THE FAIR.—There is no cessation of interest in the Fair at Beckel Hall. Notwithstanding the unpleasant weather last evening, there was another large crowd and every thing passed off pleasantly. It is gratifying to state, that although this Fair has been in progress for ten days past, and the hall has been thronged nightly, not a single circumstance has occurred to disturb the pleasure and harmony of its proceedings. This is entirely attributable to the good management of the gentlemen who have it in charge. The Fair will be open again to-night. A large number of beautiful articles still remain on hand, which will be disposed of at very cheap rates. The great attraction of the evening will be a series of beautiful Tableaux. Let every body go to-night.

Tickets can be obtained at Fischer's Book and Music Store, 117 Main Street.

☞ The Dayton Post Office will be closed at seven o'clock, P. M. until further notice.

☞ The entertainments at the Fair to-night will exceed any thing heretofore witnessed.

SPLENDID CARRIAGES, SLEIGHS, &c.—We would call attention to the advertisement of Messrs. J. Langdon & Bro., who have now on hand a large and splendid stock of Carriages, Buggies, Sleighs, &c., at the old stand of W. W. Phillips, Nos. 11, 13 and 15 East Fourth Street. The work manufactured at this establishment has a reputation second to no other in the West. In style, finish and durability it cannot be surpassed any where, and the large sales made during the current year is the best evidence of this fact. They are now getting up a large and splendid stock of sleighs of entirely new patterns, which have never before been excelled any where.

The Messrs. Langdon have also a full and complete assortment of Hardware, at their old and well known establishment No. 78 Main Street, between Second and Third.—They are the agents, in this city, for Diebold, Bahmann & Co's. Fire and Burglar Proof Safes, and Schooley's Refrigerator and Lager Beer Coolers.

☞ One of the principal attractions at the Fair to-night, will be the splendid music by the Band,

INTERESTING TO SOLDIERS.—The following important order in relation to the mustering out of the Veteran Reserve Corps has been issued from Washington. The order apparently contemplates the retention, either in the military or civil service, of all who desire it, whose disability entitle them to the consideration of the Government.

WAR DEPARTMENT,
ADJUTANT GENERAL'S OFFICE,
WASHINGTON, October 26, 1865.

GENERAL ORDER NO. 155.

In view of the very numerous and pressing applications for discharges by members of the Veteran Reserve Corps, Department Commanders will cause old organizations of that Corps, within the geographical limits of their command, to be pardoned before a general organization staff officer as soon after the receipt of this order as practicable. Any General, or general staff officer on duty within the limits of the department whose services can be spared, may be detached for this purpose. The officer will question each officer and enlisted man so paraded, as to whether he wishes to be discharged or to remain in service, and will make out separate lists of those who wish a discharge and of those who wish to remain in the service.

Each list will then be read before the officers and men, who will have an opportunity to correct it, so that it will be a true expression of their wishes on the subject. The officer will visit all those who may be absent from the parad, and in a similar manner obtain their wishes, and enter their names on the proper rolls. The rolls of officers and men who wish to be discharged will then be turned to the commissary of muster, who will at once muster out of service those whose names are on the rolls of such as desire to be discharged. He will obtain from regimental officers the necessary data and complete the rolls of those who desire to remain in the service, so as to exhibit their rank and degree of disability. These rolls, when completed, will be forwarded to the Adjutant General. Names of officers and men belonging to different companies or regiments will not be done on the same roll in any of the above cases. The rolls of those who wish to remain in the service, as well as those who wish for a discharge, will be made on the prescribed blanks for muster and descriptive rolls, and will contain full information according to the form of the blank.

Department commanders will see that this order is executed with promptness. By order of the Secretary of War.

[Signed] E. E. TOWNSEND,
Assistant Adjutant General.

☞ Go and see the Tableaux at the Fair, to-night, at Beckel Hall.

COLLISION.—Last night a freight train on C. H. & D. and another on the S. D. & C. Railroads backed into each other in the vicinity of the Depot. Two cars were considerably smashed up. That was the extent of the damage.

☞ Read the article on our first page, concerning Mexico and its resources. It will be found interesting.

