One Year - \$5.00 Three Months - \$1.75
Six Months - 2.50 Single Copies - .10

Commercial advertisements \$2.50 an inch per month.
Local reading notices 15 cents a line.

Entered at the Goldfield postoffice for transmission through the mails at second class rates.

A SEVEN-COLUMN PAPER

The new presses, type, paper cutter, etc., which will enable THE NEWS to issue a seven column paper, have arrived and it is hoped to get them into position in time to issue the enlarged paper next week. For extra dispatch in forwarding the shipments we are under obligations and return sincere thanks to the Southern Pacific and V. and T. railways, Superintendent Tripp of the Tonopah railroad and Harry Hudson.

Under the heading "Local News on Every Page," the Reese River Reveille reproduces an item from THE NEWS and credits it to the "Goldfield Sun." The Reveille is informed that at present THE NEWS is the only paper published in the Goldfield district, but there are rumors of something like a dozen more for the near future.

The August number of the Sunset Magazine, which will soon be out, contains a nicely illustrated article on Goldfield, written by the editor of THE NEWS. As the illustrations in the Sunset are usually superb, it will make the handsomest and best advertisement the district has yet had.

The national democratic convention has made its nominations and Alton B. Parker, of New York, and Henry G. Davis, of West Virginia, will oppose Theodore Roosevelt, of New York, and Charles W. Fairbanks, of Indiana. Mr. Parker announces that he is in favor of the gold standard.

The soliciting committee to raise funds for fire apparatus are now at work. Goldfield is in urgent need of fire protection and the committee should meet with the utmost encouragement in their laudable efforts for the public good.

The Wells Herald invites prospective candidates for political office to make announcements through its columns at \$10 per announce. "No \$10, no announcement," is the frank way the Herald puts it.

The last issue of THE GOLDFIELD NEWS was printed in red and blue and was a neat piece of work.—Reese River Reveille.

NEWS FROM HAWTHORNE

(Special Correspondence.)

The grand jury of Esmeralda county was in attendance upon the District Court at Hawthorne on the 8th of July. In the case of the State against W. J. Kepler they found an indictment against the defendant charging him with an assault with intent to kill.

In the case of the State against Howard Sharp the grand jury failed to return an indictment against the defendant. The sureties on the bail bond of Sharp were released and the defendant discharged. In view of the strong showing made against the defendant by the depositions taken at the preliminary examination and the six witnesses who testified before the grand jury, most of whom testified at the preliminary examination, it was some thing of a surprise that the defendant was not indicted. It seems that the preconceived opinions of the grand jurors as to the bad character of the deceased was the controlling factor in the case, and even outweighed the sworn evidence. The grand jury, who did not even have the power to imprison the defendant, or place him in jeopardy of life or limb, in taking the matter entirely out of the hands of a trial jury, did not establish a precedent worthy to be followed. S. C.

As Enthusiastic as Any.

As enthusiastic as any mining man who has visited Goldfield, Nev. was John W. Langley, who returned from camp yesterday morning. He reports no fewer than seven mines now producing ore of excellent quality, the best evidence of the class of ore is that at the January, which has now been productive of over \$200,000, all of this since February 20th last. The management there is just now opening up the 200-foot level, and will begin raising the milling ore which must be at the surface before the expiration of the lease. At the Combination Mr. Langley reports the metallic contents of the sulphides better than the free milling rock. On the Jumbo, he says, 12 leases are now in operation, eight of which are in ore, some of which is of most sensational quality. He also reports important strikes at Diamondfield, conspicuous among them those in the Daisy and Verbal.—Salt Lake Tribune.

A Popular Game.

Now that apples are coming into market the game of apples will soon become popular in Goldfield. This is the way it is played: A young man calls on his girl bringing along a small apple. When he thinks it is time, he throws the apple up in the air. If it comes down, he kisses the girl. If it stays up, he does not.

WHAT SMELTER MAN SAYS

And Yet There Are Many Who Doubt and Doubt.

Not only is Goldfield out of Tonopah a most phenomenal camp, said Geo. E. Gunn, field representative of the American Smelting and Refining company, on his return from there yesterday, but it presents many of the possibilities of a Cripple Creek, and in another year should become one of the greatest sources of gold the country has ever known. It is already demonstrated to his satisfaction that the January and Combination are mines, making money for their owners as well as the lessees, while values in the Jumbo are nothing less than astonishing—some of the ore worth over \$1000 per sack. Mr. Gunn, who rarely enthuses, confessed that on his visit to Goldfield sentiment had been forced to relax.—Salt Lake Tribune.

RAILROAD COMING AT ONCE

President John W. Brock Is Authority for the Statement.

C. H. Elliott, the Tonopah broker, received a letter from Philadelphia this week in which the writer stated that John W. Brock, president of the Tonopah Railroad company and of the Tonopah Mining company, had announced definitely that the railroad would be continued to Goldfield immediately upon its completion to Tonopah.

How is that for a seven-months-old camp?

Railroad to Goldfield.

W. S. Williams, the broker, made a bet of a fine suit of clothes with J. W. Briggs, of Tonopah, that the Tonopah railroad would be extended and trains running into Goldfield by January first next.
