If insisting upon free, fair elections in every State in the Union is waving the "bloody shirt," we say "let her wave."

If the registration law will bring about purity in Cincinnati elections the late Democratic Legislature will have one mark to its credit.

The administration has given English vessels preference over American in the carrying of foreign mails. This is not unnatural, as Cleveland owes much to the English free traders for their aid in securing his election.

In 1873, when a member of the Constitutional Convention, Hoadly vigorously opposed a clause giving the Legislature authority to provide for the safety of working men in mines, on railroads, and in manufacturing and other industrial pursuits. Workingmen would have you consider this before you cast your vote in October.

Bishop S. M. Merrill, of the M. E. Church is heartily opposed to the third party movement, and expresses it as his decided opinion that no good will result from it, and that prohibition can not be reached by making it a political issue. On our first page will be found an extract from a letter written by him to the Chicago Inter Ocean, in which he expresses himself clearly and forcibly.

Hoadly claims to be a friend of the colored man and expects to get his vote, yet he will pardon a man who imprisons over one hundred of their brothers on no charge whatever, except that they are colored men and intended to vote the Republican ticket. Colored voters, remember this. Are you willing to sanction such an infamous outrage as this by voting for a man who claimed that Mullen did perfectly right in thus depriving these American citizens of their right to vote. A right which was purchased for you by the suffering, privation and death.

We suggest the name of Hon. J. J. Pugsley, of this city, as the man for the Republican convention to nominate for State Senator at Greenfield next Wednesday. Mr. Pugsley is a true-blue Republican, and an honest and intelligent gentleman, and one who would fill the position to the honor and credit of this Senatorial District and the party he represents.

In another column will be found both platforms—Republican and Democratic—which we would have everyone to read and ponder over. See what are the principles of the party you belong to, and see whether you are in favor of those principles or not. We are not ashamed to put the two together where a close comparison can be made of the relative merits of each. Study them well.

The Democratic press has been howling about Foraker being afraid to accept Leonard's proposition for a joint debate. What have they got to say now since Hoadly has refused the same proposition? Both candidates know that prohibition is not an issue in this campaign, and hence, are perfectly right in refusing to debate. But why does Hoadly try to evade the debate by hiding behind Foraker? If he desires to discuss this subject with Leonard, why not come out boldly and accept the challenge? If he does not want to, why then say so outright, and not make the whine, "if Foraker will I will."

The Republican party was in power twenty-four years, and the only fault our Democratic friends have found is of Brady, Roach and Dorsey. For the sake of argument, suppose we admit that they are the frauds claimed by the Democratic press, remember these are all the rascals found by them in that length of time. In less than six months under Democratic rule Boss Macklin, Gene Higgins, Keiley, Board, Saint, Kinjordan, Mulroy, O'Connor, Judd, Mullen, Bob Farrel, many thugs and defaulter, and the appointment of a postmaster while yet serving a term in prison, have come to the front. Truly (?) the era of reform has dawned upon us.

In the State of Georgia, where only 168 votes were cast for St. John, the following appears in one of the local newspapers: "We predict that in three years, at the longest, there will not be a single retail liquor store in the State of Georgia. In less than a generation the people will look into the past and talk about bar rooms, and the children will ask, 'What is a bar-room?' If our prohibition friends would study up the history of the cause which they are advocating they would find that the third-party movement has not caused the enactment of a single temperance law. Prohibition will have to come through one or the other of the two great parties, and it is high time that the people were finding it out.

Governor Hoadly has promised that if a Democratic Legislature be elected this fall that it will submit a license amendment to the Constitution for a vote of the people. Do the voters of Ohio favor such an amendment? It has been defeated twice by large majorities, and would surely meet with the same fate again. Do the voters wish the State to have all this additional expense for nothing whatever? Hoadly well knows that such an amendment would be defeated. But his object in making this assertion is to get the whisky vote. The whisky element is divided into two classes, those who favor license, and those who favor free whisky. It is thus that he desires to capture the votes of both classes. In declaring for license he expects to secure the support of the former, and by pursuing a course which would result in free whisky he will catch the latter class. All citizens who desire to see the liquor traffic remain unrestrained in any manner, by license, tax, or other law, should vote the Democratic ticket. Those desiring to see the terrible cause checked, and in time entirely prohibited, should vote for the only party that has ever done anything at all for the temperance cause—the Republican party. Remember, this, all conscientious temperance voters. Remember that if you profess to be temperance men and vote for the Democratic ticket (or its branch society) that you are working in direct opposition to that which you profess. How can a man honestly be for temperance, and then support a party that openly declares itself opposed to prohibition, and in favor of free whisky. Away with such hypocrisy, for hypocrisy it is, and can be designated by no other name. Either renounce your temperance views, and come out boldly for the policy—free whisky—of the Democratic party, or live up to what you preach and put your vote where it will do some good.

Republican prospects are becoming brighter and brighter.

The cholera is decreasing in Spain, but the deaths each day yet exceed five hundred.

Hoody heartily endorses the O'Meyers Legislature. That's reform (?) with a big "R."

The difficulty between Germany and Spain, which assumed such a belligerent attitude a few days since, will be amicably settled.

Judge McVaine, nominee for Judge of Supreme Court on the Republican ticket, has resigned on account of ill health. The Republican State Central Committee meets today to make arrangements for filling the vacancy.