LADIES' MANTLES.—For the special edification of our lady readers, we clip from an elaborate article on the fashions, which recently appeared in the New York News, the following on mantles—meantime confessing that the whole subject is to our comprehension utterly incomprehensible:

First class authorities declare that there are only three forms of autumn mantles. The casaque, which fits the figure quite closely; the half fitting paletot, or, as it is called in Paris, the *demi ajuste*, and the loose Bretonne sack, at present the favorite of all. Rough cloths are decidedly the favorites, in preference to every quality of finer goods. Sleeves are little varied, fortunately for both wearers and makers of them, for all must have been somewhat weary of the unchanging shape of them. They are now made, both in dresses and outer garments, with a simulated opening, beginning at the wrist and extending up to the elbows, and otherwise quite plain and close to the arm. It is said that a strong effort is about to be made to shorten the dresses for promenade; it will at least have the effect of deciding whether any reasonable women exist in the fashionable community, and if successful, it will be a great improvement in taste. At least, let us hope that if long dresses continue to hold their full sway, the neat and thrifty habit of looping them over the underskirt will never go out of fashion.

Headache has become very common, so much so that some member of nearly every family is afflicted with it. The cause in most cases is a torpid action of the liver, which is brought on by the debilitating influence of the climate and impurities of the blood. DR. MOTT'S VEGETABLE LIVER PILLS will restore the action of the liver, and will cause the pain in the head to disappear. They will also cause the complexion to become clear, and restore the vitality of the whole system.

Of DRAKE'S PLANTATION BITTERS.

Hostetter's Bitters on the Battle-Field.

It is satisfactory to know that our field hospitals are no longer unsupplied with this life-saving preparation. Soldiers who, as private citizens, had become acquainted with its properties, have in many instances made a special request that HOSTETTER'S STOMACH BITTERS might be added to the medical stores of their regiments, and their wishes have not been unheeded. As a means of sustaining wounded men on the battle field, and of enabling troops to bear fatiguing marches under a blazing sun, it has been strenuously recommended by distinguished medical men, and the prospect is that it will eventually supercede all the adulterated tinctures, liquors and *dangerous Tonics* that have heretofore been considered medicinal staples. The fact that a small quantity of the Bitters mixed with water from any of the Southern or South-western rivers will prevent it from affecting the bowels or the liver, should be borne in mind by Army Physicians, soldiers, and all who have occasion to visit those portions of our country. The man who uses HOSTETTER'S BITTERS in conformity with the directions, may set at defiance Intermittent Fever and all other diseases generated by the action of an unwholesome atmosphere upon an overtaxed frame.

THE FIRST APPEARANCE OF SCROFULA.—When small hard knots appear under the skin on the glands of the neck, or small ulcers about the nose and throat, or sores about the eyes or face, this is the the time to use a Purifier of the Blood, to carry the humor out of the system, before the disease becomes seated and the system fatally disorganized. SCOVILL'S BLOOD AND LIVER SYRUP is the Remedy physicians are using in their practice, as one of the very best Medicines known for curing those diseases which are caused by an impure state of the Blood.

J. N. Harris & Co., of Cincinnati, are now putting up a medicine for the cure of Pulmonary Diseases, known by the name of Allen's Lung Balsam. This remedy is curing cases of Consumption that were considered incurable. This remedy breaks up the most harassing Cough in an incredible short time.

For sale by all druggists.

Humphrey's Specifics.

Thousands of Invalids have been perfectly cured of long standing ailments, the plague and bane of their lives, and on which they have spent hundreds in vain by simply using these invaluable SPECIFICS. DAYTON, September 16, 1865.

Fellow Travelers:

Believing as I do that every man should be useful in his day and generation, and by request of thousands of persons of this community, I have made preparation again, and will manufacture my EXCELSIOR Vermin Destroyer, and will have it sold by agents in every part of the habitable Globe. It is perfectly innocent in its effects and will not destroy anything but that which it is designed to destroy—Rats, Mice, Roaches, Bedbugs and Ants. It can be used in pantrys, cupboards, grainaries. It can be laid or set along the side of food for persons, or useful animals with perfect safety. It contains no poison, and is better than any other preparation now before the public. And you may ask why it is better than other preparations? I will tell you. It contains attractive oils, that other preparations have not got in them; this will bring vermin where the preparation is laid, and they will eat of it as often as you place it where they can get it, while there is any to eat. The preparation contains a different ingredient for the destruction of each named vermin mentioned above. For cockroaches a small peice of bread spread over with the preparation and laid on the hearth in a room, or in pantrys, the preparation being covered with flour for three nights, successively, they will entirely disappear. In old houses, or bedsteads where bugs infest, take a pen knife, or stick and spread a small portion of the preparation along the cracks of the wash and chair boards, and on the bedsteads where they infest let the preparation stay on one or two days, then wash off the dead bugs; then put on a small portion of the preparation again, and you will not have to clean more than once a year. Persons using the preparation to destroy rats need not fear that they will go to wells, as it is the heat of the preparation that destroys, and they will come out if enclosed places to get the air by gating the air they will die at last they will leave the premises and go where they can get water, and then will die immediately after getting the water. It can be used any time in the year. Rats will not die under the buildings to leave a stench. By using from two to three dollars worth of this preparation a year, rats can be kept out of any mill, warehouse, or granery in the United States. Private families will not need over two to four boxes per year. It should always be used three nights successively to clear them out. All other preparations now before the public, contain nothing but phosphorus to destroy, mixed with corn meal and grease, colored with venitian red. My boxes shall contain twice the amount that the others contain, and be sold for the same price. Country merchants and peddlers can be supplied by the dozen at $2; single boxes 25 cents, at my residence, Nos 207 and 209 Jefferson street, between 5th and 6th.

