AFFAIRS AT THE NATIONAL CAPITAL.

The Difficulties Between Spain and Mexico—The Latest News from Mexico—Impostures Respecting the Mineral Wealth of Arizona.

From the N. Y. Herald's Correspondence.]

WASHINGTON, Dec. 23, 1858.

Notwithstanding the news from Europe that Spain was still preparing to send more ships of war to Mexico, it is not in the least likely that war will be declared, or any hostile interference made directly in favor of or against either of the parties now struggling for the supremacy. The wisdom and foresight of the Spanish officials in this part of the world have undoubtedly prevented a step resolved upon at Madrid which might have involved the civilized world in a fearful conflict.

The Cabinet sat to-day till a late hour and, it is understood, had under consideration Mexican affairs. It is said important intelligence has just been received from Mexico. The news published, to the effect that General Miramon had defeated Degollado at Guadalajar, and had taken that place, though coming in a telegraphic despatch from New Orleans to the Mexican Legation, is not believed by those well informed of Mexican affairs.

Great efforts are being made here to humbug the government and Congress and by newspaper correspondents to delude the people, about the fabulous mineral wealth of Arizona. While it must be conceded there is no doubt that good silver and copper mines exist, which require the application of large capital and mining skill, I am assured, on the best authority, there is no evidence as yet of auriferous deposits or "washings," as in California, to reward individuals without capital.

The government has not yet received information of the return of the filibuster vessel Susan, nor of the landing of filibusters in Nicaragua.

Land Speculations—The Pacific Railroad Bill.

[From the Correspondence of the Baltimore Sun.]

It will be difficult to carry a measure in Congress for a partial revision of the tariff, for the benefit of the iron or wool or any other particular interest.—The cotton and the woolen manufacturers will insist upon the same measure of increased protection that is given to iron, and the advocates of low duties will resist both. Neither the committee of ways and means, if the House will report a bill for the increase of the tariff, except under instructions. A return to specific duties is so generally deprecated by the Democratic party that the measure cannot succeed, while the Democrats have a majority in both houses. It appears probable that Congress will devolve upon their immediate successor the relation of the question.

Meanwhile, proposals for the loan of ten millions, as authorized, will be issued, and expenditures of every description will be reduce as far as possible.—The House, if it was really in earnest in passing the twenty million pension bill, meditates an increase of the national debt to that amount. But they probably depend upon the Senate to arrest the motion, and the Senate may throw the same responsibility upon the President, who, it is believed, will not hesitate to meet it.

The Pacific Railroad bill, with all the various propositions on the subject will, no doubt, be brought to a conclusion next week. The measure as brought forward by Senator Gwin, is as perfect as any one that has been offered, and that with some modifications, do not pass it is not likely that any other will be adopted at this session.

Central America.

The Washington correspondent of the New York *Journal of Commerce* does not look upon the Central questions between the European powers and our own as promising any serious trouble in their settlement. He looks at them thus:

It is supposed that both the British Nicaragua treaty and the Ciss-Yarrizarri treaty will be ratified by Nicaragua early in January. Upon the conclusion of the British treaty, the Mosquito protectorate will be abandoned. At the same time, or very soon after, the Bay Islands are to be returned to Honduras. The British Government will thus carry out in good faith the stipulations of the Clayton-Bulwer treaty, and will restrict her possessions and jurisdiction in Central America to the Belize. As to the Nicaragua Isthmus, Great Britain will guaranty its security, and no further danger of its interruption from filibusters can arise. The British will have the right, as we shall have, under the Cass-Yrrizarri treat, to employ force, temporarily, for the use of the transit from any interruption. The United States will be on a par with Great Britain in this respect, and the transit will be free and secure for the commerce and trade of the whole world. This is all that the United States Government has ever claimed in regard to the Isthmus. For aught any one can see to the contrary then, the difficulties which have occurred between the United States and Great Britain, as to Central America, will be at an end.

The Next President.

A correspondent of the Pittsburg *Post*, speculating on the chances of the next Presidential claims one hundred and seventy-five electoral votes for the Democratic candidate. He claims all the Southern States but Maryland, and three northern States, New York Pennsylvania and New Jersey. In our judgment Ohio, Indiana, Illinois, Iowa, Wisconsin, Minnesota and California are much more certain to vote the Democratic ticket than the free States named by the *Post*. We hope and trust that they will go Democratic, but the main reliance for a Democratic triumph in 1860 must be on the North west.—With good and acceptable nominations we will make the North-West with its sixty odd electoral votes, head the Democratic column. It is getting sick of Republicanism.—*Mt. Vernon Banner.*

DREADFUL MURDER IN FAYETTE COUNTY.

