Mrs. W. W. Harvey Injured.

Mrs. W. W. Harvey had a fall Wednesday noon which resulted in severe injuries that at this writing seem likely to prove fatal. She was about the house as usual and had apparently started to go down the back steps and fell, striking on her head and producing, as it is supposed, concussion of the brain. She has not regained consciousness at this writing and appears to be slowly sinking. Whether she was suddenly seized with dizziness or a fit of unconsciousness to which she has been subject we can not know. Her daughters, who were expected, came within an hour after her injury and are giving their mother every possible attention. Dr. Gregg has the case in charge.

Mrs. A. B. Copeland, of Cleveland, agent and teacher of S. T. Taylor's Perfect System of Dress Cutting, is at Mrs. E. C. Jefferies, on Bennett street. The S. T. Taylor system of dress cutting is the only system not a chart, and no lady ever discarded this system for a humbug, as this is only one of the methods used to deceive the unwary. Ladies are invited to peruse Bon-Ton for full particulars in regard to this system.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, and the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. THE Diamond Garment Cutting School

Which has been in progress in the G. A. R. hall are having splendid success. This unprecedented patronage in this movement is due to the superior excellence of this system and the great need existing among the ladies for higher education in this line.

That the ladies everywhere need higher education in this useful art is apparent to all. The making of the costumes for the family is a source of more annoyance and more trouble than all other duties ladies have, and as this movement simplifies one of their most arduous duties, it may properly be classed as a benefactor to womankind. We boast of a superior progress and enlightenment of the nineteenth century and yet our women can not make their best costumes. In this line of practical education we are not up to the standard of the advanced times. Now that the opportunity is presented it behooves all to appreciate the magnitude of this movement.

Now all those wishing to take instruction in the Garment Cutting School must come in on or before the 10th of August.

Yours Resp'y,
Diamond Garment Cutting School.

THE REMAINDER OF JULY

Will be devoted to clearing up odds and ends at the Goodrich Clothing Store.

Our trade the past season has been the largest we have seen for many years. Our stock is now low and although many fine goods remain, our aim is to clear them all out and have a new, fresh stock this fall. Our offer will be

20 PER CENT, OR 1-5 OFF

from everything save rubber goods for 2 weeks or during the remainder of July. We feel that while this sale may be of value to us in clearing up our stock, it is also merited by and due the people who have patronized us so liberally. We shall make our lowest prices from the start as the time will be short and will offer many odds and ends at half price. Come at once and get the cream.

One case (60 dozen) heavy, fleece lined underwear for winter. Just received and worth 50c will go with the rest at 39c.

Gratefully yours,

E. E. GOODRICH.