Directions for using on each box.

LATEST NEWS.

From Washington.

WASHINGTON, Nov. 1.—The proceedings and sentence in the case of Wirz will not probably be made known for some days yet.

To-day Mr. Schade, the counsel for the prisoner, called at the White House, and sent a card to the President containing an inquiry as to the action taken by him (the President) in the case, which was returned by President Johnson, bearing the indorsement:

"I have not seen the records."

It is understood, however, that the testimony in the case is now being briefed for the President's supervision.

From New York.

NEW YORK, Nov. 1.—The Fenian Senate met again at noon to-day in private session, Colonel Roberts presiding. The principal business transacted was in relation to the financial department, which it will be necessary to establish in order to effect negotiations and the sale of bonds of the Irish Republic.

During the month of October shipments of arms and ammunition made to the South were 84,000 pounds of powder, 500,000 pounds shot, and 1,500 shooting guns and pistols.

The Commercial's Washington letter says: A company of gentlemen, mostly of this city or New York, has been organized to construct a railroad between Alexandria and Fredericksburg, under a charter obtained from Governor Pierpont's Legislature, when that body was in session at Alexandria. This will be an important connecting link in the travel North and South.

The United States and England.

NEW YORK November 1.—A Washington special says it is intimated that Secretary Seward is preparing an answer to Earl Russell in relation to the proposition of the latter to appoint Commissioners to decide the question of the Alabama indemnities.

The Missouri Legislature.

ST. LOUIS, November 1.—An adjourned session of the Missouri Legislature convened at Jefferson City to day. No quorum being present in the Senate, that body adjourned till to-morrow.

The House organized with Col. Jameson, Speaker *pro tem*, in the Chair, but adjourned without transacting any business.

Walter S. Lovelace, regular Speaker of the House, having been appointed Judge of the Supreme Court by Governor Fletcher, a vacancy exists, but it is not decided whether the House will elect a new Speaker, or allow Col. Jameson to preside during the session.

Success in Business.

No business can be truly successful which is not founded on a real fitness of things. The article made or sold must have intrinsic merit and supply a public want. Success issuing from the clap-trap of advertising, or the tricks of trade, or mere pretension and display, will be only apparent and, in the end, but deceive the operator and those who trust him. But if an article supplies a public want and fairly meets its reasonable expectations, its success and general adoption is merely a question of time. It may be retarded by adverse influences or sped by prospering gales, but in the end it is sure to win.

HUMPHREY'S HOMEOPATHIC SPECIFICS had their origin in a great public want—medicines for all the common wants of enlightened life—ourselves that father, mother, nurse, or traveler could always have with them, and always rely upon—so simple that mistake could not be made in the selection, so harmless that all might use them with impunity, and so efficient that all might rely upon them with safety. Such they have proved. Thousands of families use them daily for all the ailments and sicknesses of life, and rarely are seriously sick, or have need to call a physician. Thousands, taking some single specific, have cured themselves of chronic diseases which have been the bane of their lives, and upon which they have spent hundreds in vain, and among the millions who use them, none are found to question their purity or efficacy.

HUMPHREYS' SPECIFICS combine all the advantages of the best Homeopathian treatment, without its intricacy or uncertainty. They are prepared by a physician of over twenty years Homeopathic experience; they have been tried in every conceivable manner, and they have been endorsed and recommended in the highest terms by the hundreds of thousands who daily use them.
