315 N. W. MARKET ST., COLUMBUS, OHIO.

SATURDAY MORNING, NOV. 30, 1861.

A Military Dictatorship.

The first regular session of the XXXVIII Congress commences on Monday next, December 2.

The Government is sinking the nation deeper and deeper in debt, it is employing an immense army of contractors, and spending money with the prodigality of a prince.

The Cotton Manufacturers in England. The anxiety in England relative to the stoppage of labor in the cotton districts is increasing.

The Neutrality of Holland. Notices have been issued to the Dutch West India Company warning all the subjects of His Majesty of Holland to observe a strict neutrality during the existing difficulties in the States of America.

Good joke on Bennett. One of the best practical jokes of the season was recently played off the New York Herald.

A Thrilling Prophecy—How Fearfully and Rapidly it is Being Fulfilled. In last February Alabama seceded! That brave old man, Senator Climens, who had, until then, braved all the storms of wild fanaticism.

A severe criticism upon Lord Lyons' style of Writing. The London Times is criticizing Lord Lyons, the British Minister to Washington, for the logic and wretched grammar which he employed in his late correspondence with Secretary Seward.

The World agrees in a curious circle. It would institute a present military dictatorship to prevent one hereafter.

It is important, on all accounts, that the war shall not be long. The immense patronage with which the Executive would be surrounded.

The Blockade. In his indictment against the Federal Government, Jefferson Davis complains, in his message, that the blockade of the Southern ports is not effective, and has taken the trouble to collect evidence to prove its "utter inefficiency."

THE NATIONAL DEBT. Speaking of the War Debt we are accumulating the New York Tribune says: "The Government is spending at the rate of some two millions per day."

THE NATIONAL DEBT.

Speaking of the War Debt we are accumulating the New York Tribune says: "The Government is spending at the rate of some two millions per day."

And if the war should continue three, five or more years, the debt will roll up to ten hundred millions, twenty hundred millions, and so on.

While the Government is sinking the nation deeper and deeper in debt, it is employing an immense army of contractors, and spending money with the prodigality of a prince.

The Cotton Manufacturers in England. The anxiety in England relative to the stoppage of labor in the cotton districts is increasing.

The Neutrality of Holland. Notices have been issued to the Dutch West India Company warning all the subjects of His Majesty of Holland to observe a strict neutrality during the existing difficulties in the States of America.
