**Tried to Force an Entrance--They Met With Resistance.**

The residence of Mr. and Mrs. S. L. Warner on Fountain st. had the appearance of a corner bill board after a cyclone Friday morning.

It was plastered from top to bottom with various placards calculated to convey the idea that it was the abode of a recently married couple. The various cards were profusely and appropriately celebrated.

Mr. and Mrs. Warner were married Wednesday afternoon. Thursday night 40 friends visited their home. The husband had anticipated the event and he had every door barred and each window nailed down. The crowd, after finishing its decorative work, placed a ladder to an upstairs window. Two young men mounted it. One of them pushed his hand inside, raised the window and ran up against a stiff left hook, delivered by Mr. Warner. It landed on the chin of the intruder. Both men on the ladder fell to the ground. The crowd then serenaded the bride and groom with a snare drum and tin can chorus.

**Witnessed Remarkable Exhibition of Powers.**

**Afflicted Received Relief at His Hands.**

The audience attracted Thursday night to the Grand Opera House to witness the second series of magnetic power exhibitions by the Boy Phenomenon was perhaps the largest ever assembled there.

In the house were closely crowded together at least 1,400 persons, while outside the building a crowd of about 2,000 congregated and clamored for admittance. Only when the last hopes of gaining admittance had died away did the crowd reluctantly disperse.

As early as 2 o'clock in the afternoon those afflicted with rheumatism, paralysis, deafness and various other ills began to assemble that they might secure front seats in the house, and thus have better chances of reaching the stage for treatment.

When the time arrived for the exhibitions to begin an instinctive hush prevailed throughout the entire audience. The feeling was intense. The scene was dramatic. In the assemblage were old men and women, helped to their seats by crutches and companions, or carried bodily and feeble little children were then to take part in the drama, so real and and without a shadow of simulation. The suffering ones wore on their countenances expressions of care and forlorn hope that could be the result of no makeup, but only of hard experience.

As was the case Wednesday night all the cures effected were simply the results of the laying on of hands by the Boy Phenomenon. The skeptics were dazed by the seemingly incredible cures performed before their eyes in but a few moments.

The names of the persons treated and their diseases follow:

George Poole, 404 Locust st., muscular rheumatism and lumbago eight years; Mrs. Margaret Manderbach, 138 Bartges st., rheumatism 10 years; George Zimmerman, 106 Common st., deafness 15 years; James Groark, 404 Forge st., paralysis 12 years; Mrs. Blanche Winkler, 103 Main st., neuralgia of the face many years; John Manderbach, 138 Bartges st., rheumatism 35 years; "Auntie" Brown, 206 Carroll st., palsy for several years;

**GROWTH**

Of St. Mary's Church.

Many Improvements That Have Been Made

During the Time of Rev. Moran's Pastorate.

Interesting Account of His Foreign Travels.

While the improvements made during the past two years on the buildings and property of St. Mary's church, on South Main st., have been extreme, yet having been made from time to time, the casual observer may not have considered such improvements in the aggregate. Glancing over the work done in the past two years it is shown that at least \$10,000 has been expended in improvements.

In conversation with a DEMOCRAT reporter Thursday evening, Rev. Francis T. Moran said: "I have just finished all that can be done at present and am now enjoying a short season of rest. I am very grateful that I may now look forward to absolute quiet."

The series of improvements was completed a few days ago with the laying of sidewalks about the parochial residence.

Among the improvements made under the pastorate of Dr. Moran, which has been two years and a half, the parochial school has been remodeled, the sisters' house enlarged, the church frescoed, a sacristy added and statues of St. Anthony, St. Joseph and the sacred heart placed in the building as have also been stations of the cross. New halls have also been arranged and the present fine parochial residence erected. By the above enumeration of improvements it will be seen that extensive changes have been made. Everything about the property is now in splendid order.

All improvements to be made at St. Mary's for a number of years have now been completed. No more are contemplated until such time as the congregation shall have increased in numbers and it feels able to erect a new church.

The finances of the parish are in a healthy condition. Many new members are also being added to the congregation.

It is especially appropriate that in this connection a word should be spoken of Dr. Moran. While assuming and modest in his manner Dr. Moran is big-hearted and genial, a faithful and able pastor, and he has many friends throughout the city who esteem and respect him.

Rev. Dr. Moran was born at Valparaiso, Ind., near Chicago, in 1865. He is the son of Peter and Catharine Moran. His early education was obtained at St. Paul's grammar school in Valparaiso. Afterwards he attended college at Milwaukee and Baltimore, completing a philosophical and theological course at St. Mary's college, Cleveland. The course taken by him was the longest and most thorough arranged in the college curriculum. Ordained into the priesthood at the age of 25, he was at once assigned to a parochial work at Halgate, O., where he remained three months. From there he went to Toledo, spending a year there as pastor of one of the churches.

Going from there to Clyde, he spent six years in pastoral work at that place and in adjacent communities. He came from Clyde to St. Mary's church, Akron, and has been here about two and one-half years.

Dr. Moran has traveled extensively and has also lectured a great deal. Some of his most prominent lectures have been delivered on such subjects as "Man, a Christian," "Whither Are We Drifting?" "America's Future" and "Success."

In 1895 Dr. Moran took an extensive trip through Europe, visiting the principal countries. He was in all the capitol cities, with the exception of St. Petersburg and Stockholm. He recalls with pleasure his visit in Spain where he was entertained at San Sebastian by the Countess Del Val. San Sebastian is the great summer resort of Spain, and during his stay there Dr. Moran saw frequently the Queen Maria Theresa and the young king, Alphonso XIII, who were also spending the season there.

While in Rome, Dr. Moran met King Humbert, King of Italy, and also had personal audience with Pope Leo XIII.

