

EATON, O., January 6, 1859.

The Governor's Message.

The Governor delivered his message on Monday last and it is published in the Cincinnati Gazette and Commercial.

It is a very lengthy document and we have no idea that any of our readers would wade through it, consequently we do not think we will indite upon them.

Another Pioneer Gone. One by one old resident settlers are dropping off and passing to that "happy home whence no traveler returns."

The Secretary of War, in reply to an inquiry of the House Committee on Military Affairs, has expressed a very decided opinion that the proposed military occupation of Soudora and Chibabua, so far adding to the existing necessity for an increase of the army, would have the opposite effect.

It is full time for the patriotic conservative people of the Northern States to look this danger full in the face. The times are portentous, and the danger imminent.

Life and Death. In Washington, D. C., Wednesday evening last, a daughter of one of the city councilmen was married at her father's residence, and shortly after the ceremonies were over a venerable grandmother of the bride departed this life in the same house.

It is also asserted by those who pretend to know, that there is no doubt but that the filibusters are now in Nicaragua, as they took a route in which they would not likely meet any opposition.

A Washington letter says that Senator Horsey intends, on some early occasion, to take the floor deliberately and, in a speech of his usual eloquence and undoubted patriotism, to declare that he is not an aspirant for the Presidency, and would under no circumstances accept it.

It is stated that Senator Pugh will oppose the Pension Bill just passed by the House of Representatives.

The Republican Platform.

The platform of the Opposition, now composed of Black Republicans, Abolitionists, Know Nothings, Free Labor Advocates, Infidels, &c., &c., the formation of which is a bloody one.

The Republican policy of letting slavery alone in the States where it exists. This is rich! Col. Schouler was sometimes suspected of being a wag, before he returned to Boston.

The United States must and will, sooner or later, become EITHER ENTIRELY A SLAVEHOLDING NATION, OR ENTIRELY A FREE LABOR NATION.

For seventy years this great country, composed of free and slave States, has existed under our glorious Constitution, each State being sovereign within its own borders, and left perfectly free to manage its domestic affairs in its own way.

Some twenty years ago two Spaniards attempted to convey their slaves by water from one part of the island of Cuba to another. They chartered a vessel for this purpose, and as soon as they were out of sight of land the negroes mutinied and took possession of the vessel.

The number of arrests for crimes against police ordinances 4,686; making the number of arrests and indictments for crimes and offenses of lower grade 11,486. The convictions carried into judgment, upon indictment, were 1,809.

It is suggested that the law in relation to capital punishment be so amended that the courts can, at their discretion, either condemn to the gallows or send to the Penitentiary for life.

The Washington correspondent of the Commercial says, truly that Ohio has a fine delegation in both houses of Congress as respects ability and influence.

A National Convention of gamblers is to be held in Chicago. The Democrat of that city says the city has been "fast filling up" with delegates from different States, sent to attend this convention.

A merchant in Manchester, England, has just finished a new printing press, which he claims will print 10,000 sheets on both sides every hour.

The entire value of taxable property in the State of Indiana is about \$153,000,000.

Letting Alone with a Vengeance.

If the opponents of the Administration policy at the South would accomplish anything toward settling the controversy, they must needs with the Republicans and the policy of letting slavery alone in the States where it exists under cover of local law and of vigorously and sternly opposing its extension into territories now free.

The Republican policy of letting slavery alone in the States where it exists. This is rich! Col. Schouler was sometimes suspected of being a wag, before he returned to Boston.

He recommends the establishment of State Normal Schools, and the encouragement of teachers' institutes. In order to remedy the evils of absenteeism, caused by parents not sending their children to school, he makes the following exhorting suggestion:

The number of papers and criminals in the State maintained by the State at three thousand, and recommends the enactment of a law for the establishment and regulation of private asylums, in which a large portion of the insane would be provided for by their friends without charge to the State.

The number of indictments for crime during the past year was about 3,600; the number of police arrests for crimes against the State not prosecuted by indictment was about 3,200; the number of arrests for offenses against police ordinances 4,686; making the number of arrests and indictments for crimes and offenses of lower grade 11,486.

It is suggested that the law in relation to capital punishment be so amended that the courts can, at their discretion, either condemn to the gallows or send to the Penitentiary for life.
