NORA McCARTY.

Nora is pretty,
Nora is witty,
Witty and pretty as pretty can be!
She's the completest
Of girls, the neatest,
The brightest and sweetest!
But she's not for me!
Mavourneen.

Nora, be still you!
Nory, why will you
Be witty and pretty as pretty can be,
So smart and so slender,
So haughty and tender,
So sweet in your splendor—
And yet not for me?
Mavourneen.

"I Don't Complain."

"Im a poor, miserable creature," remarked Mrs. Pinfeather, to a sympathizing neighbor, "and always expect to be. Nothing goes right with me. I never succeeded in anything I undertook, and never shall But I don't complain!

"First and last, I don't suppose there's any woman that ever underwent what I have, in the way of sickness. I don't suppose there's any disease you ever heard of, but what I've had or expected to have, before I die. Last year I had the erysiplas and the brown creature, and I expect from my feelin's that I'm in a consumption now. But I don't complain.

"I believe there never was a family more hard to get along with than mine. There's always something to pay. The boys get to fighting in the streets and tear their clothes and I have'em to mend. The girls don't help me a bit. There's Sarah Jane—she is always fretting and complaing about something or other. I don't know who she takes after, I'm sure. Whatever my troubles are, I never complain.

"I'm always cleaning house, and it hurts me dreadfully, and the more I clean it the dirtier it looks. But I don't complain!

"Everybody takes advantage of my being a lone widow, and I can't help myself—They don't pity me, not the least. But I don't complain.

"I used to believe in human friendship, but I don't now. I know I haven't got a friend in the world. If I had, I should be sure to lose him. My children don't care anything about me. All they want is to get as much out of me as they can. But I don't complain!

"They say that everybody was born for some purpose. It's my conviction that I was born to be a martyr. But I don't complain!

"I never expect to take any comfort in living. I never get a moment's rest. I'm on my feet all day, and half the time I can't sleep nights. But I don't complain!

"Very likely you won't see me again. I feel I am liable to go any minute. It's hard to leave a young family all to themselves in this 'vale of tears.' But if it should happen, I shan't complain!"

Mrs. Pinfeather stopped to take a pinch of snuff, and her friend, bursting into tears, exclaimed that "she was the long-sufferingest woman she ever did see."

Sickness of Three Month's Volunteers.

Not a few of the three months' volunteers, who returned in such high health a few weeks ago, we hear of now as threatened with serious sickness, having pains in the bones, chills, and several symptoms of incipient typhoid fever. This they and their friends attribute to latent seeds of disease taken into their constitutions during their three months' campaign. It is in fact exactly the opposite. It is literally leaving off to be soldiers that is the cause of this sickness in almost all these cases. While serving, the health of the men improved, in nearly all cases, wonderfully. Exercise gave them strong, healthy appetites; and this, with plain food and sleeping in the open air, made them wonderfully robust.—The discipline of the soldier's life was favorable to every physical development, and so fine a body of men was hardly ever seen.

But how has it been with these men since their discharge? They have all had ready money in their pockets, full liberty to go where they pleased, eat and drink as they pleased, and be idle when they pleased.—Their appetites acquired by a official have but little diminished, but have followed them into a more sedentary life. If a certain amount of nutriment is digested into the system, it will have, in some way, to be worked out of it by physical hard labor, or it must and will generate disease. There was many a pale faced lawyer and hard student who rushed from his office to the field of battle, a man of fine bone and muscle, but worn down with dyspepsia. There were many editors of newspapers, many clerks in offices and city stores, who went out and found the benefit of it. They have come back new men physically, their bones clothed with muscle and their systems filled with good warm healthy blood. Indeed, it has been remarked that those wounded recover with a most astonishing rapidity, because of the health of the system.

But it is equally clear that the sudden change back again to old habits is a far more perilous matter. If they could confine their appetite within its old limits, which they cannot, it would still be doubtful if they would not require at least double their former exercise for the next three months, to keep them in anything like the usual health. Without it, the free passing off of decayed matter through the skin, cannot take place, and this is the real cause of ninety-nine hundredths of the worst cases of fever. It is fruitless to talk about avoiding all danger and exposure to contagion—The cause of disease is generally an internal one: it is, perhaps, in most cases, the want of exercise. Or, in other instances, it is an unrestrained indulgence in the niceties of the table after a simpler diet for three months. Free resort of the bar-rooms, together with late hours, irregular sleep, and all sorts of jubilant excesses which the camp life restricted, are causes, all or any, which would abundantly account for twice as many cases of disease among the three months' volunteers as have yet been heard of.

