SLAUGHTER OF THE INNOCENTS

Hebrew Babes Thrown From Third Story Windows at Odessa.

Refugees Tell of Persecution by Russians, the Indignities They Have Suffered Being Almost Incredible—The Blackest Page in Russia's History.

New York.—Russian refugees, many of them eye witnesses of the massacres in Odessa and other Russian cities, disembarked here Monday from the steamers Patricia and Chemnitz. Some of them told graphic and pitiful stories of their experiences. Jews who had themselves lain hidden in Odessa houses while mobs searched for them, Russian workman of the Christian faith, strikers from the railroads, a newspaper reporter and Germans who had long lived in Russia, joined at Ellis Island immigration station in declaring that they had been attacked irrespective of religion; that their assailants were led by police disguised in citizen's clothing and that the massacres were not race persecution, but revolution.

While telling their stories the men sometimes burst into tears, for perhaps half of the entire number had left behind them wives and children, who were either dead or defenceless in Russian cities. One of the men, Abraham Chanoch, an Odessa tinsmith, told what he saw of the Odessa massacre, from its beginning, when two rival parades, which were celebrating the new constitution, met and began to fight. He told how little children were thrown out of high windows; how Russian Christians patrolled the streets in large bands protecting Jews, while other bands of men pillaged and murdered. Workmen and students, he said, led the peace party, while disguised police usually led the hoodlums. After the first two days he and two companions escaped from the city.

Two refugees from western Russia said that there the Jew killing was started by emptying the jails of prisoners, who attacked and stole from the Jews. The men from the province of Kovino asserted that the police themselves read in the emperor's proclamation of a constitution an order to kill all Jews and cried this through the streets.

Canoch said that faces of the dead on the street were too mutilated for recognition. Each day the peasants flock to the towns predicting "the revolution is coming, and if it does not arrive today it will tomorrow."

BULL GORES OLD MAN.

Frightful Attack by Supposedly Docile Animal.

Fresno, Cal.—Before his frantic grandchildren could drag him from the bullpen Charles Bisi was gored in a fearful manner by his bull at Conejo. Bisi is an old man and feeble. The bull that attacked him has always been regarded as docile until Monday, when he made a sudden dash at Bisi as he entered the pen to lead the animal to water.

The animal's horns caught him on the hips, threw him high in the air, and as he struck the earth the bull was on him. He thrust one horn through the old man's right side and was goring him about when his grandchildren jumped the fence and dragged him to safety. Bisi's condition is critical.

TWO STATES WANT CROWE.

Omaha Kidnapper Assured of a Number of Trials.

Des Moines, Ia.—Governor Cummins on Monday issued a requisition for the return of Pat Crowe to Iowa for holding up a street car in Council Bluffs the night of July 2, 1905. A woman betrayed Crowe. Lillian C. Bolton of Council Bluffs, in the hearing for a requisition, alleged that she overheard Crowe telling others about the robbery.

Mitchell Not Mentioned.

Washington, D. C.—An adjournment of the senate was taken on Monday without any mention of the late Senator Mitchell of Oregon, and so for the first time the death of a senator was permitted to pass unnoticed by the senate. The erasure of Mr. Mitchell's name from the rolls followed. Chaplain Hale recalled the situation to mind in his prayer by referring pointedly to corruption and death and by praying that members of the senate be given strength to bear each other's burdens.

Landis Has Brilliant Idea.

Washington, D. C.—A novel method of seeking federal control over insurance is proposed in a bill introduced by Representative Landis of Indiana. The bill cites that congress has exclusive jurisdiction over the District of Columbia, the territories and the insular possessions of the United States, in consequence authority is given the department of commerce and labor to require full statements from all insurance companies doing business within such jurisdiction which will include all the big companies.

Beyond Jurisdiction of Courts.

Washington, D. C.—On motion of Former Senator Thurston, Chief Justice Fuller, on behalf of the supreme court of the United States, on Monday directed the issuance of an order dismissing the appeal of the late Senator Mitchell in the case against him. The proceeding was brief. Senator Thurston announced the death of the Oregon senator and moved the dismissal of the case. In directing the order the chief justice merely remarked that this course was usual in criminal cases.

VASE THAT IS WORTH $75,000.

It Is the Portland Vase and Now in British Museum.

