# FAILURES TOUCH SENSITIVE SPOT

(By Associated Press.)  
NEW YORK, Jan. 22.—The price movements in the general list of stocks today were little more than sympathetic reflections of the fluctuations of a few stocks in which professional operations centered. Professionals in fact had the market largely to themselves. The failure of minor banking institutions in Pittsburg and Chicago, while recognized to be of small importance in themselves, touched sentiment on a sensitive spot in the financial body. Bonds were generally irregular.

# TONOPAH MAN IN REPORTED HOLDUP

RENO, Jan. 22.—Another holdup participated in by the inevitable four, took place this morning at the corner of Fourth and Peavine streets, under the very glare of an electric light, at 1 o'clock.  
In this holdup Gus Shamp, a Tonopah mining man, rooming at the Richelieu hotel, was badly beaten and rendered partially unconscious by blows from a revolver, after which \$135 in money and \$4000 in checks were taken from him, and C. Calloway narrowly escaped a similar fate from the fourth brigand, who held him up at the point of a revolver and finding he had no money, made his escape under pretext that he was afraid of being held up himself.  
Shamp was assisted to the Richelieu by Calloway, who also rooms there, and his wounds were dressed by Dr. Walker. He was very weak and dazed by the blow and could give but an imperfect account of what happened.

# BIG FLEET SAILS FROM RIO JANEIRO

(Associated Press.)  
RIO JANEIRO, Jan. 22.—To the booming of guns and cheers from thousands on accompanying pleasure craft, the American warships sailed from Rio Janeiro this afternoon, bound for Punta Arenas, on the Magellan Straits. Ten days will bring the fleet most midway on its 14,000 mile cruise to San Francisco. The President of the Republic, Dr. Penna, came to Rio Janeiro from Petropolis this morning, and proceeded on the yacht Sylva to where the warships were lying. He went aboard the cruiser Benjamin Constant, and made a tour of all the American ships. He visited the division flagship, Minnesota, remaining there about an hour. During the president's stay on the Minnesota and his cruise among the vessels, salutes were exchanged. Upon his departure a salute of twenty-one guns was fired. Penna then returned to his yacht, which proceeded to a point of Port Villageon to watch the departure of the ships. About 3 o'clock the American fleet began moving, the Alabama leading, three divisions of the Brazilian navy following, composed of three battleships, seven cruisers and six destroyers.

# Harry Thaw's Trial Is Nearing the End

(By Associated Press.)  
NEW YORK, Jan. 22.—The end of the second Thaw trial is fast approaching. This was indicated late today when Dr. Chas. Wagner, first of the alienists to be called by the defense, took the stand for his preliminary examination. Anthony Comstock, vice president of the Society for the Suppression of Vice, had been heard as a witness earlier in the day, and Mrs. William Thaw, mother of the defendant, had completed her testimony. A kindergarten teacher who had charge of Harry Thaw as a lad of six, also testified, and the day was marked by a long stride toward the conclusion of the celebrated case. Today the codicil of Thaw's will was placed in evidence, but the will itself was temporarily ruled out, because of insufficiency of evidence showing its custody since 1905. Mr. Littleton said he would supply this tomorrow or Friday.

# More Pipe for Round Mountain Hydraulic

Henry Bartlett came in last night from Round Mountain, accompanied by Cashier Olive of the Round Mountain Banking Corporation. They brought with them a nice bar of bullion, which will be on its way to the mint this morning. Mr. Bartlett brings good news of the progress of the Round Mountain Hydraulic Mining Company, as well as of the rest of the camp.  
"There was a meeting of the directors of the hydraulic company the other night," said Mr. Bartlett, "and an additional 20,000 feet of pipe was ordered that we may proceed faster with the work. We have gone to bed rock with the giants, and have found the gold there in greater quantities than on the surface. It is more than gratifying to observe this, and we have demonstrated the success of the proposition."  
"The camp in general is looking better than ever. On the Solid Gold lease of the Round Mountain Daisy, they are sacking ore, and the property grows richer as it goes down. We are not saying much about Round Mountain, but we are going right along with the work of sinking, hoisting, and now, sacking."

# ROTTEN WORK IN NEW YORK

(By Associated Press.)  
NEW YORK, Jan. 22.—Startling testimony to the effect that the hose used by the New York fire department has never been tested for fear it would burst, was obtained today from Fire Commissioner Lantry, who was a witness in the inquiry concerning defective hose used in fighting the fire in the Parker building, in which three firemen lost their lives. Lantry declared he did not know when the last test of hose was made, that there had not been a test since he became head of the department. An investigation was ordered by Mayor McClellan. Commissioners Lantry and Fire Chief Croker were the chief witnesses today and their testimony disclosed the fact that practically all the hose in the department was defective. Lantry declared that forty-one lengths burst at the Parker building fire, and that tests were not made for fear of ruining the hose.

# RAWHIDE RUSH STILL CONTINUES

The Rush from Tonopah is still on for Rawhide. Quite a crowd went out by train yesterday morning, and there is another delegation to leave this morning.  
S. H. Gillette, who is at the head of the Original Rawhide Leasing Company, leaves this morning in his automobile, taking a party with him. Mr. Gillette is much pleased with the outlook on his lease on Balloon mountain, for he is certain that he has already encountered the ledge of the Kearns lease. He carries some samples of high grade rock, and he flashes them every time anybody asks for his opinion of the new camp.  
Clarence Kind, who, with his associates, has a one-sixth interest in the Royal and Tiger group, was yesterday offered fifty thousand dollars for the interest, which he refused. The offer was made by C. J. Blumenthal, who said that the money would be forthcoming, and the first payment be made immediately, if Kind should agree.  
"We are willing to take the chances of there being a mine there as well as anybody else," responded Kind, and that is all that could be got out of him.  
Blumenthal repeated the offer several times, but there was nothing doing. It was on the Royal claim of this group that Stinson had his lease, which he sold on Sunday last for
