HEADACHES AND SLEEPLESSNESS

Usually Caused By Stomach or Bowel Trouble

It is usually found that the beginning of headaches or sleeplessness or other nervous conditions is from constipation or indigestion or both. The explanation is simple for one can readily understand that if they should eat spoiled food they would immediately become deathly sick if indeed they did not die from it. There is little difference between eating spoiled food and having it spoil after it is taken into the stomach. It immediately comes in contact with the blood and if the stomach sours it and ferments it producing poisonous gases. It is quite natural that headaches and general nervousness would quickly follow. Later if the condition becomes chronic anemia and a general run down condition prevails. The surest and quickest road to health in such distress is New-Worth for sale at most drug stores at one dollar a bottle on a positive guarantee of money back if the first bottle does not show satisfactory results. It is always on sale in this city at the Schranz & Heckler drug store.

Mrs. Huffman, of Johnstown, Pa., told us of her experience. She had periodic headaches, terribly distracting and painful every three or four days. Her stomach and bowels were bad. She had rheumatic pains and was very weak and all run down. Before she had taken one bottle her pain left her and she slept

TWO MILL LEVY IS EXPLAINED

Statement Is Authorized Today By The Knox County Commissioners

The following statement of facts regarding the two mill levy for road purposes as submitted to the people of Knox county to be voted on next Tuesday, November 7, is authorized by the commissioners of Knox county.

This statement is prepared, not as an argument, either for or against the proposition, but entirely for the purpose of explanation.

The two principal points to be explained are: First—The two mill levy previously voted by the people of Knox county and to run five (5) years has expired. Since the expiration of that time the commissioners of Knox county find it impossible to meet the demands of the people for more roads unless the above proposition should carry.

Second—The road money in Knox county is divided into two funds, the Improved Road Fund and the County Road Fund. The county money which goes to help build the state system of roads must come from the Improved Road Fund, while the "County Fund" is all used in the "County System."

Every dollar to be derived from this levy will go into the "County Road Fund" and consequently will be spent only on the county roads, not one penny of it going toward the construction of the state roads.

The commissioners feel that in submitting this to the voters they are giving them a chance to say whether or not they wish to see the road work in Knox county continue.

LAW ENFORCEMENT IS GROWING EASIER

Prohibition Enforcement Commissioner Parker Addresses Mt. Vernon Audience

State Prohibition Enforcement Commissioner Don V. Parker of Ashtabula addressed a relatively small number of voters at the courthouse Wednesday evening. He spoke on the subject "Law Enforcement and the Brewers' Amendment."

As a public speaker, Judge Parker was, perhaps, less entertaining than some others who have visited Mt. Vernon. He practices none of the graces and arts of oratory. On the other hand, he does not use any of the tricks and methods of the speaker after applause. His method, rather, is telling, sledge hammer blows delivered with a single purpose, and that to demolish.

In his address, Judge Parker made reference to the long fight that had been waged against liquor, culminating in the adoption of the 18th amendment to the federal constitution and the incorporation of a similar amendment into the state constitution. He related in detail and without adornment what has been done by the bureau of which he is the chief to enforce the prohibition law. He declared the results show that the bureau is more than self-sustaining because of the fines assessed and collected from bootleggers.

Enforcement of the law is becoming increasingly easy as the violators are learning they may not venture into the illicit traffic with impunity.

Discussing the proposed amendment that is to be voted upon next Tuesday, Judge Parker said its effect would be greatly to hamper it not wholly nullify, efforts of enforcement officers. It would permit keeping in homes and other places not only light wines and beer, but every other kind of intoxicating liquor, however acquired. He strongly urged his audience to vote No on the proposal.

A SIN TO LET HAIR FALL OUT

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Hurry! It's your duty! Each day you see a little more hair falling out and you are making no effort to avoid baldness. What a pity. Falling hair means your hair is weak, sick—possibly dandruff is strangling it, or the hair root pores in the scalp are not firm and tight, thus wasting the hair-growing oils.

Danderine almost instantly stops falling hair of men or women and cleans every particle of dandruff away, then the hair takes on new life, vigor and strength to grow strong, thick, and long.

Danderine is delightful—not sticky or greasy. Go to any drug store now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.—Advt.

Exhausted From Grippe Cough

La grippe coughs rack and tear the sufferer to a state of exhaustion. "Would get completely exhausted from violent grippe coughs," writes R. G. Collins, Barnegat, N. J. "Tried Foley's Honey and Tar and the cough ceased entirely." Used by three generations for coughs, colds and croup, throat, chest and bronchial irritation. Foley's Honey and Tar has stood the test of time. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the world.—Advt. TuThS 228
