FRENCH OF ALL AGES HAVE TO LABOR FOR GERMANS

WITH THE AMERICAN TROOPS IN FRANCE, Oct. 10. — Renewed evidence of German ruthlessness in dealing with the civilian population of invaded territories is contained in a captured army order.

All the inhabitants capable of working, the order says, must be used for the needs of the army, regardless of their age. Their salaries are to be paid in paper currency at the rate of 50 cents a day for men and women, between the ages of 17 and 20; and 30 cents for boys from 15 to 17.

The inhabitants, however, must pay in French gold or silver for their rations. The supplies of course were taken from the population before being sold back to them.

Miner Shoots Self Fred Hasche, a Tonopah miner, was found dead in his cabin there a few days ago with a bullet wound in his head and a revolver grasped in his hand.

MANY USES FOR SANDBAG

The sandbag is one of the most useful pieces of military equipment found anywhere and the soldier puts it to manifold uses. Their official use, of course, is to be filled with sand or clay and built into ramparts, barricades and trenches.

Strange Bequest.

A strange bequest was made by a retired soap manufacturer recently. He left the sum of a little more than eleven hundred dollars, to found a home for "homeless cats and dogs," but stipulated that the money is not to be touched until the year 2163.

Curious Wooden Clock.

Seattle, Wash., boasts a curious wooden clock, three and a half feet in diameter, with a minute hand over four feet long. The case is not guaranteed, but it is supposed to be over 225 years old and is expected to last for some years to come.

WITHIN A MONTH

By ETHEL V. HALL.

Violet sat on the top rail of the fence, smiling to herself. She was thinking of the words she had had with her mother a month before. Violet's health was not very good, and the doctor had ordered her to the country for the summer.

"Come, Sport, old dog. Let's take a run," said Violet, jumping from the fence and starting down the field with Sport, a large collie dog, close at her heels. "Now, Sport, I'm going to roll down this hill, and don't you laugh at me, either," said Violet, giving his ear a twitch.

"What's this?" questioned Violet, reading the note and looking suspiciously into the woods. The note ran: "It was great fun watching you roll down that hill. I would like to see you do it again tomorrow at the same time. I'm going to talk with you, too."

"Well, I never saw a girl of nineteen that wasn't looking for a husband. I'll bet if you met him you would be engaged to him within a month." "Now, Henry," protested his wife, but Henry got up and kissed the rest of the sentence away.

"Well, I'll keep my word; I bet if you met him you would be engaged within a month." "I bet I would, too," sang Violet as she skipped out of the house, and Uncle Henry looked in wonderment at his wife.

That night, before dark, Violet very slyly kept peeping out of the window, and at last her heart seemed to beat harder than ever before, when she saw him coming. "Well," said Uncle Henry, "here comes that Billy Morris now," but he got no further, for he was some surprised to see Violet run down to the gate to meet Billy.

"Well," said Uncle Henry, "here comes that Billy Morris now," but he got no further, for he was some surprised to see Violet run down to the gate to meet Billy.

WAR DOG'S DINNER BELL IS EXPLOSION OF BOMB

A DOG TRAINING CAMP IN FRANCE, Oct. 10. — A war dog's dinner bell is a bomb. When all is ready for the meal, men standing near dugout craters close to the kennels throw in fused hand grenades, and right and left all over the place there are terrific explosions with clouds of smoke and dust.

Goldfield, Nevada, April 13th, 1918. To, RACHEL M. GRADY, RUTH GRADY CLARK, MAUDE KELLY and ELMER GRADY. You, and each of you are hereby notified that I have expended during the years 1915 and 1916 upon the Ella Lode Mining Claim for the benefit of the contiguous group of lode mining claims known as the Ella, Old Glory and Mary Jane Lodes, situated in the Cuprite Mining District, Esmeralda County, Nevada.

Union Amalgamated Only one shift is now working in this property, but the force will be increased as soon as money is available from the present assessment. The operations are confined to the 500 level, where the blocking out of ore is in progress.

BOLSHEVIKI ARE NOT WANTED IN SIBERIA

TOKIO, Oct. 8. — Failure of the Bolsheviki to control Siberia was partly due to the fact that the leaders of the provisional Siberian government have organized "co-operative unions" throughout the country which have welded the people into one great family, hostile alike to the blandishments of radicalism and of the Germans.

Twenty-nine of these bodies were formed in villages and counties shortly after the beginning of the revolution, according to Arcady Petroff, deputy minister of foreign affairs of autonomous Siberia, now in Tokio, and number about 100,000 conservative socialists, democrats and army officers of the former régime living in the region between Ural and Irkutsk.

Mr. Petroff declared it was owing to the assistance of these societies in providing arms, munitions, food and clothing that the Czecho-Slovaks have been so successful against the Lenine-Trotsky troops. The people of Siberia, he said, were anxious when he left Siberia to see the country along the railway cleared of the Bolsheviki and order and tranquility restored by the allies.