A Man Eighty Years of age Murdered by a gang of Ruffians.

It becomes our painful duty to record the perpetration of the most foul and dreadful murder known in the annals of crime in Fayette county, resulting in an old man named Neddy Marine, living on Alexander Smith's farm, four miles south of Washington, on Paint creek, being knocked in the head with a rock, on last Saturday night, so seriously injuring him that he expired on Monday night. At about eight or nine o'clock Saturday night, Mr. Marine heard a disturbance among his chickens, and on going out to see what was the matter, was struck by some fiend, with a rock, in the forehead, which fractured his skull. The tracks of two persons were seen about the premises the next morning, as also where they had fed their horses, but they could not be traced any great distance. Doubtless the fuss was kicked up among the chickens in order to entice the old man out of the house. It looks like a premeditated murder all around. Mr. Marine's wife, on hearing the noise, ran out, and the rocks were flying thick and fast.—She screamed and blew the horn, but before any of the neighbors had gathered, the murderous wretches had made good their escape. Next day a big hickory club was found in a corn field, near by where the ruffians fed their horses. Mr. Marine was about eighty years old, and had been in very bad health for a year or so back. There should be no vigilance spared in ferreting out the perpetrators of this diabolical deed. As yet we have heard of no clue being gained as to who are the guilty ones.—*Fayette Co. Reg. Dec.* 21.

GIFTS.—There is, after all, something in the fate of those trifles that friends bestow upon each other, which is an unfailing indication of the place the giver holds in the affections. I would believe that one who preserved a lock of hair, a simple flower, or any trifle of my bestowing, loved me, though no show was made of it; while all the protestations in the world would not win my confidence in the sincerity of one who set no value on such little things. Trifles they may be, but it is by such that character and disposition are oftenest revealed.

☞ It would hardly do for any one now-a-days to have the temerity to question the excellence of Dr. J. HOSTETTER'S CELEBRATED STOMACH "BITTERS" for all diseases of the Stomach. In cases of Dyspepsia, Bodily Weakness, Costiveness, Dysentery, and general derangement of the digestive organs, their many virtues have long since been made plainly apparent. They purge from the system the morbid humors which retard their natural functions, and which bring paleness to the cheek, and suffering to the brow. They banish those clogs upon pleasure, restore the system to high health, and necessarily prove a valuable adjunct to the digestive organs. A trial is all that is needed to establish them in the confidence of the skeptic.

☞ TO THE PUBLIC.—As the season is now upon us in which there is more or less suffering caused by that plague of the west, viz: chills, fever and ague, or, as many term it, fever and ague—we would call attention to the advertisement of Dr. Mann's Ague Balsam, found in another column of to-day's paper. If we give credit to the numerous testimonials therein given of the high esteem placed upon this medicine by men of high standing and worth, from all parts of the western world, we are led to believe that it is a great remedy, and one on which the public can place confidence as to its efficacy. We have long looked for that period when some remedy might be discovered and offered to suffering humanity as a complete antidote to malaria, and from evidences we in favor of the Balsam, we are led to believe that that time has come, and that no one need any longer suffer, when they can procure a bottle of this medicine. Sold by all good druggists. Dec 9–1t.

THAT GREAT REMEDY SO LONG SOUGHT, FOUND AT LAST.

This remedy, claimed by the medical profession and the multiplied thousands that have used it and tested its *wonderful curative* properties, to be the greatest discovery in medical science and natures own remedy, is the result of years of toil and study, by one of Ohio's favorite physicians, in order to produce something that would meet the wishes of suffering humanity, and thousands from the princely palace and humble cottage can testify to the immediate relief found by its use. For want of space we only offer a few of the many evidences in its favor.

Moline, Ill., Feb. 19, 1857.

MESSRS. S. K. MANN & Co.—*Gents:* We find your Ague Balsam superior to any remedy in our market for the permanent cure of all malarious diseases. We cheerfully recommend it as worthy that great name it has wherever sold and used.

Very Truly Yours,
RICHARDS & THOMAS.

To the sufferers of chills, fever and ague. I cheerfully submit the following: Having observed closely the effects of Dr. Mann's Ague Balsam in this vicinity for the past three years. I am well pleased with its remedial virtues as an antidote to malaria. I have frequently used it in my practice, and with entire satisfaction. From my intimate knowledge of this compound, I recommend it as safe, prompt and efficient.
