Hon. Geo. E. Pugh, and the Legislative Instructions.

Some of our contemporaries continue to be greatly distressed with regard to the position of Senator Pugh, in connexion with the Kansas Constitution, and with the instructions of the Ohio Legislature.

No one ever need entertain a doubt as to Mr. Pugh's position—no intelligent man in the country ever has had any doubts as to his opinions, with reference to the Kansas, or to any other great question of public policy. There is no man of his age and experience in the public service who has more thoroughly established that one characteristic of all great statesman—firmness—than Mr. Pugh. Being a Democrat of national character and principles, it would have been absurd to suppose that he would have abandoned the Administration and the principles of the Democratic party, in order to promote the corrupt ambition of one of the worst factions that was ever organized against our institutions, even though that faction was headed by one who had heretofore been a distinguished personal and political associate.

Mr. Pugh was elected by the Democratic party,—he is sustained, in his support of the President and his Kansas policy, by the Democratic masses of Ohio. If the Legislative resolutions can be construed into an instruction of Mr. Pugh to employ his influence and to cast his votes for measures hostile to the Democratic party, then those instructions are vitiated and annulled by fraud and perfidy; because the people of Ohio at their last general election, proclaimed in favor of the Administration and its policy. Mr. Pugh, then can safely appeal from a Legislature that was false to its trust, to the people, their creators—and he will be sustained.

We know of many sound and intelligent Democratic members of the General Assembly, who voted for those resolutions, who contend that a fair construction of them will require Mr. Pugh to sustain the Kansas policy of the Administration; and they expect him to do it. We have no doubt of its having been letters written Mr. Pugh by such Democrats that originated the erroneous report about his being refrained from his instructions. Inasmuch as the resolutions are ambiguous and indefinite—and, by reason of the most unfavorable construction that can be placed upon them, are null and void, we hope that Mr. Pugh will march straight forward, as heretofore, in the time of duty and leave consequences to the people.—*Ashland Union.*

A Plain Case.

In 1856 the democratic party maintained the position that the free State men of Kansas, under the influence of their friends in the States, were desirous of keeping the slavery question open for the sake of political capital. We now ask if these free State men are any more worthy of confidence than they then were? But why do they seek, in and out of Congress to keep up the agitation? We will show you:

Suppose that the present Congress should refuse to admit Kansas into the Union, in the manner recommended by Mr. Buchanan—who, some men say, is not a good democrat—what next?—Another election would be ordered for delegates to a convention; and after that the election, the meeting a new convention and the formation of another constitution. Then what? Why such a constitution would be framed as no democrat in Congress could regard as republican in form. The free state men have always held the *pone* in the territory, and it is safe to anticipate, from their past conduct that they would present a constitution of such a character as to render admission unconstitutional. By that time Presidential candidates for 1860 would be in the field, the "Kansas shriekers" would probably unite upon *Douglas*, and we would have one of the bitterest political contests ever witnessed in the country. This we say, is, at least to our minds, a plain case. Therefore is Mr. Buchanan not right, when he asks the immediate admission of Kansas? Is the Democratic party not right, when it endorses the President's policy? And are not those democrats wrong who have left the President on this vitally important measure, and are giving "aid and encouragement" to the republicans? Democrats, stand by your President and your party on this great question? Be democrats from *principle*, and for the purpose of serving any man. —*Wash. (Pa.) Examiner.*

New Newspaper Regulation.

We are requested to state that new regulations have been adopted by the respective Post Office Department of this country and Great Britain for the treatment of newspapers in the mails found to contain writing or any enclosure, the object being to check the fraudulent practice referred to, which is now prevailing in both countries to a much greater extent than formerly.

These regulations prescribe that newspapers posted in the United States for the United Kingdom, or vice versa, if found to contain writing or any enclosure, shall, at the option of the despatching country, either be stopped and sent to the dead letter office, or be forwarded charged with full letter postage, United States and British combined; and if the writing or enclosure be detected in the country to which such newspapers are sent, a like course shall be adopted.

The Postmaster General has therefore instructed the respective United States exchange offices to forward all newspapers addressed to Great Britain found to contain writing or any enclosure, charged with *full letter rate of postage*; and postmasters throughout the country are particularly enjoined to scrutinize such papers closely, with a view to detect frauds of this character. *Washington Union.*

The largest cargo of cotton ever shipped was put aboard the "Ocean Monarch" which sailed from New Orleans the 24th ult., comprising 6,900 bales of the staple, weighing 3,239,664 pounds. It was destined for Liverpool.

