The Kansas Question. Is it Settled! Who shall judge, the "Lecompton and Anti Lecompton" Democrats, or the Republicans! Judge Douglas on the Stand.

The Republicans and the advocates to the late "new party," says the Dayton *Empire*, we observe are still in great tribulation over the settlement of the Kansas question; and the removal of it forever from the National politics. No wonder. It was the chief capital they had in '56, all they could expect in '58, and they cling to it with a death grasp, insisting that the question shall not be settled, and that *to oblige them*, Democrats *shall* guard over it still, whether they will or not. Poor fellows, what a pity, their hopes are all turning to "the ashes of despair." But pray, who shall determine whether the question is settled, and the issue a dead one? Republican interlopers and "new party" outsiders, or the Democrats, who disagreed upon the Kansas matter? The original friends of the Conference (or English) Bill, are, of course, satisfied and for union and peace, and if they among the Democracy who opposed it, are now ready to acquiesce and to treat it as a past and settled question, we think it marvellous impudence in our common enemies, to insist that we shall not be reconciled, but shall quarrel just for their amusement and to enable them to slip into power and office. Now of all men in the nation we think Mr. Douglas the *very best* entitled to judge. We published on Saturday, an abstract of his late speech in the Senate, on Illinois politics, June 15, 1858. Below we give the speech as revised and published by himself in pamphlet form, and for a copy of which we are indebted to him. While denouncing in severe terms the recent bolting convention which falsely and impudently pretended to represent the Administration in Illinois, he yet acquiesces in the settlement of the Kansas question, and distinctly and positively declares it *a settled and dead issue*, no more to divide the party. We invite especial attention to the following extract; and trust now that those of the Republican party who have professed so much love and admiration for Judge Douglas lately and so great confidence in him, will be satisfied also, or else be content to stand forth as knaves and hypocrites whose only object was to distract and conquer the Democratic party—a party which never was and never can be beaten except by itself.

"I resisted with all my strength and energy the attempt to force the people of Kansas into the Union with a constitution known to be repugnant to their wishes, without first giving them an opportunity to reject; and I rejoice to say that we resisted it successfully until the attempt was abandoned and the question of admission was referred back to the people of Kansas, to be decided by them at the polls. Although the struggle was long, exciting, and exhausting, it resulted in the abandonment of the attempt to force the Lecompton Constitution on the people of Kansas, and in that abandonment was a clear recognition of the principle that the assent of the people must be first had and obtained before any instrument can rightfully become their fundamental law. The question of admission was remanded to the people of Kansas, to be decided by and for themselves at an election to be held, in pursuance of law, for that purpose; thus again recognizing the principle for which I had contended during the whole controversy, that the people had a right to decide for themselves the question of admission under the constitution. When I saw in the bill of recognition of the principle, I deeply regretted that the provisions of the bill and the form of submission were not such as I could sanction with my vote.

"I expressed this regret at the time and indicated two amendments, which, if they could have been adopted, would have enabled me to vote for the bill.—But when the bill became a law the whole question was remanded to Kansas, to be decided at an election, which has been fixed for the first Monday in August. Which ever way the people of Kansas may decide the question at that election will be final and conclusive. If they reject the proposition submitted by Congress, the Lecompton constitution is dead, and there is an end of the controversy. If, on the contrary, they accept the "proposition," Kansas, from that moment, becomes a State of the Union, and thus the controversy terminates. Whether they shall accept or reject the proposition is a question for the people of Kansas to decide for themselves, and with which neither Congress nor the people of the several States, nor any person, official or otherwise, outside of that Territory, has any right to interfere. Hence, the Lecompton controversy is at an end; for all men, of all parties, must be content with and abide by what ever decision the people of Kansas may make.

It is true that the same question may arise on the application of some other Territory for admission into the Union. I am prepared now to give notice that whenever that question may arise I shall be found maintaining and vindicating the same principle which I have insisted so strenuously should be applied to Kansas. I rejoice, however, in the assurance that hereafter we are not to have diversion of opinion, at least in the Democratic party, in regard to the wisdom and propriety of applying this great principle of popular sovereignty to all future cases as they may arise.