Dr. Moran spoke of having enjoyed his European tour very much, but speaking of America, he said: "I prefer living in America; but historically, Europe is of great interest."

**BIRTHS.**

**VIERS**—To Mr. and Mrs. E. J. Viers, 420 W. Center st., Wednesday, June 14, a daughter.

**STROBEL**—To Mr. and Mrs. Frank A. Strobel, 113 Furnace st., Wednesday, June 14, a daughter.

**Arrests Will Follow--Cases Heard In Police Court.**

Young America usually commences to celebrate the Fourth of July about a month before hand, the consequence of which is that a number of complaints come to the ears of the police department.

Chief of Police H. H. Harrison has instructed all officers to arrest any one caught exploding fire crackers.

This morning H. Fischaller, 450 Perkins st., aged 15 years, was given a severe lecture by Mayor W. E. Young for having a premature celebration.

Frank E. Wilcox changed his plea of not guilty to guilty to the charge of indecent conduct. He was fined \$5 and costs.

Frank Hoagland was fined \$2 and costs for assault and battery. He hit a young man with a piece of stock at the Whitman & Barnes works last week.

Berge B. Slusser's case for assaulting Conductor John A. Falor was continued until next Wednesday morning. Falor is slowly improving but is still confined to his bed.

The case against Adam Duncan, manager of the Akron Soap works, for conducting a business offensive to the neighborhood, was continued until next Wednesday.

Alexander Mahony, a drunk, got \$2 and costs.

Wm. Shade, an Erie engineer, pleaded guilty to the charge of blowing a whistle inside the city limits, when there was no impending danger. He got \$1 and costs. Ernest C. Deible filed the information against him. Warrants are out for two engineers on the same charge. Their last names are Paden and Myers.

**Resolutions of Condolence.**

Whereas, It has pleased God in His Providence to remove from our midst our late neighbor, Max J. Fink; and whereas, the intimate relations held by our deceased neighbor with the members of this camp, render it proper that we should place on record our appreciation of his merits as a man and neighbor; therefore be it

Resolved, by Akron Camp No. 4334, the Modern Woodmen of America, that while we bow in humble submission to the will of the most High, we do, nevertheless, mourn for our neighbor, who has been called from his labors to rest.

Resolved, That in the death of Neighbor Max J. Fink, this camp loses one who was always earnest in his work as a Woodman, ever ready to advance the interests of the order, devoted to its welfare and prosperity, ever ready to help the needy and the distressed of the camp; an honest and upright man and beloved by his neighbors and fellow-men.

Resolved, that this camp tender its heartfelt sympathy to the family and relatives of our deceased member, in this their sad affliction.

Resolved, that these resolutions be entered upon the minutes of this camp and a copy be sent to the family of our deceased neighbor and printed in the daily newspapers of this city.

Akron, O., June 12, 1899.

**LIEE SAVED**

By the Prompt Action of William E. Shepard.

The prompt assistance rendered by William E. Shepard saved the life of Mrs. Hartshorn, who resides on South Main st. near Falor's crossing. Thursday evening he was driving past the house when he noticed flames issuing from the kitchen. In a moment Mrs. Hartshorn ran from the house. Her dress was on fire. Mr. Shepard jumped from his carriage and ran into the yard. He grasped the woman about the waist and threw her down, extinguishing the fire by rolling her in the grass. The damage to the house was trifling. The fire was caused by the explosion of a gasoline stove.

**THE WEATHER:**  
Fair tonight and warmer Saturday.

**SALARIES INCREASED**--Salaries of postmasters in the vicinity of Summit county have been increased as follows: Barborton, \$1,400 to \$1,500; Cuyahoga Falls, \$1,500 to \$1,700; Crestline, \$1,600 to \$1,700; Kent, \$1,700 to \$1,800; Orrville, \$1,500 to \$1,600.

**"AUNT MILLY" FAILED.**

**So the Young School "Mom" Took a Hand.**

"Hastily putting up a small lunch, the young school teacher hurried away for the day's duties; taught her physiology class the evil effects of coffee (that being the lesson for the day) then came home and made coffee the principal thing for dinner. She had been growing more and more nervous and irritable as the weeks passed by. Stomach trouble had set in and more or less bowel trouble, but she never had applied to herself the teaching that coffee acts as a poison on many systems.

A package of Postum Coffee found its way into the house and was sent down to Aunt Milly, the cook, to make. In the morning when it was served, it was so inferior that it was pushed away in disgust and regular coffee called for. But the school teacher knew she must have help some way to get rid of coffee drinking, so she went down the next morning to make some Postum herself and to make it carefully, according to directions. The result was more satisfactory than she had ever dreamed. With rich cream it was better than the best coffee she had ever drank, and it made herself hungry for breakfast just to smell it.

A week passed by and she became known as an enthusiast on the subject. One day at a party a remark was made on her improved looks, and she related the story of the new coffee. Miss Smith, one of the teachers, remarked that she had always wanted something in place of coffee, and intended to try it. A few mornings afterward Miss Smith remarked, "We tried your old Postum at home and nobody liked it." She was induced, however, to give it a trial under the personal direction of her own supervision, in order to know that it was laced 15 or 20 minutes. That cleared up the case, and Miss Smith is as enthusiastic over Postum as the other teacher has been.

The little nephew in the house was perfectly delighted with the thought of having a cup of coffee every morning for breakfast. The greatest victory we have had is with sister, who has been a regular coffee devotee and held out against the Postum for some time, but after she had used Postum for about ten days, she said one morning, "I must say I will take this in preference to coffee every time, so we will just have Postum hereafter and none of the old-fashioned coffee."

Now when the teacher instructs a class in physiology, she can demonstrate by her own case every morning the advantage of leaving off coffee with its poisonous effects." Janet Cooper, Nashville, Tenn.
