Terrible Disaster-Steamer Burnt Immense Loss of Life.

QUEBEC, Saturday, June 27.

The steamer Montreal was burnt yesterday, near this place.

Two hundred passengers were drowned or burnt to death. They were mostly Scotch emigrants.

SECOND DISPATCH.

MONTREAL, Saturday, June 27.

The steamer Montreal, the loss of which has already been telegraphed from Quebec, contained five hundred passengers, and only one hundred and seventy-five are known to have been saved. About two hundred of her passengers were drowned.

It is believed that many swam ashore, and were saved in other ways. The accident happened near Cape Range, between Montreal and Quebec.

LATER.

The Montreal took fire at six o'clock last evening. The steamer Napoleon saved two hundred of her passengers, the principle portion of which have just landed ot Quebec on their way west.

STILL LATER.

The Captain and crew of the Montreal are among the number saved.

Later advices say that the number perished will reach three hundred and fifty.

QUEBEC, Saturday June 27—10 P. M.

The steamer Montreal left this place at four o'clock yesterday afternoon, for Montreal, with from four to five hundred passengers, mostly Scotch emigrants, recently from Europe.

Nothing unusual occurred until the Montreal reached Cape Range, twelve or fifteen miles above Quebec, where the wood-work, near the furnaces was discovered to be on fire; quickly afterward the flames broke forth, causing the utmost consternation among the passengers.

Every effort was made to arrest the flames, but to no purpose. Captain Randolph, finding it impossible to save the steamer, ordered her to be run toward the shore.

The officers and crew exerted themselves for some time to get out the life-boats. The flames spread with the most astonishing rapidity, and the wildest confusion and despair prevailed throughout the ship.

Numbers of passengers threw themselves overboard and were drowned. Fortunately the steamer Napoleon, also bound for Montreal, was but a few miles in advance. She put back with all possible expedition to her assistance.

The Napoleon succeeded in rescuing from the burning wreck one hundred and twenty-seven of her passengers.

Captain Randolph and the Purser of the Montreal were among those who threw themselves into the river. Both being excellent swimmers, they succeeded in reaching the steamer Alliance, and were saved. It is quite possible that others succeeded in saving themselves by swimming, but as the steamer became unmanageable when at considerable distance from the land, there is no doubt but those who threw themselves from the burning boat met a watery grave. Sixteen of those who were saved died shortly after reaching the deck of the Napoleon. From the present information, it is believed that the total loss of life by this terrible disaster will not fall short of between three and four hundred.

The steamer Alliance arrived here this afternoon with forty-five bodies.

We have not been able to learn, as yet, the names of those who were lost, except that of Mr. Phillips, of the extensive lumber firm of Norcross & Phillips, of Three Rivers.

The Montreal had on board two hundred and fifty-eight Scotch emigrants, with several German families, and a number of American passengers.

The Utah Question.

The well-informed Washington correspondent of the Baltimore *Sun* thus writes:

The Administration have completed the Territorial appointments for Utah. The Governor, Judges, Marshals, &c., will proceed forthwith to the Territory. The body of troops detailed for their support cannot be sent out there before the middle of July, and, as some say, will not reach the place of their destination—to wit; the Government reserve, forty miles south of Salt Lake City—before the end of August.

King Brigham has gone on an expedition to the North to plant another Mormon colony. It appears probable that the Mormons, who are well acquainted with every part of the interior of the continent, have selected spots for a number of settlements where communities will be organized. They depend upon foreign immigration for a vast accession of members and of means to their colonies. It is not an extravagant supposition that ten years hence they will have a population of half a million, and a hundred thousand fighting men.

The idea that they can be exterminated or expelled from the country, or that their fanaticism will be repressed by force, is wholly absurd. Treason against the Constitution and laws of the United States may be punished, and this is the extent of the power of the Federal Government over this matter.

There is nothing in the Constitution that justifies a crusade against polygamists any more than against Abolitionists, or Romanists, or Calvinists, or Seventh-day Prophets. The anti-slavery journals are the fiercest of all in opposition to the Mormons. If they can find constitutional power for one crusade, they can for another.

But the administration does not share in the extravagant views which are put forth on this subject, and the instructions to Governor Cummings will be to take care that the laws of the United States be obeyed in the Territory, and to exert every constitutional power to secure the due administration of justice.

Whalebone has nearly doubled in price within the past four months, in consequence of the enormous consumption of the article in skirt hoops. When the wholesale price was forty or fifty, it] is now eighty and ninety cents a pound.

☞We were accosted a day or two since by a familiar voice, and a gentleman we did not remember to have seen before, stood in our presence. A comic smile played around his mouth, and his eyes told of mischief, and not until an explanation did we discover an old acquaintance who, the last time we saw him, was as gray as a rat; but by the magic power of Prof. Wood's Hair Restorative, his hair is as black as a coal and soft as silk.—*Louisville Times.*

A MEDICAL REVOLUTION?

THE WORLD UNANIMOUS

HOLLOWAY'S OINTMENT

THE GREAT COUNTER IRRITANT

The virtue of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed thro' the same channels, and, reaching the seat of inflamation promply and invariably subdues it, whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates to the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth, diffusing its cool and regenerating influence.

Skin Diseases and Glandular Swellings.

Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Ointment. Angra ERUPTIONS, such as SALT RHEUM, ERYSIPELAS, TETTER RINGWORM, SCALD HEAD, NETTER RASH, SCABBS (or itch) &c., die out, to return no more, under its application.—Hospital experience in all parts of the world proves its infallibility in diseases of the skin, the muscles, the joints and the glands.

ULCERS, SORES AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is almost miraculous. It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

Wounds, Bruises, Burns and Scalds.

In cases of the fracture of bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS, RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe, and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and the Pills should be used in the following cases:

Bunions, Mercurial Eruptions, Swelled Glands, Burns, Piles, Sore Legs, Stiff Joints, Chapped Hands, Rheumatism, Sore Breasts, Sprains, Tetter, Chilblains, Ringworm, Ulcers Fistula, Salt Rheum, Sore Throats, Gout, Venereal Sores, Scalds, Sores of all kinds, Wounds of all kinds, Lumbago, Skin Diseases.

, Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world; in pots, at 25 cents, 62½ cents, and $1 each.

☞There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each pot.