Another family treasure of great value which has since passed into the keeping of the nation is the Portland vase, now exhibited in the British museum, says the Westminster Gazette This vase comes from Italy, and what its age is no man knows, though it has been proved that in 235 A. D. it was deposited in a sepulcher under the Monte del Grano, three miles from Rome, and is believed to have contained the ashes of the Emperor Severus. But, whether or no, Pope Urban VIII. had it dug up; and for more than two centuries it reposed in the Barberini palace at Rome. In 1786 the duke of Portland purchased it from Sir William Hamilton for 1,000 guineas and deposited it in the British museum fifteen years later. In 1845 a man named Lloyd, employed at the museum, picked up a stone and hurled it, in a fit of frenzy, at the case which contained the precious relic. The vase was smashed into hundreds of pieces, but with great ingenuity they were all put together again, and as it now stands is said to be worth at the very least £15,000 pounds.

Tennessee Praise.

Dayton, Tenn., Dec. 11th (Special)—Among many prominent residents to praise Dodd's Kidney Pills is Mr. N. R. Roberts of this place. He tells of what they have done for him, and his words will go deep into the hearts of all who are suffering in the same way. He says:

"I was a martyr to Kidney Trouble, but Dodd's Kidney Pills completely cured me. I shall always keep them on hand in case there should be any return of the old trouble, but I am thankful to say they did their work so well there has not been the slightest sign of my old complaint coming back. The pain in my back used to be terrible. If I got down I had a hard job to get straight again. But my back is like a new one now and I can stoop as much as I please. I don't believe there ever was any medicine half so good as Dodd's Kidney Pills."

Use the Means at Hand.

It is not money so much as brains that the small merchant wants for advertising—the handicap of deficient capital is as nothing compared with the handicap of defective thinking. Whatever excuse may be given for failing in business, the lamest of all is "lack of means to advertise," because the business does not exist that cannot be exploited profitably with the means at hand.

MEMORY PLAYS UNKIND TRICK.

Caused Educator's Inability to Place Rather Prominent Man.

At a recent dinner of the Geodetic club Prof. Shaler of Harvard told the following story on himself: "I still remember a mental slip I made nearly thirty years ago when in Washington attending a large educational conference. I was alone in the hotel parlor waiting for two of my friends when a rather short, bearded man entered and, seeing me, advanced to shake hands with a cordial, 'Glad to see you, Prof. Shaler.' At the moment I was unable to place him and had to confess my lapse of memory. I explained that I was meeting so many people that I could not remember the name of each, though the face might be very familiar. He smiled and said he quite understood and drew out his card. On it was engraved 'Gen. Ulysses S. Grant,' and then I understood why his face was so very familiar."

Vitality.

Keep up your vitality and you will never know disease of any kind. No disease can exist where there is an abundance of pure blood. To get the necessary amount, eat nutritious food; to circulate it perfectly, take proper exercise; to purify it, get fresh air and sunshine. If a perfectly healthy condition of the skin exists and an even temperature of the surface of the body is maintained, it is impossible to catch cold. Cold water baths taken every day will do much towards producing the former; proper food and exercise the latter.—London Tit-Bits.

A BRAIN WORKER.

Must Have the Kind of Food That Nourishes Brain.

"I am a literary man whose nervous energy is a great part of my stock in trade, and ordinarily I have little patience with breakfast foods and the extravagant claims made of them. But I cannot withhold my acknowledgment of the debt that I owe to Grape-Nuts food.

"I discovered long ago that the very bulkiness of the ordinary diet was not calculated to give one a clear head, the power of sustained, accurate thinking. I always felt heavy and sluggish in mind as well as body after eating the ordinary meal, which diverted the blood from the brain to the digestive apparatus.

"I tried foods easy of digestion, but found them usually deficient in nutriment. I experimented with many breakfast foods and they, too proved unsatisfactory, till I reached Grape-Nuts. And then the problem was solved.

"Grape-Nuts agreed with me perfectly from the beginning, satisfying my hunger and supplying the nutriment that so many other prepared foods lack.

"I had not been using it very long before I found that I was turning out an unusual quantity and quality of work. Continued use has demonstrated to my entire satisfaction that Grape-Nuts food contains all the elements needed by the brain and nervous system of the hard working public writer." MANIAC SLEW HUSBAND AND HID IN A SWAMP

Dogs Used in Search for Murderess, Whose Clothes Were in Tatters and Feet Bleeding When Captured.

South Norwalk, Conn.—Crouched in the bushes of a swamp, her hair dishevelled and full of burrs, her dress in tatters and her feet uncovered and bleeding, a posse of men found Mrs. Edward Gustafson Sunday afternoon, a maniac.

