

A CARSON CITY GIRL DIES CAUSE OF ACTIVITY IN THE COMSTOCK STOCKS

Miss Elsie Sauve, only daughter of Joseph Sauve, died this morning at 11:15 o'clock at the residence of her aunt, Mrs. E. Edgecomb. Miss Sauve was stricken with paralysis in Reno just one wee kago today and her relatives were summoned to her bedside. As soon as possible she was brought to this city arriving on the local train Friday afternoon. The best medical attendance had been secured both in this city and in Reno but all efforts to save her were unavailing. Even if it had been possible to prolong her life she would have been a helpless cripple. Miss Sauve was an energetic young lady of happy disposition and had many friends who deeply deplore her untimely death. She was twenty one years old August 31 and was just beginning the journey of life. She leaves to mourn her loss a devoted and grief stricken father, a loving brother and two aunts, Mrs. Edgecomb of this city and Mrs. J. Q. A. Adams of Genoa. The funeral will take place Wednesday afternoon.

RENO CATHOLIC CARNIVAL DAUGHTER OF REVOLUTION CELEBRATES BIRTHDAY

RENO, Nov. 12.—The activity in Sierra stock is believed to have been precipitated by an effort of the Butlers or some other company to obtain control of the Cedar Hill territory, which contains an immense amount of low-grade ore, threaded with high-grade stringers, a territory that has scarcely been touched. The mastery of the hot water which has flooded the lower levels of the lode for the last twenty years has also caused a revival in Comstock securities. While the high-grade ore bodies in the Comstock have been worked out as far as discovered there are tremendous deposits of low grade which have never been touched. Millions of tons of low grade rock lie in Mt. Davidson and vicinity and the greatest revival will come when these bodies are worked. The new rough carbon photos in the sepia tints as displayed by A. L. Smith are attracting the attention of all. The work is beautiful in detail and soft in finish.

NETS \$5000

RENO, Nov. 12.—Father Tubman announced Saturday that the total receipts from the Carnival of Nations, recently held for the benefit of the Catholic fund, are \$5,414.69. This sum netted the Catholic church by the liberal donations and patronage of the people of Nevada, will add materially in the construction of the edifice, the foundation of which has already been begun.

ALLIE ROSS WRITES FROM CHEFOO, CHINA

WORCESTER, Mass., Nov. 12.—Mrs. Joanna Bowman Fletcher, one of the few surviving "Daughters of the Revolution," celebrated her ninety fifth birthday at her home in this city today. Congratulations came from chapters of the D. A. R. in Boston and other cities of Massachusetts. Mrs. Fletcher has been totally blind for twenty years, and except for this affliction her faculties remain unimpaired.

REGRET NO APPEARANCE OF THE ELLEFORDS

The following letter from Allie Ross a Carson City boy well known here, will prove interesting to his friends: Chefoo, China, Oct. 7, 1906. Dear Friend— I thought I would write you a few lines to let you know the news about the station. The Raleigh, the ship I am on, is the only ship lying at Chefoo, and I guess we will lay here all winter. When the snow flies it is going to be pretty cold here. We are going to have a big cruiser come from New York to this station. I have been in every place in China, Japan and Manila. The best place on this station is Shanghai and you can find all sorts of sport there. Since Admiral Train died at Chefoo, August 4, all sport is out of the question, even the football and baseball teams are cut out. Captain Logan took the Ohio for a 19 months' cruise and she has gone home to New York for good. The battleship Wisconsin has gone to San Francisco for repairs, and from there she will go to New York City to be in the battleship squadron under Commander-in-Chief Rear Admiral Evans of the North Atlantic Fleet. They are having some trouble in the Philippines and if war breaks out again there will be plenty of Uncle Sam's ships at the station. But I don't think the trouble will amount to anything after all. Yours truly, ALLEN C. ROSS, U. S. S. Raleigh.

VESEVIUS MORE ACTIVE

NAPLES, Nov. 12.—At noon Saturday Mount Vesuvius and the surrounding villages were shaken up by a kind of earthquake which was accompanied by detonations and followed by a considerable fall of ashes, especially over Ottajano, which was destroyed during the eruption of last April and is in the course of reconstruction. The phenomenon caused great alarm. Investigation showed that part of the crater of the volcano had fallen in.

POLES REFUSE TO SPEAK A GERMAN LANGUAGE

BERLIN, Nov. 12.—Fifty thousand Polish children persist in refusing to respond to the German language in religious instruction in the public schools and the Prussian government continues to apply measures designed to convince the children and their parents that their resistance will be of no avail. All Prussian Poland is stirred by the outbreak of race and political hatred.

COTTON CARNIVAL AT HOUSTON

HOUSTON, Texas, Nov. 12.—In early morning today that Houston's annual carnival is to draw unprecedented crowds to this city. All trains arriving Sunday night and today brought hundreds of visitors from far and near and the hotels and boarding houses are filled to overflowing. The opening day's program was successfully carried out, including the reception of King Notice this morning and the formal opening of Giggling Park in the afternoon. Governor Lanham and many other visitors of note witnessed the day's festivities. The city is more geographically decorated than ever before in its history and all indications point to a most successful carnival. Parades and pageants, conventions, races, athletic events and numerous other features will occupy every day and night of the week.

BELL HAS BIG MAJORITY

RENO, Nov. 12.—Frank Bell, who was elected Justice of the Peace in Reno townsite Tuesday, was at one time Governor of Nevada, having succeeded C. C. Stevenson, completing his term of office in 1890. "Governor" Bell as he is known, was at one time a man of considerable wealth, but he lost most of it in unfortunate investments and a year ago requested the county commissioners to appoint him to the office of Justice of the Peace, made vacant by the death of the incumbent. He was appointed by the commissioners and went before the people for reelection. Although the Township in which Reno is located went democratic, Mr. Bell, who is a republican, got twice as many votes as his democrat, socialist and independent opponents. In early days Frank Bell was Coast Manager of the Western Union Telegraph company and later was in charge of the Bell telephone system in the Pacific States. He is well known by all the old telegraphers and telephone men of California, Washington and Oregon.

