

# GREAT SUCCESS.

Home Talent Play Above the Average.

## "IRENE, THE REBEL SPY"

Put on the Boards in Grand Style.

The play of "Irene, the Rebel Spy," given here last Friday night by the local company, under the auspices of the G. A. R. and Sons of Veterans, was a delightful surprise. Every member of the cast was an amateur, and not much of histrionic display was expected, for that reason. The results of six weeks careful and earnest rehearsal, however, produced the most gratifying results, and a play that no company need have been ashamed of. As a matter of fact, it was several hundred per cent ahead of many professional plays that are on the road in the last few years. The largest house of the season greeted the players with unreserved applause from the first rise to the closing song—"Union Forever."

For several of the company this was strictly a first appearance. Mr. Charles Smith as Bob Winchester and Miss Mary Josephine Wright as Trixy here made their debut, dramatically, and both captured their audience. Mr. Eugene Belt, as Clyde Winchester, the "heavy," sustained a part altogether new to him, as he has heretofore shone in comedy. Miss Josephine England had the role of Midge Sheldon, Bob's "girl," and handled her part with characteristic grace.

Orla Wright, as John Winchester, the old man, had a role in which he has always excelled. His make-up was good, and the personal peculiarities of the character were admirably sustained throughout the performance.

The heavier part of the play, the plot itself, was beautifully set off by the comedy roles of Miss Wright as Trixy and Mr. Emerson Poston, as Sir Humphrey Lester Revel, U. T., a reporter. Their scenes were productive of fun, and they undoubtedly made a great hit.

The leading roles, Irene, by Miss James, and Jack Travers, later Captain Huntington, by Mr. Fred Naile, were faultless. Miss James needs no introduction to a Logan audience; the expectations resulting from her previous efforts were more than justified Friday evening. Mr. Naile, in the military character so exceptionally suited to him, completely outdid all his earlier triumphs. He played his part like a star, and that is the most we can say of him.

Mr. Ed. Beck as Maginnis the policeman made a decided hit in the first act, and appeared to advantage later as a private. On the whole the play was produced without a flaw. Great credit is due the entire company, who played almost without instruction, as well as to General Gage and Mr. Beck, who managed the business so carefully. It was an entire and brilliant success.

## Road-Case Dismissed.

The County Commissioner, at this meeting Saturday, dismissed the petition of H. C. Kalklosh, in the road case of Kalklosh vs Wm. Barton. The former owns land in Washington Township through which a public road formerly ran. In 1979 an agreement was made between him and Barton, whereby this road was to be vacated by the Commissioners, on the condition that Barton should retain a private right of way over the road. The plaintiff here petitions the Commissioners to again vacate the road. In answer, Barton set up the agreement as stated, and it was found by the records that such vacation had been made in 1879. On motion of Barton, and his remonstrance, the case was dismissed. Attorneys in the case were Messrs. Sparnon and John Pettit for the plaintiff, and Judge Wright and Ricketts for the defense.

# POWER HOUSE DESTROYED.

## The Federal Gas Company Suffers Loss.

The power house of the Federal Gas company at the pumping station near Sugar Grove was partially destroyed by fire Saturday night.

The fire originated from the extra heat required in keeping up steam. Fireman Neil Murray was very painfully injured while endeavoring to put out the flames. He had gone up a ladder to turn off the valves and by some mishap was thrown to the floor almost breaking his foot and seriously bruising it. His hands were badly burned and one arm suffered badly from the flames. He also received a deep cut in his head.

He was brought to this city for medical attention Sunday and is being cared for at the Commercial House. It will be some time before he will be able to resume his duties.

# BOOZE FACTORIES.

Temperance legislation has had much to do with the stock of the Columbus Brewing Companies being on the decline. Hoster Co stock is quoted at only 7 1/4.

However the phenomenal success of the Nelsonville Brewing Co success that stock up to 125. The company is doubling the size of their plant to meet the demand when the warm weather comes. Their bottle goods is meeting much favor for domestic use.