The New Militia Bill.

We have compared this bill, section by section, with the present law, to see wherein it differs, and the result is as follows:

1. It aims to perfect the organization, viz: by providing for numbering regiments, in the order of their formation; allowing a fifth sergeant to light infantry—reducing the number of officers in light artillery, and in other ways making the bill in detail more harmonious as a system. The bill is substantially unchanged.

Only seven sections are altered, save in verbal matters, such as change of title, etc. Only *two new sections* are added.

2. The change which is substantial and which is so earnestly pressed by military men in section 70, providing a military fund.

Upon comparing this with the rest of the law, we find that there would be *no tax* in Fairfield, less than $260 in Pickaway, about $200 in Franklin. When no force is actually uniformed, no tax is levied; and *then*, only at the rate of $5 per annum.

This fund does not pay the men, but supplies needful equipments which are to belong to the State, and aids in care of arms.

It is said to be less than the aid afforded by almost every other State, and that the law, though of 72 sections, is the shortest in the Union. It is a small pittance to pay for the protection ensured by the organization.

"Because you are so handsomely bound."

"Indeed!" said Harriet. "Why, then, am I like a law book?"

"Really I can't tell."

"Because I'm bound in calf!"

FRAUD.—We would call attention to the public against a fraud daily practiced upon the unsuspecting, in the article of Dr. J. HOSTETTER'S celebrated Stomach Bitters. Since these celebrated Bitters have become so popular, others have been making preparations to imitate it, and in some cases have purchased old bottles and refilled them. We would advise all persons to buy of none but respectable dealers; the genuine are all covered with a metalic cap, and the name on it. For sale by druggists and dealers generally.

Dr. Morse's

INDIAN ROOT PILLS.

DR. MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa as well as North America—has spent three years among the Indians of our Western country—it was in this way that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will be forever blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in your reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is a Sudorific, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passage for the disease to be cast out; here, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

Testimony of the Professor of Obstetrics in Penn. College, Philadelphia.—Dr. HUNTER'S MEDICAL MANUAL.—The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. From A. Woodward M. D. of Pa. University

It gives me pleasure to add my testimony to the professional ability of the Author of the "*Medical Manual*."—Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health, in some instances where the patient has been considered beyond medical aid. In the treatment of seminal weakness, or disarrangement of the functions produced by *self-abuse*, or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely confide themselves.

WHY WILL YOU DELAY!

Why will you neglect that disease which is taking such deep root, and which gives you warning by that hacking cough, that you are fast ripening for eternity? Why encourage that pain in the side, the raising of blood, those night sweats, or that difficult breathing, which silently whisper in your ear that something must be done to save you from the grave of consumption? Why act so carelessly by permitting that disease to destroy your health, and hasten you to the tomb from whence no traveler ever yet returned?

SILENCE THAT COUGH!

Our death must carry you to your silent grave. Why delay while there is yet hope? Consumption is caused by impure humors of the blood being deposited in the cells of the lungs. Hence, the lungs are like a spring of water, when rolled up by the dirt or mud. It clear water constantly flows through the springs, impurities or mud will be covered a ray by the pure water. Just so with the blood when kept in a clean or pure state; as it constantly flows through the lungs, it carries away all corrupt matter, and perfect health will be regular, will in a reasonable time cure consumption. The reason these pills are used more than all others, is because they are made of purifying vegetables, and cleans the body from all corrupt matter, and drive out disease of every description, quicker and in a milder way than any other Pills.

Dr. Morse's Indian Root Pills are sold by all dealers in Medicines.—4t.

MOFFAT'S LIFE PILLS AND Phœnix Bitters.

THE best FAMILY MEDICINE now before the public, for the cure of *Scrofula, Ulcers, Scurvy, or Eruptions of the Skin, Fever and Ague, Dyspepsia, Dropsy*, and in fact most all diseases so as to yield to their curative properties.

It has been computed that during the last twenty five years upwards of FOUR MILLIONS of persons have been benefited by the use of these medicines: a fact which speaks volumes in favor of their curative properties—a single trial will place them beyond the reach of competition in the estimate of every patient. By their use the BLOOD IS RESTORED TO A HEALTHY STATE and *freed from impurities* The system is not reduced during their operation, but invigorated, and they require no restrain from business or pleasure.

The afflicted have in these medicines a remedy that will do for them all that medicine can possibly effect.
