Midway and Tonopah divide were the most sensational, the former going to 40 cents and the latter reaching \$5.52 1/2. The demand for Midway was ascribed to the fact that the company is just beginning to take out ore from the vein that has been in dispute with the Tonopah Mining company. The values were said to be richer than what was expected. Tonopah Divide soared on the strength of the true meaning of the discovery of the cross vein which is only beginning to