There is a gentleman living in the northwestern suburbs of this town, an invalid, who thinks Capt. Dawson is pretty good to the needy and afflicted, whatever the *Gazette* may say to the contrary. He says when he lived in Salem township several years ago, he and his wife were both sick and confined to their beds. Dawson visited him often, gave him \$5.00 worth of flour, and other articles suitable for the sick and upon discovering that he was short of feed for his stock, 2 heifers, took them to his house at anytime for anything we needed, for said he, 'the latch string hangs out.' He was a kind and generous neighbor. During the sickness of my wife he gave me all the assistance in his power, until her death." This gentleman is a Democrat and has always been one.

Dr. Ireland, of Martinsville, was the guest of his brother, Dr. W. E. Ireland, who is suffering from fever. Russell station papers please copy.

It is rumored that Mark Evans and Joe Kerns will start to Delaware next week to attend school at the University. Mark will take a complete course.

We suggest that the *P. M. Gazette* send a representative over to the Ninth to apply his official card and to some Democratic delegations in a Democratic camp. Possibly he might get a genuine "exposure."

That yarn about a runaway at Col. Johnson's race-track was all a mistake. The man that was made to look like the doctor was no convict and no real horse. Mr. Johnson had no accident. His horses are all in good shape and are being galloped and trotted on the track every morning. He has lots of visitors at the track, but so many more will be welcomed cordially.

Great preparations are being made for the coming Lenten, and if the weather is favorable Leesburg will be overwhelmed with people. The veterans are on duty and each day a new feature is added to the already excellent program. The committee deserve great credit for the excellent speakers they have procured for the occasion. *Foraker is not coming.*

Mr. Chas. Vandy openly declares that he will vote, county and State, prohibition—"Foraker Prohibition." His conscience teaches him that there is no connection between temperance work and prohibition. He believes in prohibition, but his conscience is not troubled by the fact that the Leonard prohibition is but a free whisky act.

Mr. J. G. Guthrie and Misses will put up a telephone line from Leesburg to Washington, by the way of Monroe, New Martinsburg, and Shannon. The telephone is a patent of Mr. Guthrie, and all the usual vibrations are transmitted directly and not by induction. In all of the telephones heretofore constructed, the clearness of the sound transmitted are claimed for it. If you would know anything about electricity you should talk to Mr. Guthrie. He can teach the best of them.

Five car loads of oats have already been shipped from this place to the East, something unknown in the shipping history of the town, in a Democratic camp. Possibly he might get a genuine "exposure."

As that is not a very complexly responsible matter, and it is well known, it is about thirty or forty good brethren take and send the *World* and still they come, my brother.

Rev. V. B. Custer delivered another of his fine and impressive sermons at the Christian Church, last Sabbath. He announced that Rev. J. B. Paris would occupy the pulpit next Sabbath. This will probably be the last sermon Mr. Paris will preach in this place, as he leaves on the same day for the scene of his schoolwork.

We say that the Mississippi river is four feet higher at this month than at its source. We were not surprised to hear that Mr. M. J. Fulliam had taken out himself a helpmate, after we learned by our correspondents of his Of course he did not wish to read the paper all to himself, but wished to read the good stores about the coming of his helpmate, and to have someone with whom to discuss the subject matter. Well done, Mr. Fulliam.

The Pricetown cornet band has been employed to furnish the music for the Blanchester Fair. The boys are doing fine. They are all an active, earnest, and highly talented band of fellows, and they will not only furnish a grand piece of music, but a good music, but prove that the Pricetown cornet band is par excellence above any other band in Southern Ohio.

John McConaughey, of New Market, has purchased Custer & Sanders' store property of this place. The goods belonged to C. & S. and the right narrowed down to two candidates, Messrs. Geo. W. James and Louis Leis. The latter, however, has been elected. In the selection of Mr. James, by quite a handsome majority, and his friends are exceedingly happy over the result.

Mr. Scott Kozr purchased a lovely mule one day last week, and remarked to a number of friends that the dumb animal was the possession of an unkind disposition which under the most trying circumstances never ruffled. Subsequent developments, however, convinced Kozr that the new purchase was after the style of Dan's mules, which he claimed would be obedient for six months in order to get one good kick at the owner. The mule in question refused to hand out on Wednesday last just as the turn was made at the corner of Church and Fourth streets, and in backing broke two and three sections in the iron fence belonging to Mrs. J. L. Walker, of this place. The mule is now being put to the stables. Moral: Never buy a domesticated mule.

SPARGUR & QUINN,

Masonic Temple, High street. Hillsboro, May 9th, 1885.

A visit to Hillsboro is altogether incomplete and unprofitable, unless an inspection of its largest and best enterprises is carefully made. A **WISE** view is well taken if all the Factories, Mills, and great Commercial Establishments are looked at: when the **MAN** with a half critical eye will see that energy, enterprise and skill, combined with a sufficient amount of capital, is the grand consolidation scheme which has **BUILT** up the forces, which, with long experience, have set up in our midst one of the best enterprises of which **A** community can boast. In no little city in Southern Ohio of the same or even larger size can such an established **HOUSE** be found as well as boast of here, centrally located, and convenient of access as the **HILLSBORO HARDWARE CO.** Competitors act as though a cyclone had struck them. It is said they have started the rumor that this grand consolidation was made to put up prices. The H. H. Co. think just the reverse, that by buying in larger quantities they buy more cheaply, and in selling more, reduce the price. That was the intention. It is working well. An inspection will prove it. Try it. Since January 1st the H. H.