JOHN GALVIN DEAD

John Galvin, who has been ill with typhoid fever the past two months, died this afternoon at the residence of Mrs. McPherson. Mr. Galvin was a stranger here, having come originally to work on the schoolhouse and remaining afterwards to do carpenter work.

VALUE OF DENATURED ALCOHOL

The passage of the denatured alcohol bill was a most fortunate event. No good arguments were presented against it and there is no reason why we should not make large quantities of alcohol for industrial purposes. The farmer will be benefited by it as much as any other class. But we should not indulge in too wild speculations over it. Alcohol cannot and will not drive gasoline out of the market, but it will find its legitimate place in the industrial system. Denatured alcohol cannot be expected to raise the average price of standard farm crops. There are always compensating factors which prevent any one element of our industrial system from upsetting and disturbing the whole thing. So it will be with alcohol.—Farming.

COMMITTEE OF FIFTEEN WILL DEDICATE MONUMENT TO IOWA SOLDIERS

CHICAGO, Ill., Nov. 12.—The "Committee of Fifteen" appointed to redraft forms for standard insurance policies, met at the Palmer House today. Its discussions probably will continue until completed. It is expected a report will be prepared in time for the opening of Congress, and it is hoped that its report will be no less influential in the state legislature this winter.

EXTENSIVE DEVELOPMENTS

SALT LAKE, Nov. 12.—No company operating in the camp of Ely is now cutting a wider swath or accomplishing more with its money than is the Ely Consolidated company under the management of its experienced and popular manager, Ollus Jeldness. He has been in this city for two or three days in conference with the other directors and officers of the company and to take part in the closing of a deal for additional ground, a deal which was successfully concluded. The company is now pounding down three shafts, all within a short distance of the Nevada Consolidated company's famous Ruth workings, and Mr. Jeldness reports that ore is being disclosed in all of them, as well as in the diamond drill hole that is being sunk at a point about midway between the Brilliant and Zack shafts. In addition to the work that is going on at these points it has been decided since the arrival of Manager Jeldness to at once begin the sinking of a shaft on the company's northern claim at a point close to the Jupiter shaft of the Cumberland Ely, and another on the Rising Sun ground, where a great flow out of high-grade oxidized ore crops bodily to the surface.

PLACED IN SANITARIUM

CLEVELAND, Nov. 12.—An announcement has been made by Dr. Minot J. Savage, the eminent clergyman of New York, that by reason of the unsettled condition of his health he has been placed in a private sanitarium for treatment. Dr. Savage resigned last February as pastor of the Church of the Messiah, New York, and went to California, where he remained for several months, but his health showing no improvement there, he returned here.

A CRUEL CHICAGO GIRL

Mrs. Reginald de Koven, the brilliant author of "A Sawdust Doll," said of a certain piece of cruelty: "It reminds me of the action of a Chicago girl. 'Why have you thrown over Mr. Smith?' a friend said to the girl reproachfully. 'Oh,' she replied, 'I could never marry a girl with a crooked leg.' 'What made his leg crooked?' 'I ran over it with my motor car.'"

SHAFER CRITICALLY ILL

BAKERSFIELD, Nov. 12.—The condition of Major-General Shafter, who is critically ill at his ranch near this city, is unchanged. During the entire night physicians were in constant attendance. It was announced on the return of the doctors from the ranch early this morning that a decided change for the better must be apparent today or life will be despaired of.

NEW RAILROAD FOR ISLAND

MANILA, Nov. 12.—Governor General Smith and Commissioner Lazarina accompanied by several native guests have gone on a two weeks' tour of the southern archipelago to observe conditions in the provinces and formerly open the White Syndicate Railroad construction by turning the first sod in Cebu. Governor General Smith will also attend the opening of three schools and examine into the cause of the local disturbances on Samar and Suyo.

WOUND IS FATAL

TONOPAH, Nov. 12.—Robert Gordon, who was shot during a quarrel over a woman several days ago, died Saturday morning and John Burned who shot him was held to answer before the grand jury on a charge of murder. Both men are colored.

FALL DESTROYED BY FIRE

The Sierra Club dance hall at Huffakers near Reno, was destroyed by fire early Saturday morning. The loss to the club is estimated at \$1,000. The insurance on the building was \$1,000 while the structure and contents were worth about \$2,600.

SWEET STRAINS

The Royal Hawaiian Band will appear at the Opera House next Tuesday evening and a musical treat is in store for all. The Hawaiian music is fascinating and harmonious and when rendered by the native band, which is perfectly drilled, and skillfully conducted, it receives an added charm which makes it delightful to the ear.

NEVADA LEADS PROCESSION

If half the stories are true, Nevada will, in 1907 resume her place as the foremost mineral producing state in the Union. She threatens to be to the mining world what she was between 1850 and 1876. We suspect that it will be as it was before—that it will be Nevada that will rebuild San Francisco. San Francisco was but a clump of low houses and was really but a village, until Nevada built and transformed the city.—Salt Lake Telegram.

SALARIES RAISED

It is estimated that the Wells Fargo Express company finds it almost impossible to keep an agent at Goldfield, Tonopah and the other towns in the Nevada gold region owing to the fact that the clerks are shortly gobbled up by the banks and other business interests, which offer higher wages than paid by the company. During the past two months the employees of the company have received two raises in salaries and are now well satisfied with their present income.