"On this question I shall be found sustaining with all my energy the recommendation of President Buchanan in his annual message, that the wise example in the Minnesota case, where Congress passed an enabling act containing a clause requiring the constitution to be submitted to the people, should be invariably followed, and never departed from, in any future case. I think this a wise recommendation on the part of President Buchanan, and I take pleasure in giving the assurance that he will at all times find me ready to sustain him in his patriotic efforts to carry that recommendation into practical effect, and thus prevent the possibility of another Lecompton controversy ever arising.

"Under these circumstances, the question naturally arises what controverted principle is there left for Democrats to differ and divide about?

"In the first place, we all agree, not only Democrats, but men of all parties, that whatever decision the people of Kansas may make at the election on the first Monday in August, must be final and conclusive.

"Now, if we can agree, as I have always avowed my willingness to do, to sustain President Buchanan's recommendation, that in all future cases the constitution shall be submitted to the people, as was required in the Minnesota case, all matters of dispute and controversy will be at an end, and our territorial policy will be firmly placed on a wise and just basis."

Democracy in Ohio

We learn from a very well informed citizen of Ohio at present sojourning in this city, that the *Democracy of that state are no longer divided*. Those of them who followed Mr. Douglass out of the party on Lecompton have either gone over bodily to the Republicans or sought admission again to the ranks of slavery propagandism.—*Chicago press, (Black Republican.)*

The press is right in one particular. The Democracy of Ohio are indeed united, and present a solid front to their opponents. Our eight Representatives in the House and our Senator, Hon. George E. Pugh, all voted for the Kansas adjustment as it finally passed Congress. Every Democratic paper in the Sttte, to the number of nearly one hundred, sustained them in their course in voting for the bill. The masses of the party backed up the press and their Representatives in Congress with entire unanimity. We know of no Democrat who has left the party on this adjustment question, and we are quite sure none can be found in the State.—There are no such divisions known or recognized now as Douglass men or Administration men, but all regarding the Kansas question as extinct, which will have little or no influence upon the election, stand cordially together upon the old Democratic platform, and look forward with confidence to a series of Democratic victories in the future.—Not in many years has there been so cordial a union and fraternal feeling among the Democracy of Ohio as at the present time.

The strong Democratic battallions which for the last four years, have moved steadily, with irresistible impulse, toward victory, winning important advantages and position every year, and which, in 1857, broke through the enemies column, and came near destroying it in utter route, are prepared to consumate what was then left undone at the next trial of strength between the two parties. Never were their ranks more denser, and never did they present so formidable an aspect as at this time. The feeling is general that the Republicans cannot stand up before the people, and be confronted by the record which they made in that body, without being disastrously beaten. We say, emphatically, to our brethren in other States that the Democracy of Ohio are acting together, as one man, and that they will give a good account of themselves at the October election. The Chicago editor will then see how egregiously he has been deceived in his ideas about the State.—*Enq.*

"I Did as the Rest Did."

This tame, yielding spirit—this doing "as the rest did"—has ruined thousands.

A young man is invited by vicious companions to visit the theatre, or gambling room, or other haunts of licentiousness. He becomes dissipated, spends his time, looses his credit, squanders property, and at last sinks into an untimely grave. What ruined him?—Simply "doing what the rest did."

A father has a family of sons. He is wealthy. Other children in the same situation of life do so and so, are indulged in this same thing and that.—He indulges his own in the same way. They grow up idlers, triflers and fops. The father wonders why his children do not succeed better. He has spent so much money on their education—has given them great advantages—but alas! they are only a source of vexation and trouble. Poor man; he is just paying the penalty of "doing as the rest did."

This poor mother strives hard to bring up her daughter genteelly. They learn what others do, to paint, to sing, to play, to dance, and several useful matters. In time they marry; their husbands are unable to support their extravagance, and they are soon reduced to poverty and wretchedness The good woman is astonished. "Truly," said she, "I did as the rest did."

The sinner, following the example of others, puts off repentance, and neglects to prepare for death. He passes along through life, till unawares, death strikes the fatal blow. He has no time left now to prepare. And he goes down to destruction, because he was so foolish as to "do as the rest bid."

