Minister of the Honved (the Landwehr of Hungary), has informed the National Assembly that the reactionary party about the middle of last month prepared for the restoration of King Charles. A complete Cabinet list had been prepared by them, he declared, and command of the troops was offered to a high military officer. M. Breter asserted that the arrest of members of the National Assembly who were antagonistic to the restoration was planned. The officer to whom the army command was offered disclosed the plot to the Honved Ministry. M. Breter declared, and the Ministry was prepared to submit to the Assembly a list of the men implicated and the minutes of their conference. He asserted that certain elements in Hungary had tried to shake

the Government's authority in favor of the so-called King. M. Breter's declarations caused great excitement in the Assembly, many members demanding a secret session. The President of the Assembly, however, held that after a public disclosure of the plot a secret session was unnecessary.

### SPLIT IN RANKS OF FRENCH SOCIALISTS

Labor Federation in Revolt Against Radicals.

Special Cable Despatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

PARIS, Aug. 25.—Not only is there a schism in the ranks of the French Socialist party but the French General Federation of Labor has now definitely broken with the radicals and denounced the Moscow Third International's demands, declaring that labor here cannot accept either a Red or a White dictatorship. Leon Jouhaux, secretary of the General Federation of Labor, undoubtedly was influenced to adopt this stand by the Government's threat to dissolve his labor body if it mingles in political affairs.

Moscow asked for the most extreme changes in the constitution of the General Federation of Labor, favoring complete solidarity in the event of war, and even refusal to allow workers, even through motives of patriotism, to participate in the defence of their country. Milder Socialists in the direction of the affairs of the General Federation of Labor uphold M. Jouhaux and promise to carry the fight to the finish when the labor congress meets next month. Especially are they determined to fight the Moscow Soviet's demand that the French Socialist party change its name to the Communist party, with international representation through the Amsterdam Workers' International.

### FRENCH NICKEL COIN TO REPLACE COPPER

Alloy, Non-Exportable, Unlikely to Hurt Currency.

Special Cable Despatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

PARIS, Aug. 28.—Nearly a hundred million dollars worth of new nickel and aluminum coins will be issued by the French Treasury early next month in a new effort to remedy the currency shortage here. Following the disappearance of the silver coins, it has been observed that the bronze and copper pieces were leaving the country. Speculators, gaining as much as 40 per cent profit on such transactions. A new alloy has been discovered, however, which does not offer such advantages to speculators and which probably will result in the entire French coinage being based in future on purchase rather than metal in value.

The new issue probably will be effected through the Bank of France at the rate of 300,000 francs a day, coincident with the recall by the Chamber of Commerce of the one and two franc notes which were issued recently and which proved to be an unsatisfactory solution of the currency crisis because of the inferior quality of the paper upon which they were printed. The Ministry of Finance says that it will be impossible to counterfeit the new coins unless the most powerful compression machines are obtained, the secret of which is possessed by the French Government only. Therefore when they are in circulation the Government does not anticipate a currency depression such as resulted in the wholesale printing of rouble notes in Russia.

### SPANISH ACTORS AND MANAGERS AT ODDS

Farm Laborers' Union Menaces Harvest in Valencia.

Special Cable Despatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

MADRID, Aug. 28.—Theatre managers at Barcelona have decided to bring legal action against syndicalist actors who have refused to carry out their contracts until the managers recognize their union. Actors will be brought against all actors who refuse to appear when the season opens next week.

Harvesting work throughout the entire district of Valencia is threatened with paralysis owing to the demands of Syndicalist farming laborers. A collective claim for 13 pesetas daily was made for harvesting rice and 15 pesetas for general field work. At first the employers refused to grant this demand, but, at the instance of the Mayor of Valencia, a joint meeting was called, at which the terms of the men were agreed to. It is reported that they demanded a further advance of 2 pesetas daily, which was refused.

### ITALY RECALLS OFFICERS.

Orders Home All Except Legation Attaches From Latin America.

ROME, Aug. 27.—All Italian officers now in Latin-American countries except those accredited to legations as military attaches or sent there on special missions were recalled to-day by Minister of War Bottolmi. This step follows reports that 500 Italian officers have landed in Bolivia, says a semi-official statement. It is declared that no Italian officers were sent to Bolivia, Peru or Chili during July.

some plain, but conveying a note of individuality, others richly embellished with leather, beads, silk or wool embroidery or dainty real lace, are priced, subject to War Revenue tax

\$16.75 to 158.00

(Second Floor)

"Yes—It's Rachmaninoff, You Couldn't Mistake Him"

"ONE evening early this spring my wife and I stayed in town to attend a recital by Rachmaninoff. I had long been an admirer of his compositions but had never heard the great Russian play. It was a revelation—the power and individuality of the man were expressed through his masterly interpretation so amazingly that you felt as if you knew him intimately. In his playing, as in his compositions, Rachmaninoff expresses his own rich nature.

So impressed were we by the beauty of the recital that we again realized the need for music in our own home, both for ourselves and for the children. The following afternoon we stopped in the Knabe Warerooms to select a piano for the children's lessons—we had determined to have music of some sort in our home.

Suddenly, from a little distance, I heard the Rachmaninoff Prelude—played exactly as I had heard it from the hands of the master! Quietly walking to the next room I looked in and found a great Knabe Grand. It

was playing alone—not a hand touched it! Then it dawned on me that here was a new instrument such as I had never dreamed possible. Not the ordinary player piano, but a wonderful instrument that reproduced the playing of great pianists exactly as they had recorded it.

Here were form and fullness and personality in every bar. Golden melody, sparkling with genius came from the bewitched instrument. It had something to say to me that no disc or record had ever said. There were air, earth, water and fire in the music. It was life—genius incarnate.

And it is this reproducing piano—the Ampico—that has made a new place of my home. My wife and children are delighted with it. And to me, left to myself these lonely summer evenings, it is a comfort and pleasure beyond words. I know that now you have heard the Ampico you will not be long without one in your own home. To you, as to us, Ampico will mean musical perfection."

You are cordially invited to hear this wonderful instrument reproduce the playing of great pianists in the Ampico Studios.
