

Throwing out on the other side.

The Toledo (Kansas) Tribune does not like the action of Governor Walker and Secretary Stanton in rejecting the return from Free State counties on account of legal objections. It says: "We learn from the Emporia News that the vote of Breckinridge County, with the exception of Ames City, the county seat, is rejected by the Territorial Secretary, on account of the informality in establishing the precincts. Franklin County is to be served in the same way. These counties are largely Free State. One precinct in Linn county has also been thrown out from the same cause, giving the two Representatives from that county to the Pro-slavery party. There seems to be a studied determination on the part of the Territorial officials to take every possible advantage of technicalities to elect the Pro-slavery ticket, or at least reduce, as much as possible, the Free State majorities.

The Leocompton National Democrat, after rebuking the temper of the above, remarks: "We understand that all of these counties had ample information of the law respecting elections, but the thirst for county power and speculation overcame all scruples, and they went it blind. If the location of court-houses and the prices of lots in county towns were more attractive than a correct vote; if they were their own fault, and not that of either the Governor or Secretary."

"An all of these counties, largely Free State, domes quarrels are the cause of their own difficulties, and they charge each other freely with fraud of various kinds. In Coffey County they charge that one hundred votes were cast at one precinct by strangers, and in Riley also a similar charge is made. In Anderson a contest is going on upon the same principle.

There must be a great many fascals in Kansas, and we do not wonder, therefore, that Governor Walker, who has endeavored honestly to do his duty, has been so heartily abused by persons hating from the two parties.

Threatened Famine in Minnesota.

The grasshoppers have created such devastation on the crops in certain portions of Minnesota, that much suffering already prevails among the inhabitants, and a famine is staring them in the face. The Chicago Journal says: "A committee from Stearns County, headed by Mr. Teenvord, late member of the Constitutional Convention, were in St. Paul on the 20th ult., to solicit contributions for the relief of persons in that county, who are on the verge of starvation. For the last two years the crops in Stearns have been totally destroyed by the grasshoppers. There is not a bush of wheat or oats in the county, raised within its borders. Farmers but two years since comparatively wealthy, are now suffering from a want of the necessities of life. Over two thousand people, it is estimated, will require aid.

"There is suffering and a prospective famine among the lumbermen of the Wisconsin lumber region. We have advised from there up to the 10th ult., and hundreds of poor men had been discharged without a moment's warning, and some with neither a cent in the pocket nor scarcely any food in the house.

Two mills from Green Bay to Menomonee were all shut down without a moment's warning; some of the men were paid off with notes at sixty and ninety days, others with due bills.

There is not a barrel of pork, flour, or anything for the inner man, and not \$20 in money in the whole region. Men who are not able to walk are going to Green Bay, leaving their wives and children here with not three days' provisions before them. Jobbers are leaving the woods, for want of pork and flour for their help.

After the above was put in type we received the following, which will relieve the public mind of any apprehensions of distress for want of food in Stearns County.

It having been widely represented throughout Minnesota and adjoining States that three thousand citizens of Stearns County, Minnesota, were starving for want of the necessities of life, the benevolent contributed largely for their relief. Donations were made in St. Paul and elsewhere, and eight hundred sacks of wheat, and eight hundred sacks of flour, were sent to the sufferers from Iowa. It turns out that these representations of starvation were entirely incorrect. The citizens of Stearns hold a meeting and published a statement of their condition, to the effect that their crops have exceeded those of any previous year; that cattle and hogs are abundant; that there is no general suffering; and that no instance of starvation is apprehended. The Republican Gain.

A citizen of Manassas, who has heard the bragging of the Republicans over their gains, with a good deal of amazement, thus congratulates the Courier of that city: "You truly have great cause of rejoicing over the result in the State. It is a wonderful political triumph! Three years ago you only had a popular majority of 50,000 over the Democrats. Two years ago, only 17,000. This year you have gone on in about the same steady ratio, gaining over the Democrats. You can now boast of at least 1,500. Just follow, in your imagination, this glorious republican gain in Ohio for another year, and see how completely Democracy will be crushed out in Ohio! Never mind the fact that they have carried both branches of the Legislature; that was entirely accidental.