Testimony of the Professor of Obstetrics in Penn. College, Philadelphia.—Dr. HUNTER'S MEDICAL MANUAL."—The author of this work, unlike the majority of those who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It gives me pleasure to add my testimony to the professional ability of the Author of the "*Medical Manual*."—Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect health. In some instances where the patient has been considered beyond medical aid. In the treatment of seminal weakness, or disarrangement of the functions produced by *self-abuse*, or *excess* of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose professional skill and integrity they may safely confide themselves

Dr. Morse's INDIAN ROOTPILLS.

DR MORSE, the inventor of MORSE'S INDIAN ROOT PILLS, has spent the greater part of his life in traveling, having visited Europe, Asia, and Africa as well as North America—has spent three years among the Indians of our Western country—it was in this that the Indian Root Pills were first discovered. Dr. Morse was the first man to establish the fact that all diseases arise from IMPURITY OF THE BLOOD—that our strength, health and life depended upon this vital fluid.

When the various passages become clogged, and do not act in harmony with the different functions of the body, the blood loses its action, becomes thick, corrupted and diseased; thus causing all pains, sickness and distress of every name; our strength is exhausted, our health we are deprived of, and if nature is not assisted in throwing off the stagnant humors, the blood will become choked and cease to act, and thus our light of life will be forever blown out. How important then that we should keep the various passages of the body free and open. And how pleasant to us that we have it in our power to put a medicine in our reach, namely, Morse's Indian Root Pills, manufactured from plants and roots which grow around the mountainous cliffs in Nature's garden, for the health and recovery of diseased man. One of the roots from which these Pills are made is Sanguinaria, which opens the pores of the skin, and assists Nature in throwing out the finer parts of the corruption within. The second is a plant which is an Expectorant, that opens and unclogs the passage to the lungs, and thus, in a soothing manner, performs its duty by throwing off phlegm, and other humors from the lungs by copious spitting. The third is a Diuretic, which gives ease and double strength to the kidneys; thus encouraged, they draw large amounts of impurity from the blood, which is then thrown out bountifully by the urinary or water passage, and which could not have been discharged in any other way. The fourth is a Cathartic, and accompanies the other properties of the Pills while engaged in purifying the blood; the coarser particles of impurity which cannot pass by the other outlets, are thus taken up and conveyed off in great quantities by the bowels.

From the above, it is shown that Dr. Morse's Indian Root Pills are not only enter the stomach, but become united with the blood, for they find way to every part, and completely rout out and cleanse the system from all impurity, and the life of the body, which is the blood, becomes perfectly healthy; consequently all sickness and pain is driven from the system, for they cannot remain when the body becomes so pure and clear.

The reason why people are so distressed when sick, and why so many die, is because they do not get a medicine which will pass to the afflicted parts, and which will open the natural passage for the disease to be cast out; hence, a large quantity of food and other matter is lodged, and the stomach and intestines are literally overflowing with the corrupted mass; thus undergoing disagreeable fermentation, constantly mixing with the blood, which throws the corrupted matter through every vein and artery, until life is taken from the body by disease. Dr. Morse's PILLS have added to themselves victory, by restoring millions of the sick to blooming health and happiness. Yes, thousands who have been racked or tormented with sickness, pain and anguish, and whose feeble frames have been scorched by the burning elements of raging fever, and who have brought, as it were, within a step of the silent grave, now stand ready to testify that they would have been numbered with the dead, had it not been for this great and wonderful medicine, Morse's Indian Root Pills. After one or two doses had been taken, they were astonished, and absolutely surprised, in witnessing their charming effects. Not only do they give immediate ease and strength, and take away all sickness, pain and anguish, but they at once go to work at the foundation of the disease, which is the blood. Therefore, it will be shown, especially by those who use these Pills, that they will so cleanse and purify, that disease—that deadly enemy—will take its flight, and the flush of youth and beauty will again return, and the prospect of a long and happy life will cherish and brighten your days.

A MEDICAL REVOLUTION?