Mrs. Gustafson is the young woman who shot her husband in their home Saturday and then chased him around the house and upstairs, where the pistol was taken from her after a stubborn fight. She had fired three shots at her husband during the pursuit and had threatened the lives of her two little daughters. She made her escape to the woods, and large posses of police and citizens scoured the country all through the night, using lanterns and dogs in their hunt for the demented woman, fearing she would return and kill the girls.

Mrs. Gustafson has not spoken since she was captured. She made no resistance, and her mind is apparently blank. Gustafson is dead.

"BEN HUR."

The Representative American Drama of the Age.

Salt Lake City, Utah.—Among Americans who are inspired by patriotic sentiment there cannot fail to be a sense of gratification that the most important play in the history of the stage world is the work of an American. That play is "Ben Hur"—the author, General Lew Wallace. Since its original production in New York City, the closing year of the last century, it has been presented in many foreign countries and languages, and all have acknowledged its superiority. The attention paid it by representative personages of the world, from the Pope of Rome to the King of England and the President of the United States, has worked a healthy influence among all classes, and today to attend a performance of "Ben Hur" is considered a part of the education of the rising generation.

The public of this vicinity will have an opportunity to witness "Ben Hur" at the Salt Lake theatre, Salt Lake City, Utah, Christmas week. It is to be enacted for six nights, starting December 25th. Matinees are to be given on Christmas day, Wednesday and Saturday.

GUNBOAT MAKES TROUBLE.

High-Handed Outrage Perpetrated at Brazilian Port.

Washington.—The Brazilian embassy in this city has received a telegram from Baron de Rio Branco, the minister of foreign affairs, stating that a few days ago several of the officers of the German gunboat Panther went ashore in civilian dress and visited a small fishing town called Itajahy in the state of Santa Catalina, and there, without any form of process, seized a man by the name of Setinhoff, who had left his native country, Germany, as a deserter from the army, and took him with them as a prisoner on the Panther. Thereupon the gunboat left Itajahy and went to another port in the state of Rio Grande Dosul. The three Brazilian cruisers, Almirante Barroo, Benj. Constant and Tammandare, were sent to watch the Panther and see that no similar occurrences should again happen, while the Brazilian government made an official protest against the action of those officers to the German government.

Two Carriers Killed and Policeman Wounded in Street Fight.

St. Petersburg.—A disturbance in which two carriers were killed and a policeman and several others were wounded occurred Saturday, immediately in front of the postoffice. The strikers for two days had been seeking to persuade the volunteer and regular carriers to refuse to work. At the door of the building on Saturday the strikers, enraged at the refusal of the volunteers to quit, drew knives, whereupon a carrier attempted to defend himself with a revolver. Both the carrier and a companion were killed on the spot.

A squad of policemen was stood off by the strikers and workmen who sympathized with them. Both sides exchanged a fierce fusilade, during which a policeman and several workmen were wounded.

As the strikers were withdrawing a Cossack patrol came galloping to the rescue. One of the strikers turned and threw an imitation bomb and the Cossacks wheeled in order to avoid what they presumed to be a deadly missile. The crowd managed to get in an open courtway close to the door and to escape.

Sudden Death of Ewing.

Salt Lake City.—Samuel C. Ewing, one of the best known hotel men in the west, and since 1871 prominently identified with Utah's mining interests, passed away at 1:30 o'clock Saturday afternoon, five minutes after he had taken an overdose of tincture of digitalis. The medicine had been prescribed for heart trouble, from which Mr. Ewing had suffered for several years. The indicated dose was ten drops. Mr. Ewing swallowed a teaspoonful.

Masked Men Loot a Bank in a Massachusetts Town.

Reading, Mass.—Eight masked men entered Reading early Saturday, captured and locked up the two policemen who were patrolling the main street, and then forced entrance to the Mechanics bank, where they wrecked a safe belonging to the Reading water works. They secured $406. A. P. Brooks, a citizen, exchanged shots with the men left on guard outside the bank, but no one was injured, however.

A Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherrybark, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, chronic coughs, bronchial and laryngeal troubles, and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures. Send for and read the little book of extracts, treating of the properties and uses of the several medicinal roots that enter into Dr. Pierce's Golden Medical Discovery and learn *why* this medicine has such a wide range of application in the cure of diseases. It is sent *free*. Address Dr. R. V. Pierce, Buffalo, N. Y. The "Discovery" contains no alcohol or harmful, habit-forming drug. Ingredients all printed on each bottle wrapper in plain English.

