LOCAL AND MISCELLANEOUS.

The social season is at hand. Very few visitors in town this week. Quite a decline in prices of butter and eggs. No troupes billed for the opera house this week. The season will soon be at hand to buy and exchange real estate. D. L. Wadsworth has been enclosing his proposals with a new fence. We were visited with a heavy fall of rain Saturday and Sunday. Read up the locals in the business column if you want to make money. What part of the country will the new home seekers select this spring? Deputy Treasurer Cushion is looking after the delinquent tax-payers just now. The temperance people in Grafton are arranging to hold an election on local option. We have had no report from the farmers institute and bee keepers association of late. The Park and Palmer houses are in possession of bran new landlords this winter. The citizens of Medina have become awakened to the importance of street improvements. Our chess experts went over to New London Friday evening last and carried off the laurels. The proprietor of the new store that expects to open here January 15, advertises for three lady clerks. Warden Coffin has had three personal applications for Mrs. Garrett's infant child with a view of adopting it. On account of the frequent changes in the weather we are compelled to shed a portion of our wraps every few days. The school report published in our issue of Dec. 28, the average daily attendance in the B Grammar reads 93.8; it should read 93.9. The scholars and teachers of the public schools were in their places Monday morning ready for work after their two weeks' vacation. A number of clothes lines were reported to have been stripped last week. Our night detectives should be on the alert for the transgressors. The coaches on the Bee Line are about all heated by steam from the engine, hence passengers are not annoyed by the old-time noise caused in building fires. Station Agent Fisher informs us that he expects to make the best showing for 1888 in total receipts at this place of any local point on the Columbus division of the Bee Line. To save writing to your friend just step in and instruct us to send them a copy of the ENTERPRISE. If the friend or relative refuses to receive the present we will agree to refund the subscription paid. The sample room at the American House has been reopened for commercial travelers to invite business men to sample their goods. During the holidays very few traveling men put in an appearance. The following is the total number of boxes cheese and weights forwarded from this place in 1888, boxes 138,930, pounds 5,105,427; butter packages, 19,374, pounds 894,500. 1887—cheese boxes, 141,418, pounds 5,173,403; decrease boxes 3,488 weight 67,076; butter 18,351, weight 1,911,938; increase to packages of 1,023, decrease in pounds 78,028. While a little decrease is observed in the number of packages of cheese and in the weights of both butter and cheese from the previous year, it was ascertained that the stock on hand at the storage and warehouses far exceeds that of January 1st, 1888.

Our friends have visited us with their pocket-books very liberally within the past week. This goes to show that the good people do not intend to permit their village editor and his family to come to want. Many thanks to all.

The following named gentlemen were elected officers for the ensuing year of the Wellington Gas Company: President, D. L. Wadsworth; Vice Pres. C. W. Hemenway; Sec., G. W. VanCleaf; Treas., J. M. Ordway; Directors, D. L. Wadsworth, C. W. Hemenway, G. W. VanCleaf, J. M. Ordway, James Sheldon, G. W. Crozier and C. V. Hemenway.

A freight conductor of the Bee Line was called before Mayor Husted for permitting the train he had charge of to stand on the North Main street crossing for fifteen minutes. His Honor gave the employe a good sound lecturing and with a good promise from the transgressor not to obstruct the crossings again longer than five minutes at any one time let him go in peace.

Street Improvement.

at the regular session of the Council held Monday evening a petition was received from the property owners of South Main street asking that street improvements be made as per plans referred to in our last issue, but for the benefit of the readers we will repeat it. A stone driveway eight feet wide and eight inches thick to be laid in the center of the street, the cost of same not to exceed one dollar per foot; three-fourths of the expense of same to be paid for from the general fund and one-fourth to be assessed to the property owners; that will cause an assessment of one-eighth of the expense, or one shilling per running foot, to be assessed upon adjacent property on the street. For instance, for every one hundred feet an assessment will be ordered in the sum of twelve dollars and fifty cents. While it is indeed a very light assessment compared to the benefit to be received, the condition of our streets this winter warrants us in doing something to prevent a repetition of such a state of affairs if we desire to hold the trade that belongs to us. So far as we have been able to learn the solicitors for signatures have been cordially received, and while some have not given their names at the first visit, a promise was given to seriously consider the matter and probably by Saturday evening two-thirds of the property owners if not the entire number will be received and the Council will be fully warranted in proceeding with the preliminary part of the improvement forthwith. We hope that all will do their whole duty and you will never regret it.