THE WORLD UNANIMOUS

HOLLOWAY'S OINTMENT

THE GREAT COUNTER IRRITANT

The virtue of disease often makes its way to the internal organs through the pores of the skin. This penetrating Ointment, melting under the hand as it is rubbed in, is absorbed thro the same channels, and, reaching the seat of inflamation, promptly and invariably subdues it whether located in the kidneys, the liver, the lungs, or any other important organ. It penetrates the surface to the interior, through the countless tubes that communicate with the skin as summer rain passes into the fevered earth diffusing its cool and regenerating influence.

Skin Diseases and Glandular Swellings.

Every species of exterior irritation is quickly reduced by the anti-inflammatory action of this Ointment. Agra- Erruptions, such as SALT RHEUM, ERYSIPELAS, TETTER RINGWORM, SCALD HEAD, NETTLE RASH, SCABIES (or Itch) &c., die out, to return no more, under its application.—Hospital experience in all parts of the world proves its infallibility in diseases of the skin the muscles, the joints and the glands.

ULCERS, SORES AND TUMORS.

The effect of this unrivaled external remedy upon Scrofula, and other virulent ulcers and sores, is all-but miraculous It first discharges the poison which produces suppuration and proud flesh, and thus the cures which its healing properties afterward complete are safe as well as permanent.

Wounds, Bruises, Burns and Scalds.

In cases of the fracture of bones, injuries caused by steam explosions, BRUISES, BURNS, SCALDS RHEUMATISM, STIFFNESS OF THE JOINTS, and contraction of the sinews, it is employed and warmly recommended by the faculty. This marvelous remedy has been introduced by its inventor in person into all the leading Hospitals of Europe and no private household should be without it.

UNDENIABLE TESTIMONY.

The Medical Staff of the French and English Armies in the Crimea have officially signed their approval of Holloway's Ointment, as the most reliable dressing for sabre cuts, stabs, and gun shot wounds. It is also used by the surgeons of the Allied Navies.

Both the Ointment and the Pills should be used in the following cases:

Bunions, Mercurial Eruptions, Swelled Glands, Burns, Piles, Sore Legs, Stiff Joints, Chapped Hands, Rheumatism, Sore Breasts Sprains, Tetter, Chilblains, Ringworm, Ulcers Fistula, Salt Rheum, Sore Throats, Gout Venereal Sores, Scalds, Sores of all kinds Wounds of all kinds, Lumbago, Skin Diseases,

Mothers, save Your Children.

KEMP'S VEGETABLE WORM PASTILLE

They are infallible for the cure of

INTERNAL WORMS!

The peculiar properties which belong to "Kemp's Lozenges," have never before been combined in any preparation. They are attractive to the eye, as a

Sweatmeat of Delicious Flavor,

rapid, yet harmless in their operation, composed solely of

VEGETABLE M TERIAL,

and require no Mercury to be taken before or after them. They do their work more thoroughly than any of the nauseous Vermifuges of the day.

THE PRIMARY CAUSE OF DEATH

is considered by the most distinguished Physicians, to be worms among children. It is scarcely necessary, therefore, to put mothers on their guard against this insidious complaint or to recommend them to take prompt steps to remove it by the use of the only true remedy, KEMP'S PASTILLES, presented in such a palatable form, that children take them eagerly without coaxing. Sold by D. T. LANMAN & KEMP, 69 Water Street, New York, and by all druggists, at 25 cents per bottle.

Important Announcement!!

TO all persons afflicted with Sexual diseases, such as Seminal Weakness, Impotence, Gonnorhœa, Gleet, &c., &c. The Howard Association of Philadelphia, in view of the awful destruction of human life and health caused by Sexual diseases, and the deceptions which are practiced upon the unfortunate victims of such diseases by quacks, have directed their Consulting Surgeon, as a charitable act worthy of their name, to give medical advice gratis, to all persons thus afflicted, (Male or Female,) who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty and suffering to furnish medicine free of charge.

The Howard Association is a benevolent institution, established by special endowment, for the relief of the sick and distressed, afflicted with "Virulent and Epidemic Diseases," and its rules can be used for no other purpose. It has now a surplus of means, which the Directors have voted to advertise the above notice. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.