## Saloons Must Go.

Wooster, O., March 17.—The voters of this city decided by a majority of 118 that the saloons must go. The vote was: Wets, 736; dries, 854.

The dries made surprising gains over the election of two years ago in all of the wards but one. In this ward, the second, where the greater number of college people reside, the majority for the dries was smaller than was expected.

## To Keep the Streets Clear.

Mayor Purcell instructed Chief of Police Wallace this week to notify any business men who were in the habit of placing goods on the pavement and all who has signs on the pavement that they must not occupy the pavement.

Several merchants and photographers were found violating this ordinance. People will not be allowed to post bills on telephone and electric light poles.

# PURER POLITICS.

Not Believed to be True by Leading Paper.

The expressions from some newspapers outside the Eleventh district about the revolution in politics and the methods which the young men employed to defeat Gen. Grosvenor "marks a new era in purer and better politics. Great heavens! Such expressions make people smile in the 11th district. If there was ever ranker methods employed to encompass a nomination than at the Lancaster convention it did not happen within the last 15 years. The people of our county, forced to accept the same central committee for two years and in another county the power wrested from the central committee by a triumvirate thus delivering two counties and 31 votes into the hands of four men two of them pretending to be candidates for congressional nominations with but one purpose dominating their action and that was to beat Grosvenor. We have no word against the brilliant young statesmen from Ross who blushed and apologized for the methods employed to nominate him.

The 11th district of Ohio has become one of the most famous in the U. S. and the man who it so is still in the lower house with all the accumulated experience of 20 years in congress with complimentary resolutions that would fill a volume from the conventions of the past, is not even called by name by those in charge of the Lancaster convention. The triumvirate and associates studiously avoided mention in the cut-and-dried and machine-rushed convention of the name of Grosvenor. Mr. Douglas in his type written speech of acceptance did the name. Was it premeditated? Was it wise? Were we mistaken in the voice from the rank and file of the voters in the Eleventh district saying Grosvenor was their choice? Are they to be counted out and not reckoned with in November?

# AGAINST FALSE HAIR.

So called freak legislation now before the general assembly fades into oblivion by comparison with statutes passed in the days of old, writes an exchange. This is the decision of a "thinker" who dug deep into his library to find precedent for the bill to prevent the use of the "sledge" in the slaughter-house for "knocking cattle"; the administration of anesthetic to persons in agony from an incurable disease or injury and others almost too numerous to mention. Among those he found was this unique law passed by the British parliament during the reign of Charles II, in 1670:

"That all women, of whatever age, rank, profession, or degree, whether virgins, maids or widows, that shall from and after the passage of this act, impose upon or betray into matrimony any of his majesty's male subjects, by scents, paints, cosmetic washes, artificial teeth, false hair, Spanish wool, iron stays, hoops, high-heeled shoes or bolstered hips, shall incur the penalty of the law now in force against witchcraft, sorcery and such like misdemeanors, and that the marriage, upon conviction, shall stand null and void."—Ex.

# ROSEVILLE PAPERS.

George M. Stine, editor and proprietor of the Roseville Independent, has sold his paper to a number of prominent Roseville business men. A new company will be formed and will likely take out articles of incorporation in a few days. The paper will be a Republican organ and the name will be changed to that of the Roseville Republican. The purchasers of the plant are said to be Mayor Ivy Pemberton, C. W. Lowery, L. G. Smith, T. G. Lowery, Chester Cannon and others.

A like company was formed and purchased the Roseville Review, the Democratic paper, last week. Herman G. Williams, the former owner, still retains a great portion of the stock. Both papers will be greatly improved and two of the best weekly papers in southeastern Ohio are promised for Roseville.—Zanesville Signal.

Mr. Ed. Oliver was the guest of her parents, Dr. and Mrs. G. W. Beery, of Union Furnace, over Sunday.

Miss Grief Bright, of New Lexington, who has been visiting Miss Ruth Brooks, was called home last week by the illness of a relative.

