JUSTICE OF SUPREME COURT
subject to the will of the voters of the republican party at the primaries to be held on the 6th day of September, 1910.

WONDER WILL SOON HAVE QUARTZ MILL

Power Line Now Being Built, Water Supply Provided, and a Hurry Order Given for Machinery.

It now seems as if there is to be no further postponement of the resumption of active mining operations at the Nevada Wonder.

For a long time the officers of the company have been working on various details preparatory to the building and operation of a mill, overcoming obstacles, and now their efforts seem to have reached the point where the next step will be to commence using picks, shovels, drills and powder.

As was told last week in the Mining News, as a rumor, the company has decided to purchase its electricity from the Pacific Power company. This is the company whose line is now being built from Mono county, California, by way of Lucky Boy, Schurz and Rawhide, to Feirview and Wonder. The machinery for the great generating plant has already begun to arrive, and the pole line has reached a point between Luning and Lucky Boy. This, for a time at least, cuts out the line from Fallon.

According to a circular letter sent to stockholders over the signature of Ferdinand H. Graser, secretary of the company, a contract has been awarded to the Mill and Smelter Engineering company of New York, and the company has stipulated with the contractors for the greatest possible speed in completing their work.

The pipe line from Horse Creek is to be completed by the company, and, now that the building of the mill and furnishing power to run it are arranged for, no doubt the work will be carried on with greater regard for speed than heretofore. While a very important job, involving a great deal of labor, there are no difficult engineering problems to be solved, and by the time the mill is ready and the power line finished, the water will doubtless be on hand.

The traction engines are again in service, and with the wagons fitted with new and larger wheels, are said to be handling much heavier loads of pipe than heretofore.

During the week a team laden with picks, shovels, drills, a large range, tents and other camp equipment, arrived from Fallon and was unloaded here, to be used in connection with the laying of the pipe.

It is said to be the intention, of the management to resume operations at the mine in the immediate future, and that the new superintendent has been engaged.

With these three jobs going on at the same time, the business outlook for the next few months in this camp is good.—Wonder News.

RESUME DRILLING AT SULPHUR WELL

AFTER A WAIT OF SOME WEEKS BORING IS RESUMED ON BLACK ROCK DESERT.

During the past week there has been a revival of activity at the Sulphur oil fields. Yesterday the option of the High Gravity United Oil company on the property of the C. O. D. company would have expired had work not commenced, but Wednesday a small force of men was put to work cleaning up and getting things in shape for resuming drilling, and a telegram was received from President J. E. Kerr that he had shipped a carload of material from San Francisco.

It is reported that George Noble has organized a company and that as soon as the charter is received drilling will be commenced. It is also said that a New York company of ample means has taken over the property of the Sitting Bull company and will begin active operations within the next thirty days—Silver State.

BIG STRIKE ON ELY PROPERTY

By Associated Press.
SALT LAKE, August 11.—According to a dispatch received from Ely yesterday one of the biggest strikes in that country has just been made at the Ely-Calumet property in which A. D. Myers of Los Angeles is the controlling factor. The dispatch says that the company has struck 11 feet of ore that runs 25 per cent copper and the company is now taking out 40 tons of ore per day.

The same veins that traverse the Calumet also run through the Ely-Centennial ground. The Grand Deposit claim of the Calumet has been a great shipper in the past, much gold and silver ore having been taken out of the claim.

Temperature Report

Yesterday's hourly temperature record at the weather bureau office was as follows:

6 a. m.	63
7 a. m.	67
8 a. m.	69
9 a. m.	72
10 a. m.	74
11 a. m.	75
12 (noon)	80
1 p. m.	82
2 p. m.	83
3 p. m.	87
4 p. m.	84
5 p. m.	84
Highest a year ago, 85; lowest, 60.	

Fresh milk and cream. Tonopah Dairy.

NEW RATES TO BE IN FORCE ON OCTOBER FIRST

There is now assurance that the Reno rate case recently decided against the Southern Pacific company, by the interstate commerce commission, will result in the lowered rate going into effect October 1st, when the back haul charge will be eliminated.

There is a possibility that the railroad company will take an appeal to the interstate commerce court, although that body is not yet fully organized. In the event that the organization is not complete before October 1st., the appeal may be taken to the federal courts.

But it is understood that this is not the plan of the company. It is now compiling data on gross and net returns on freight shipped to and from Reno during four representative months, selected as October 1909, and January, April and July of this year.

The Gazette's information, which is high and unbiased, gives this paper to understand that there is little possibility of such an appeal being taken and that there is a strong probability that the city will shortly possess a number of large wholesale houses, making this the distributing point for a large section. It is also said, but not fully confirmed, that an option has been taken by a large wholesale company in the Van Buren building at Lake and Second streets, and that two stories will be added to the building and the entire structure will be occupied by this wholesale house. There are other moves being made to house the new firms, who will be able to do a large and profitable business as soon as the rate question is definitely settled.—Reno Gazette.