The best way to prevent fevers practically in nearly all these cases, would be for these men all to return, at any rate, for three or six months longer. They would help to fill out some of the skeleton regiments during that time, and, until other recruits were ready, to fill their places. It would be all the better that their times of service should be expiring, one by one, at different dates. There really is more security of life and health, taken as a whole, for the next three or six months, to all the returned volunteers in the army than out of it, especially now that, under McClellan's command, liquor is so effectually banished from the camps, supplies are so perfectly arranged and all license is cut off.

NOTICE.—STATE OF OHIO, WOOD CO. SS.

William Hammon vs. the heirs of Almeron Rollins, Michael Shaffer, et al.

John Carroll, and Martha Carroll, his wife, Julia Ann Rollins, Sophia Rollins, Celestia A. Rollins, William Rolling, Harriet A. Rollins and Mary E. Rollins, the children and heirs at law of Almeron Rollins, late of Wood county, deceased, and Michael Shaffer will take notice that on the 19th day of August, 1861, the plaintiff, William Hammon, filed in the Clerk's office of the court of common pleas, of Wood co., O., his petition, the object and prayer of which is to correct an error in the description of certain lands as set forth in the deed of John A. Kelly, as administrator of the estate of the said Almeron Rollins to plaintiff. Said petition avers that the lands actually advertised and sold to plaintiff by said Kelly as such administrator, were the east half of the north-east quarter of section thirty-two (32) in township number four (4) north of range number twelve (12) east, in Wood county, Ohio; but that said lands were erroneously described in said administrator's deed as the east half of the north-west quarter of said section. Plaintiff asks to have said error corrected in said administrator's deed, and also in a deed from plaintiff to said Michael Shaffer, and also in a deed from said Michael Shaffer to one William Dowling. Defendants are notified that unless they answer or demur to said petition on or before the 19th day of October, 1861, the same will be taken as confessed, and a decree may be entered accordingly. COURT OF COMMON PLEAS, WOOD COUNTY, OHIO.

James Armitage vs Merret M Young.

The defendant, Merret M. Young will take notice that on the 30th day of August, 1861, the plaintiff, James Armitage, filed a petition in said court against him, the object and prayer of which petition is to obtain judgment against the defendant for the amount of two promissory notes executed and delivered by said defendant to plaintiff, and also for a balance due upon an account and bond for the several sums of one hundred and ten dollars with interests at the rate of ten (10) per ct. per annum from March 18, 1858, and of seven hundred and ninety six 7-100 dollars ($793 7-100) with interest from January 25, 1859, at the rate of ten (10) per cent. per annum, and of sixty-one 10-100 dollars ($61 10-100) with interest from April 29, 1861. Plaintiff also seeks to collect said sum by the aid of the provisional remedy of attachment, and has attached the following lands and tenements of defendant, to-wit: 43 and 84 100 acres off the west part of river tract number eighty (80) in the United States reserve, at the foot of the rapids of the Maumee river, in Wood county, Ohio, and bounded as follows: On the south by the center of Grassy creek, on the west by the west line of said river tract number eighty (80) on the north by the Maumee river, and on the east by a line drawn parallel to the west line of said river tract number eighty at a distance of eight chains, 71½ links easterly thereof. Also a right of public way from said 43 and 84 100 acres to the Perrysburg and Oregon road along the route surveyed and reported for a county road to the commissioners of Wood county, by Wellington, surveyor. Said petition will be answerable on the second day of December, 1861.

Canker, Salt Rheum, Erysipelas, Scrofulous Diseases, Cutaneous Eruptions, Sore Eyes,
and every kind of Disease arising
from an impure state of
the Blood.

The most effective Blood Purifier of the Nineteenth Century.

It is the prescription of an educated Physician, and all who are afflicted with any of the above named diseases, should use it without delay. Such letters as the following are often received:

Jeromeville, Ashland Co., Ohio, Nov. 20, 1860.

Messrs. J. N. HARRIS & Co., Cincinnati, Ohio.