The Milwaukee Sentinel estimates the wheat crop of Wisconsin at 18,000,000 bushels for 1857, an increase of near 6,000,000 over 1856.

Thanksgiving!

Proclamation by the Governor. In accordance with a venerable usage, and in compliance with a just public sentiment, I invite the People of Ohio to observe THURSDAY, the 26th day of the present month of November, as a day of Public Thanksgiving to Almighty God.

To Him, who has visited the Earth and blessed it and hath made it very fruitful.

To Him, who hath crowned the year with His Goodness, making our valleys to stand thick with corn, and filling our barns with plenty.

To Him, who hath greatly blessed us in the increase of the ground, in the gathering in of the fruits thereof.

To Him, who hath defended us from the pestilence that walked in darkness, and from the sickness that destroyed at noonday.

To Him, who hath given us peace in all our borders, protecting us alike from foreign invasion and from internal commotion.

To Him, let us all assembling in places of public worship, or gathering around domestic altars, present sincere offerings of humble adoration and grateful praise; remembering that as we, being needy, have received abundantly of His bounty, so ought we cheerfully to give of our abundance to them who are in need.

Given at the City of Columbus, under my hand and the SEAL of the State of Ohio, this second day of Nov. A. D. 1857.

By the Governor, S. P. CHASE. J. H. BAKER, Secretary of State.

The Baltimore Election—Democrats Driven from the Polls.

The Baltimore Sun of the 6th, which is evidently in fear of being mobbed if it tells the truth, thus speaks of the election farce, which was recently held in Baltimore. But six thousand, five hundred Democratic votes were polled out of fourteen thousand Democrats in the city. Here is what the Sun says:

The Election.—During yesterday the reporters of the Sun visited all the wards at intervals during the day, and we have, in consequence, a number of general and special facts as to the character of the proceedings at all of them. Personal statements were made to them by numerous individuals, of wrongs and outrages either sustained by the narrator or perpetrated upon others. Violent demonstrations were made in several instances by parties rallying under the flash banners of the clubs. Voters were frequently beaten and driven from the polls, and the complaint was almost universal that naturalized citizens were either excluded from voting or experiencing the utmost difficulty in depositing their votes. In several instances members of the special police went to the Mayor's office and resigned their commissions, others simply removed their badges and notified with a mortifying sense of their inefficiency. Several complaints were made to the Mayor and application for additional force at different wards, but there was no apparent improvement in any case. In fact as the day wore on, several of the wards were in the possession of men who seemed pretty much to control the proceedings. Such is an abstract of detailed reports.

The Vote on the Constitutional Amendments.

The constitutional amendments, submitted to the people at the late election, were all voted down by large majorities. The total vote of the State was 332,126, and the affirmation necessary to secure the adoption of each amendment was 166,061.

We have no account of the vote yet on the Bank bill. Its friends, we suppose, are ashamed to expose its disgraceful fate. No wonder.

In regard to the mandamus issued by Judge Cato, requiring Governor Walker to give certificates of election to the pro-slavery candidates in Johnston county, a Leocompton correspondent of the St. Louis Republican, says:—"The Governor looked upon it as a fire and treated it as such. He declared he would do his duty and what was right, independent of any threats or menaces which might be brought to bear upon him."

WOOD'S HAIR RESTORATIVE.

This wonderful preparation is beginning to be known and appreciated in this and the neighboring counties. Its excellence has been testified by the certificates of some of our best and most honorable citizens. We ourselves have tried it and found it to possess almost miraculous properties; restoring colour and health to the hair and scalp, and imparting a delicious freshness and glossiness to the hair. We advise all who are in need of a hair preparation, to try the infallible Hair Restorative of Prof. Woods. None will ever regret the price paid for this superior composition. See his advertisement, in another column.—(Salem Advocate.)

A good article will always triumph over any pretended imitation. It has been said that every city is a paradise of humbug; but a really meritorious article, capable of doing all that is promised for it, and it will stand the test of any position dependent upon its boasted notoriety. Helmbold's famous Stomach Bitters bear evidence of this for it has been taken hold of by the people and tried, and not found wanting in any case of Dyspepsia, in any form. When these facts are known, why should it not be appreciated, and used by everybody. For sale by Druggists and Dealers generally.