Annual Meeting of Wellington Agricultural Society.

The members of the society convened in the Opera House Tuesday afternoon, Jan. 8. The meeting was called to order by President Leach, and minutes of last meeting read and approved. The secretary and treasurer presented their reports and a committee consisting of S. K. Warner, Mart Bush, L. P. Clifford was appointed to audit the accounts. The following committee was appointed to nominate officers for the ensuing year: H. E. Leach, James Sheldon, T. Doand, J. M. Otterbacher, and E. E. Husted. Said committee reported the following persons as suitable for officers: for pres., Frank Clifford; vice pres., Mart Bush; sec'y, G. L. Couch; treas., E. E. Husted; directors, Ferd Camp, Homer; A. F. Star, La Grange; Willard Hart, Penfield; B. B. Herrick, Wellington. The following result was declared when the votes were counted: Mart Bush, president; Frank Warren, vice president; Geo. L. Couch, secretary; E. E. Husted, treasurer; directors, Ferd Camp, of Homer, A. Foster, La Grange, Willard Hart, Penfield, B. B. Herrick, Wellington. The auditing committee reported the books of secretary and treasurer correct. The following resolution was offered and adopted: Resolved, That it is the sense of this society that an oratorical contest for the benefit of our treasury should be held during the coming spring and would recommend that steps be taken by the board of directors to hold such an entertainment, or something in the way of entertainment, that will be a source of pleasure to the community and profit to the association. The association then adjourned.

Ryder and others for a lamp on Union street; referred to committee on lamps. Petition from R. Craddock and others for sidewalk to be constructed from the premises of Wm. Ringinger on south side of Meachanic street to east line of corporation; referred to committee on walks. Chief of fire department G. W. Ryder submitted his annual report, which

shows that the department has their full quota of members and in good working condition. A petition from Hon. S. S. Warner and others for street improvement on South Main street from Square to corporation line on the south; referred to committee on ordinances. The Council then adjourned until Saturday evening to receive the petitions from North Main, Meachanic and Liberty streets asking for the proposed improvement.

FIRE.

At eleven o'clock and forty minutes on Friday evening, January 4th, the fire bell gave the alarm of fire which was visible by the leaping flames at some point in the west part of town when the alarm was given. In a few minutes it was ascertained to be a barn located on the Johns' estate north of the brick and tile yard of C. V. Hemenway. On account of the bad condition of the streets, the department was unable to render any assistance in the matter, consequently the flames sped on unmolested. The barn was leased by Wm. F. Johns and contained three head of horses, fifteen milch cows and three heifers, all of which perished in the flames except one horse that broke loose and when the door was opened made a break for its liberty and was saved. A large quantity of hay, grain, one milk delivering wagon, milk cans, fixtures, harness, etc., were entirely consumed. The barn was owned by the heirs of Dr. Johns and was uninsured so far as reports have it, and the contents and stock were insured in the Home of New York, by C. Sage & Co., for seven hundred and fifty dollars. Mr. Johns supplied a portion of the people of the town with milk and the fire visiting the premises at this season of the year, when nearly all of his effects were stored under the roof, and with such a light insurance, the loss will be keenly felt by him. He is a resident of Kelly street and did not reach the scene of action until the premises were nearly consumed. A large crowd of people was on hand as soon as the cry of fire was announced, but the fire had evidently originated in the hay and straw on the inside, hence nothing could be done but to stand by and witness the remains of the animals reduced to ashes. As to the cause of the fire no one seems to know, but the prevailing opinion seems to be that it was accidentally set on fire by tramps who had sought lodging. Total loss, above insurance \$1,000.
