Doings and Events at Alamo

Henry Edwards has returned from Irish Mountain, where he has been working at the mines.
Clarence Wadsworth, who it was thought had recovered from a rheumatic attack, had a relapse Saturday. He was taken to the home of Mrs. Luna Brown, where he will be nursed back to health.
Alamo was honored by the presence of the home missionaries of the L. D. S. church, A. V. Lee and Erasmus Hansen of Panaca, this week.
Ernest Gentry of Panaca was a visitor in the valley Sunday.
Verne Call, son of a Salt Lake business man, has returned to Alamo after working two months for George Theriot.
George Theriot was a visitor here Sunday.
Evan Davis spent Sunday in Alamo. He is at present working at Hiko.
A truckload of iron rods and blacksmith coal has passed through here on its way to Irish Mountain, which indicates that there is going to be something doing there in the near future.
Cigarette smoking is getting pretty well started among the young boys of this place. Sunday a 11-year-old boy was observed smoking a tailor-made cigarette. It is the duty of parents to do all within their power to stop this evil habit and warn their boys of the bad effects of the weed.
Irvin Riggs has left for southern Utah on business.
Charles Thompson of Ely, state sheep inspector, is here looking after the dipping of the sheep in this valley.
W. F. Thorne has returned to the valley after a week's absence.
Roy Grant of southern Utah accompanied Ernest Higbee to Alamo. They left recently for their cattle range southwest of here.
The Independence Day celebration in Alamo will take place Saturday, July 2. Joseph Cox reports that his corn stands three feet high. He believes it will produce 100 bushels or better per acre.
Virgil Stowell and his father were down from Irish Mountain. After spending a couple of days here they returned to the mines.
Three army officers in full uniform passed through Alamo on their way to Irish Mountain recently.

News and Gossip from Panaca

Mrs. Mary Karren and children of Salt Lake are visiting Mr. and Mrs. A. H. Wedge. Mrs. Karren spent several years of her childhood days here and is happy in renewing old acquaintances.
Mrs. William Buttler and son returned home last Friday after two weeks spent with relatives and friends at Salt Lake, Murray and Spanish Fork, Utah.
Mrs. Ralph Callaway and children are here with Mr. and Mrs. L. C. Callaway. Ralph spent a few days of last week here.
Miss Lucile Karren is here as the guest of Miss Lucille Buttler.
C. C. Ronnow of Las Vegas, J. I. Earl of Overton and Stowell Whitney of St. Thomas, Nev., spent last Sunday here as home missionaries.
Mrs. Annie R. Edwards returned home Monday last after an absence of three weeks. After a few days spent in Salt Lake she went to visit her sister, Mrs. E. H. Redford, at Rupert, Idaho.
A. V. Lee and E. A. Hansen spent last Sunday at Alamo.
Mrs. Roy Ellsworth, who has been seriously ill, is improving.
Miss Gertrude Long has gone to Caliente to stay with Mrs. Levi Blad.
Mrs. R. Danvers is confined to her home on account of illness. Her daughter Mary is in charge of the postoffice during her absence.
Word has been received here of the marriage of Verne Fitzgerald of Pioche and Miss Ireta Keele of this place. The event occurred at Salt Lake.
Miss Martha Ronnow of Monroe, Utah, is visiting relatives here.
C. G. Campbell, editor of the Caliente News, spent Friday and Saturday of last week here soliciting subscriptions.

Mining Notes of Pioche District

Ted Gentry has secured a lease on the Advance and Democrat claims from Henry Lawrence of Salt Lake, owner of the property. Some exceptionally good ore has been produced from these claims and the adjoining mine, the Gold Chief. These properties are located about three miles from the Pioche-Caliente railroad, five miles north of Caliente.
The tailings dumps from the Mendha mill are to be cyanided by R. J. Evans Jr., T. H. Franklin and Neal Snyder of Salt Lake, a load of supplies and material having been taken out from Pioche Wednesday for the purpose of starting the work. The dump will be leached as it stands, the solution to be put on the top and drawn off the bottom. This will be an inexpensive and quick operation. Although a high extraction of the total values in the ore cannot be expected, it is believed that due to the large tonnage treated a good profit will be obtained. The tailings carry about \$2.50 in gold and a small amount of silver.
Joe Foster is sinking a shaft on the Meridian claim, on the Meadow Valley summit. Although working alone, he is making good progress and expects to open up a good body of ore at any time, but one delegate should be seated by each post to officially represent the post at the conference.

