Norris Says Activities Sufficient for Impeachment.

Civil Service Charges Against Postmaster General

DEMOCRATS ARE NOT AVERSE

Simmons Says Party Is Not Opposed to Early Investigation

WASHINGTON, Sept. 24.—Senator Norris (Republican, Nebraska) today introduced a resolution to impeach Postmaster General Burleson on the ground that his activities in connection with the investigation of the postmaster general had gone so far as to justify impeachment.

The resolution was referred to the committee on impeachment.

Senator Simmons (Democratic, Kansas) said he was not opposed to the investigation, adding that they rather favored it.

Senator Norris said it was a "common custom" in cases where the postmaster candidate certified by the commission did not suit Mr. Burleson politically or otherwise for the postmaster general to send out inspectors for the purpose of disqualifying the applicant instead of conducting a full and fair investigation.

The senator also charged that the postmaster general had retained in office a postoffice department employe convicted of political activity in violation of the law.

The Nebraska senator also asserted that an investigation would show that Mr. Burleson was attempting to control the appointment of a chief examiner for the civil service commission so he could put more democrats in office.

IMPROVEMENT IS SEEN

IN RUSSIAN SITUATION

By The Associated Press.

PARIS, Sept. 23.—The attempt by the bolsheviks and Lenin and Trotsky that the Poles and the forces of General Denikin, the anti-bolshevik leader in south Russia, soon may establish communication and coordinate their efforts in helping the bolsheviks in the Ukraine, has revived interest in the Russian situation among the peace conference delegates.

The refusal of the German general von der Goltz to obey the orders of the peace conference that he evacuate the Ukraine provinces of Russia and Germany's declaration that he cannot be responsible for his movements leaving the conference at the moment in a helpless position as there is no disposition to ask the Poles, who already are engaged to help von der Goltz and no other nation has forces available.

Reports received from Kolchak by the Russian committee in Paris give hope that the anti-bolshevik leader in the Trans-Siberian has improved his position on both lines of the Trans-Siberian and that his armies again will be organized and moving westward against the bolsheviks. Reports from the Denikin forces are favorable.

LONG WINS NOMINATION

IN MASSACHUSETTS RACE

BOSTON, Mass., Sept. 24.—Complete returns from the state primary yesterday showed the nomination of Richard H. Long for governor by the democrats by a vote of more than twice that of his three opponents combined. The vote was Long, 53,827; former Gov. Eugene M. Foss, 18,153; former state auditor George F. Monahan, 9,719; former Congressman Frederick R. Bell, 4,425.

Governor Calvin Coolidge, Lt. Gov. Chauncey H. Cox, Secretary of State Albert P. Langley and Auditor Alexander H. Cook were nominated by the republicans without opposition.

SAYS FASHIONS LOWER MODESTY OF WOMEN

Gloomy View of English Conditions Taken by Minister—Girls Are Becoming Vulgar He Asserts.

LONDON, Sept. 24.—A gloomy view of England's womanhood is taken by the Rev. F. H. Moyer, who has been preaching a series of sermons on this subject. In an interview printed in the Daily Express he says:

"I do not fear a road shortage nor labor troubles, but I do fear the consequences of a lowering of women's modesty. The country is in real danger. The present fashions show a total disregard for everything we have previously looked on as noble in womanhood."

"Nor is it only in dress that women show a marked deterioration. They have become unscrupulous in their manners by their association with men workers. The language of the girls in the suburbs and on the omnibuses is becoming awful. They have not only adopted the language and language of men but have surpassed men in vulgarity."

"It seems that the women have developed among themselves a third sex, which is neither masculine nor feminine. It is a compound of the worst elements of both."

HOOVER DISAGREED WITH TRADE BOARD

Food Administrator's Policy of Regulation of Packers Considered Too Lenient by Commission.

REPORTS ARE MADE PUBLIC

Letters of Hoover to President Given Out After Being Withheld for Many Months.

WASHINGTON, Sept. 24.—Disagreement between the federal trade commission and the food administrator concerning the profits allowed by the latter to the "large packers" comes to light today.

The federal trade commission is reported to have written a letter to Hoover before he signed his report on profits in the case of the packers, which was submitted to President Wilson. The letter of response from Hoover attacking the federal trade commission's action was withheld from public view for many months.

The maximum profits for the five largest packers under the food administration regulations are estimated to be from 150 and 175 per cent to three times as great as those earned in the prewar years of 1917, 1918 and 1919.

Wanted Changes

The system of regulation which imposes adequate regulation, so that it safeguarded the public interest, the plan should be changed.

The present aggregation of the findings of the packers into composite reports is inadequate. Each of the reports should be made public. The present plan at least, the regulation apply a single rate to the large packers and domestic substitution and efficiency, without segregation or exemption of any kind.

The normal rate for the five chief packers should be 7 per cent on net weight, with 3 per cent in excess allowance for every 10 per cent in weight slaughtered, and 10 per cent decrease in rate for every 10 per cent decrease in weight slaughtered. The maximum profit allowed may be set above 3 per cent. It is probable that this rule would result in about 8 per cent which is 1 per cent more than their actual prewar earnings.

The maximum allowed the smaller packers should be 3 per cent, increasing on a sliding scale to 11 per cent, but without a decreasing scale.

Hoover's Letter

Replying to the federal trade commission's report, Hoover wrote President Wilson as follows:

"I realize fully that in the discussion of this matter, any sentence uttered can be interpreted as in support of profits to the packing industry, subjects one to the charge of corrupt influence and, on the other hand I recognize, equally, the ease with which the public interest in support of profits to the packing industry will damage the efficiency and courage in the conduct of this enterprise."

"We are in agreement as to the fact that the packers may gain the large profits under the regulations. We are in disagreement as to the method of establishing regulation

These director general of railroads has suggested that four delegates from the railroad brotherhoods be added to the 15 representatives of labor named by Samuel Gompers, Frank Morrison, secretary of the American Federation of Labor, and today that the suggestion has been received by the railway employees department of the federation and was under consideration.

In making his list of appointments Mr. Gompers included only American Federation of Labor officials or officers of international unions affiliated with the federation. The only one of the 15 delegates named by him who represents any of the

2,200,000 organized railway employees at William M. Johnston, president of the International Machinery Union.

The railroad men have pointed out to the railroad administration that their recent demands were reasonable for the action of the president in calling the conference and are in line with the plan for the nationalization of the railroads to be presented to the conference for discussion.