Sick people, especially those suffering from diseases of long standing, are invited to consult Dr. Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy.

AN AWFUL SKIN HUMOR.

Covered Head, Neck and Shoulders—Suffered Agony for Twenty-five Years Until Cured by Cuticura.

"For twenty-five years I suffered agony from a terrible humor, completely covering my head, neck and shoulders, discharging matter of such offensiveness to sight and smell that I became an object of dread. I consulted the most able doctors far and near, to no avail. Then I got Cuticura, and in a surprisingly short time I was completely cured. For this I thank Cuticura, and advise all those suffering from skin humors to get it and end their misery at once. S. P. Keyes, 149 Congress Street, Boston, Mass."

ACCOUNTS FOR POSTAL DEFICIT

Free Matter Handled Represents a Loss of Twenty Millions in Revenue.

Postmaster General Is Less Concerned About Deficit Than the Efficiency of the Postal Department—Deficit for the Year Is Nearly Fifteen Million

Washington.—Postmaster General Cortelyou, in his annual report for the past fiscal year, says that, while a self-sustaining condition of the post-office department would be gratifying, he is less concerned about the deficit than the efficiency of administration. For the fiscal year 1905 the total receipts from all sources were $152,826,585 and the total expenditures $167,399,169, leaving a deficit of $14,572,584. In connection with these figures the postmaster general directs attention to the increased amount of free matter handled, which, he says, averaged 12.58 per cent of the entire weight carried, or a loss in revenue of $19,822,000.

"Manifestly," he says, "had the matter carried free been required to have been prepaid, notwithstanding the large expenditures for the rural free delivery service there would have been no deficit."

Answering some of the criticisms which, he says, have been directed against the postal service, he says that most of it overlooks the unusual conditions existing in this country, its great extent of territory and its widely scattered population.

Governmental control of the pneumatic tube service and the mail wagon service is recommended.

An appropriation of $10,000 for sending three experienced postal officials abroad to study foreign postal systems is asked.

FOR THE UPBUILDING OF UTAH.

Manufacturers and Merchants Working for Betterment of the State.

Salt Lake City.—The Manufacturers and Merchants' association, incorporated, of Utah, has been organized in Salt Lake, and is planning to extend its organization throughout the state. All manufacturers and merchants in the state are eligible to membership, and are invited by the association to send applications for membership to the manager. All requests for information will be promptly answered.

The organization has been perfected by the election of Orson H. Hewlett, as president, and the following officers: George S. McAllister of Z. C. M. I., factories, vice president; Leon Sweet of Sweet Candy Co., second vice president; G. R. Cleaveland of Cleaveland Commission Co., secretary, and C. O. Harris of the Utah Independent Telephone Co., treasurer. The other directors are the officers named and George Austin of the Utah Sugar Co., Nephi L. Morris, J. R. Valentine, H. E. Deardorff, John R. Bruff, H. J. Faust, George A. Whitaker, J. M. Marriott and Albert Fisher.

The association will secure a complete collection of the articles manufactured in Utah and will have them on exhibition in the headquarters of the organization. Manufacturers throughout the state are asked to communicate at once with the manager, Gordon H. Place, and secure space for their products.

Building Boom Throughout United States.

Chicago.—Official reports of building construction in some fifty leading cities throughout the country, compiled by the American Contractor of Chicago, indicate that the building industry is in a flourishing conditon and in somewhat greater volume than in November, 1904. While about a dozen cities of the fifty show a decrease compared with November, 1904, the balance show a decided gain, running as high as 449 per cent in Omaha. A general average through the entire list presents a very favorable aspect.

Attacked By Vicious Cow.

Peru, Ind.—Unconscious after a probably fatal attack by a vicious cow, Mrs. Noah Lapard was found lying in the barn at her home four miles north of here on Sunday. She went to the barn early in the day after her husband had gone to Peru and upon his return he found her with her clothing torn into shreds and several wounds on her head and body. The bloody horns of the cow told the story of the woman's injuries.

Counterfeiters Are Caught.

Los Angeles, Cal.—In the arrest Sunday morning of Frank Weller, alias Wilder, and Joseph Castro, alias Lawrence, by United States Secret Service Agent Cronin and officers from the central police station, it is believed that one of the smoothest gangs of counterfeiters that has operated on the Pacific coast for years was broken up. With the prisoners a quantity of paraphernalia was confiscated and sufficient evidence is said to be possessed by the officers to permit of a prosecution of the charge.