Gentlemen:—I deem it a duty as well as a pleasure, to inform you what Dr. Weaver's Syrup and Cerate has done for me, and hope that this letter may come to the notice of persons similarly afflicted. In the year 1850 I was attacked with tetter, or some kindred disease, on both my legs, which extended until from my knees to my feet was one raw sore. I consulted and obtained medicines and prescriptions from nearly all the physicians in this vicinity, but obtained no relief. Your agent at this place, Mr. Hoffman, recommended me to try the Syrup and Cerate, which I fortunately did, and am now a sound and well man by their use.

With great gratitude, I remain, Yours truly.

JOHN WEIRBAUGHT.

Mr. Weirbaught being a well known gentleman of Ashland, makes this information most reliable.

By taking the Syrup as directed, it will drive the diseases from the system, and when once out on the skin, a few applications of

DR. WEAVER'S CERATE, OR OINTMENT,

and you have a permanent cure.

The Cerate has proved itself to be the best Ointment ever invented, and where once used, it has never been known to fail of effecting a permanent cure of old sores, tetter and ringworm, scald head, chilblains and frost bites, barber's itch, chapped or cracked hands or lips, blotches or pimples on the face. And for Sore Nipples and Sore Eyes, the Cerate is the only thing required to cure. It should be kept in the house of every family.

Price of Syrup $1. Cerate 25 cents per bottle.

SEWING MACHINES.

GREAT IMPROVEMENTS IN SEWING MACHINES.

THE EMPIRE SHUTTLE MACHINE

PATENTED FEBRUARY 14th, 1860.

Salesroom, 516 Broadway,..... New York.

This Machine is constructed on an entirely new principle of Mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be simplicity and perfection combined.

The following are the principal objections urged against Sewing Machines:

1.—Excessive fatigue to the operator.
2.—Liability to get out of order.
3.—Expense, trouble, & time in repairing.
4.—Incapacity to sew every description of material.
5.—A disagreeable noise while in operation.

THE EMPIRE SEWING MACHINE IS EXEMPT FROM ALL THESE OBJECTIONS.

It has a straight needle, perpendicular action, makes the LOCK or shuttle stitch, which will neither rip nor ravel, and is alike on both sides; performs perfect sewing on every description of material, from leather to the finest Nansook muslin, with cotton, linen, or silk thread from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

EMPHATICALLY A NOISELESS MACHINE!

It requires fifty per cent. less to drive it than any other machine in market. A girl of twelve years of age can work it steadily, without fatigue or injury to health.

Its strength and WONDERFUL SIMPLICITY of construction render it almost impossible to get out of order, and is GUARANTEED by the company to give entire satisfaction.

We respectfully invite all those who may desire to supply themselves with a superior article, to call and examine this unrivalled machine.

But in a more special manner do we solicit the patronage of

Merchant Tailors, Dress Makers,
Hoopskirt Manufacturers, Corset Makers,
Couch Makers, Gaiter Fitters,
Shirt and Bosom Makers, Shoe Binders,
Vest and Pantaloons Makers.

☞ Religious and charitable institutions liberally dealt with.

PRICE OF MACHINES, COMPLETE

No. 1, or Family Machine, $45 00, No. 2, Small sized Manufacturing, $60 00, No. 3, Large sized Manufacturing, $75 00.

CABINETS IN EVERY VARIETY.

We want agents for all towns in the United States, where agencies are not already established, to whom a liberal discount will be given, but we make no consignments. T. J. McARTHUR & Co.,

GREAT REDUCTION IN THE PRICES!
—OF—
SINGER & COMPANY'S STANDARD MACHINES.

Well known to be the best for manufacturing purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90, reduced to..... $70
No. 2, Standard Shuttle Machine, formerly sold at $100, reduced to..... $75

Singer's Letter A Machine

Is the best Machine in the world for Family Sewing and Light Manufacturing purposes: Price, (with hemmer,) and beautifully ornamented, $50.

The Nos. 1 and 2 Machines are of great capacity and application for manufacturing purposes.

Our No. 3 Machines are especially adapted to all kinds of light and heavy leather work, in carriage trimming, boot and shoe making, harness making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest size dasbes. There is scarcely any part of a Trimmer's stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table of these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A Machines, the special attention of Vest Makers and Dress Makers, and all those who want Machines for *light manufacturing purposes.* They embody the principles of the standard Machines, making like them, the interlocked stitch, and are destined to be as celebrated for family sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand, Hemming Gauges, Silk, Twist, Linen and Cotton Thread on Spools, best Machine Oil in Bottles, etc., etc.

