COX BEGINS BIG TRIP; JOLLIES FARMERS Starts on Western Swing One Year From Date Wilson Began League Tour.

By a Staff Correspondent of This Sun and New York Herald. COLUMBUS, Ohio, Sept. 2.—Gov. Cox started off to-night on the most comprehensive campaign trip ever undertaken by a Presidential nominee. The tour, which will continue for a little more than a month, will cover the entire West, with an average of four and five speeches a day. By strange coincidence it is exactly a year to the day since President Wilson began his "swing around the circle" in behalf of the League of Nations, with his first speech in Columbus, Ohio, covering much of the same territory.

Harding Strikes Out Flack Five veterans of Marion's first star team of 1878 received a big hand when they stepped out beside the Senator. Mr. Harding took the mound when the umpire called "play ball" and threw three home runs for Flack, rightfielder of the Cubs to swing at. Flack, of course, never got to reach them, as the umpire called them all strikes, but the Senator admitted that Daly, the Cub catcher, did bring them in a little.

Senator Harding returned home as the expected and continued his conference with Senator Knox. The campaign offers the country great opportunity to record its protest against the maladministration of national affairs, Mr. Knox said. The perversion and wastefulness of the administration is the almost unanimous protest of the nation.

Senator Harding's fervent reverence for his country, its institutions and its people, they are the American people. There is a great thing to be hoped for in the campaign," said Senator Knox. "An adequate appreciation of all the responsibilities of the Republicans of all the administration of national affairs during the last eight years."

20 STATES REPORT VICTORY TO HAYS Chairman Optimistic After Chicago Conference.

Special to THE SUN AND NEW YORK HERALD. CHICAGO, Sept. 2.—Chairman Hays was highly optimistic today as the result of the two day Republican conference here. "The meetings yesterday and today of the chairman, vice-chairman and more than a hundred men and women from the twenty States have been most satisfactory. Reports from everywhere all show the same unprecedented interest in Republican success. This is simply a still further reflection of the conviction on the part of a great majority of the electors that the problem of success is the most important element making for the nation's greatest welfare. It is this interest on the part of all regardless of past or present party affiliations, which has been the cause of our success in the past. It is also true in my judgment that an ever greater international question, coming before the assembly of the League of Nations, the United States would vote with these republics and they would vote with the United States. This is based on the fact of common interest and of historical precedent."