State Convention American Legion Pickett Selected as Committeeman

A convention of Nevada members of the American Legion will be held at Lovelock, Nev., Tuesday, July 6, according to information received by Adjutant George W. Franks of the Pioche post from J. G. Scragham, department commander of the state organization.
The convention has been called for the purpose of disposing of urgent business which has arisen during the last few months and in which the various posts of the state are entitled to send delegates and have a say in the disposition of the questions as they come up.
The first matter of importance will be the election of delegates to the national convention, which will convene in Cleveland, O., during the month of September next. A national executive committeeman will be elected to represent the state of Nevada. Officers will also be elected for the American Legion, department of Nevada, for the ensuing year, the following vacancies to be filled: Commander, first vice-commander, second vice-commander, finance officer and historian. In addition to these department officers three other members will be elected by the convention, the combined officers to make up the department executive committee.
Each post of the legion in Nevada is entitled to one delegate and one alternate delegate for each fifteen members whose dues are paid up two weeks prior to the date of the convention. The vote of each post shall equal the number of delegates to which the post is entitled.
A membership drive under the auspices of the state organization of the legion has been under way since May 17 last, and this drive will be continued with renewed energy until two weeks prior to the date of the convention, as provided in the constitution, which places the date for the closing of the drive on June 25, 1918.
A representative of the federal board for vocational education will hold a conference with delegates from all posts the evening preceding the convention, Monday, July 6. All delegates are requested to attend this conference.

SEEK TO IMPROVE SILVER SITUATION

The mining industry should be proud of Senators Henderson and Pittman of Nevada. Both of these gentlemen are constantly on the alert to do something for the mining industry. Nevada has the richest bunch of mining men in the west, and this is saying a great deal when we consider that the Rocky Mountain country is teeming with mining activity at the present time. But Nevada is a big state and the mining men there are big, broad-minded operators constantly looking for another Comstock, a Goldfield or a Tonopah. Senator Pittman is the author of the Pittman law which pledges the United States to reproduce 250,000,000 ounces of silver for the United States treasury. Now Senator Henderson has introduced a bill "to authorize loans on silver bullion; to regulate interstate shipments of ore containing silver, and for other purposes." This bill if it is enacted into law will enable silver producers in the country to borrow 87 1/2 cents an ounce on all silver produced, rather than to be compelled to sell on a market as low as the government protected price of \$1 an ounce.
Our financiers must be asleep at the switch down in Washington to allow the British to so manipulate the silver market as to get the price down so unreasonably below \$1 per ounce. Evidently Washington does not understand the situation. It would appear that silver producers need a selling organization such as the copper producers now maintain. In the present limited silver production there is no question but that with a buying pool large enough to carry even one or two million ounces of silver the price today would be nearer \$2 an ounce than \$1 an ounce. Senator Henderson's bill would provide a plan somewhat similar to a buying pool. The bill will have some mighty rough sledding before it becomes a law, as it seems to be the spirit of eastern financial centers and Washington to help the miners as little as possible. The American congress is doing a good work in overcoming this condition and by keeping everlastingly after congress the mining industry may again be made prosperous.

Baseball Park Is Much Improved

The Pioche baseball park was the scene of much activity last Sunday when, early in the morning, fans and players began to appear, laden with shovels and other tools for the work of smoothing up and grubbing out both the in and out fields.
Two trucks, one being the property of Lincoln county and the other belonging to the Pioche Mines Company, also put in an appearance and about twenty loads of tallings were hauled to the infield from one of the dumps in the near vicinity, this later being thoroughly rolled and treated by machinery and men who knew how it should be done.
The improvement is noticeable and will add greatly to the efficiency of participants in the games to come.
Work has been continued on the field at odd intervals during the week and by Saturday, the day of the celebration, the entire park will be in first-class condition for a great baseball game.