We manufacture our own needles, and would warn all persons using our machine not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all of our Branch offices are furnished with the "genuine article." In case of small purchases, the money may be sent in postage stamps or bank notes.

☞ Correspondents will please write their names plainly. It is all important that we should, in such case, know the Post Office, County and State.

☞ All persons requiring information about Sewing Machines, their sizes, prices, working capacities, and the best methods of purchasing, can obtain it by sending for a copy of

I. M. SINGER & CO.'S GAZETTE,

Which is a beautiful pictorial paper entirely devoted to the subject.

IT WILL BE SENT GRATIS.

☞ We have made the above REDUCTION IN PRICES with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, BADLY MADE, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a Machine are: Certainty of correct action at all rates of speed, simplicity of construction, great durability, and rapidity of operation with the least labor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this. The purchasers of Machines, whose daily bread it may concern, will find that those having the above qualities not only work well at rapid as well as slow rates of speed, but last long in the finest possible working order. Our Machines, *as made by us*, will earn more money with less labor than any others whether in imitation of ours or not. In fact, they are cheaper than any other machines as a gift.

MOORE'S PATENT THIRTY-FIVE DOLLAR

DOUBLE LOCK STITCH

FAMILY SEWING MACHINE

IN SIMPLICITY OF DESIGN AND PERFECTION OF WORKMANSHIP UNSURPASSED BY ANY MACHINE YET MANUFACTURED

Its simplicity in operation is such that a child ten years old can use it with ease. Its several parts being constructed on philosophical principles, it is not liable to get out of order. It makes a strong, elastic and durable stitch. It sews from two common spools, and makes but little noise.

All who contemplate buying, or wish to see the best Sewing Machine now in use, are respectfully invited to call on N. H. CALLARD, in whose Tailor Shop it is now in practical operation.

MEDICINAL.

DR. J. B. SMITH!

Would respectfully inform the citizens of Wood county that he has permanently located himself in Bowling Green for the purpose of practicing Medicine and Surgery. In addition to a regular course of study, Mr. S. has made himself acquainted with the special mode of distinguishing diseases by an examination of the urine of the patient as practised by the late DR. DELANBAUGH, and for all Chronic Diseases will say unhesitatingly that by following Mr. D's practise in such cases, he has had better success than from any other method of treatment.—Among the diseases which Dr. S. professes to treat successfully may be mentioned the following, viz: Dyspepsia, Liver Complaint, Consumption in its early stages, Diseases of the Spleen, Asthma, Spitting of the Blood, Palpitation of the heart, Rheumatism, White Swelling, Dropsy, Scrofulous Diseases, Jaundice, Female Complaints, in all their varied forms, Low Spirits or Melancholy, Fever Sores, Ulcers, &c. If patients with any of the above or kindred Chronic Diseases will send some of their urine taken in the morning in a clean vial, Dr. S. can make a satisfactory diagnosis of the case nearly as well as if the patient were present.

BLOOD PURIFIER AND BLOOD PILLS.

BOTANY. CHEMISTRY. EXPERIENCE. PHARMACY.

DR. ROBACK'S SCANDINAVIAN REMEDIES.

When Dr. Roback, the renowned Swedish Physician, introduced his Blood Purifier and Pills into the United States, he set forth in plain terms their curative properties. This was years ago. The task of recommending them has since been taken out of his hands. Enlightened men, whose character for sound judgment and philosophy gives their opinions weight in the community, men who observe, reflect and make "assurance doubly sure" before they decide, are everywhere approving and urging the use of these wonderful preparations. All who confide in the wisdom and honesty of this class, or who choose to investigate for themselves, are now of one mind on this important subject.

The evidence in the possession of Dr. Roback which is at all times accessible to the public, establishes the following:

FACTS:

That the BLOOD PURIFIER and BLOOD PILLS have been proved by analysis to

CONTAIN NO MINERAL;

That they cure the almost universal complaint,

DYSPEPSIA,

with unerring certainty, and in a very short time.—That after all other medicines have proved useless they relieve LIVER COMPLAINT,

and restore the health and strength of the sufferer. That SICK FEMALES,

who have languished for years in helpless weakness and despondency, recuperate with almost miraculous rapidity under their invigorating operation. That all Sexual Disabilities are removed by their cordial and gently stimulating properties. That they recruit SHATTERED CONSTITUTIONS,

however, they may have been trifled with and abused. That their direct tendency is to lengthen life, and render it enjoyable. That operating directly upon the poison of disease in the blood, they