Mr. and Mrs. J. Woodworth, of Haydensville, were in Logan Monday night to attend the Twice Five meeting.

A Double-Header.

A four-mule team, belonging to Charles Wright, and driven by Sam Hiles, became frightened by a train just below Three-Mile Bridge, on the Haydensville pike, Saturday, and started a double-header runaway. The lines on the mules broke, and the outfit would have fared badly had it not been stopped by a telephone pole. The team was thrown forward 200 yards, and fell between two trees, but was uninjured. Block damage was very slight, but the broken lines.

# No Danger In Growing Gold Supply

By GEORGE E. ROBERTS, Director of the Mint

THE present stock of gold in the world is \$6,000,000,000, and about \$3,500,000,000 of this may be said to be in sight in the holdings of banks of issue. THIS SUPPLY WILL BE DOUBLED IN THE NEXT TWENTY YEARS.

The idea has been prevalent of late that money is going to be so plentiful that it will be cheaper and interest rates permanently lower, but THAT IMPRESSION IS NOT THE RESULT OF PAST EXPERIENCE. While the first effect of a large supply of money is to reduce interest rates, counteracting influences are set to work. AN ERA OF ENTERPRISE AND CONSTRUCTION IS STARTED.

If money at interest brings a lower rate than money invested in business blocks, houses, or railways or other fixed investments, those INDUSTRIES WILL BE STIMULATED. An era of construction creates a demand for labor and materials and wages, and A GREAT BOOM RESULTS, which is what happened in the world in the fifties following the period resulting from the gold discoveries in California.

An important ENLARGEMENT OF THE DEMAND FOR GOLD is likely to come from the development of new countries that in the past have been small factors in the commercial world. Bank stocks in Japan HAVE QUADRUPLED and the wages have doubled in the last ten years. WAGES IN MEXICO HAVE DOUBLED in five years. There is increasing industrial and political development in the West Indies.

Russia is going through an upheaval, but when it subsides there will be a GREAT INDUSTRIAL AWAKENING and demand for capital. The same is true in southern Europe. Our own country has shown the development possible when there is general employment.

# What "Thou Shalt Do No Murder" Means

By Professor WALTER L. SHELDON of the Ethical Society of St. Louis

LIFE in any form is the same awe inspiring fact it always was. No man has fathomed its mystery, and no man ever will fathom it. Yet greatest of all is THE MYSTERY OF HUMAN LIFE. It is an uplifting experience to trace that spiral movement of development from the worm beneath our feet to the full grown human living soul. But to none of those other creatures inside the earth or on the outside of it do we attribute a self-conscious personality, that SPIRITUAL ELEMENT which characterizes every man and woman. Life is a TRUST committed to our charge. The right to life is connected with the obligations a man has to fulfill. No human being is authorized to prevent another from fulfilling those obligations. This is the spiritual kernel of the precept, "Thou shalt do no murder."

Yet today the right to life is coming to mean a great deal more than it used to imply. The social conscience has enlarged the old meaning by the NEW PRINCIPLE OF CHARITY. Human society today would feel ashamed to let a man perish of hunger. It is even moving FURTHER in its feelings and asking whether it should allow any person to perish by the CRUELTY of others.

THUS IT IS THAT THE ANCIENT PRECEPT, "THOU SHALT DO NO MURDER," RECEIVES TWO NEW INTERPRETATIONS BY THE MODERN WORLD. AND THEY WOULD RUN AS FOLLOWS: WE OUGHT NOT TO LET ANY MAN PERISH BY FAMINE OR BY THE INJUSTICE OF OTHERS. WE OUGHT TO CO-OPERATE IN MUTUAL SERVICE FOR ENLARGING AND ENNOBLING THE SPHERE OF LIFE FOR HUMANITY. BUT IT ALL GOES BACK TO THE TEACHING OF JESUS OF NAZARETH, "THOU SHALT LOVE THY NEIGHBOR AS THYSELF."
