HOW DOCTORS TREAT COLDS AND THE FLU

First Step in Treatment is a Brisk Purgative With Calomel, the Purified and Refined Calomel Tablets that are Nausealess, Safe and Sure.

Doctors have found by experience that no medicine for colds and influenza can be depended upon for full effectiveness until the liver is made thoroughly active. That is why the first step in the treatment is the new, nausealess calomel tablet called Calotabs, and which are free from the sickening and weakening effects of the old style calomel. Doctors also point out the fact that an active liver may go a long way towards preventing influenza, and is one of the most important factors in enabling the patient to successfully withstand an attack and ward off pneumonia.

Some Calotabs on the tongue at bedtime, with a swallow of water—that's all. No salts, no nausea nor the slightest interference with your eating, pleasure or work. Next morning your cold has vanished, your liver is active, your system is purified, and you are feeling fine, with a hearty appetite for breakfast. Druggists sell Calotabs only in original sealed packages, price thirty-five cents. Your money will be cheerfully refunded if you do not find them delightful.—Adv.

CALOMEL

Calomel is a dangerous drug. It is mercury—quicksilver; and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work.

Take "Dodson's Liver Tone" Instead!

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. If can't salivate, so let them eat anything afterwards.

MEN'S AND YOUNG MEN'S OVERCOATS

Yet we can assure every Curtis Brown customer who needs a new overcoat this season that this Live Store stands ready to supply him with one, and to sell it to him at a less price than the same coat would cost us at today's wholesale prices. We don't know of another store—anywhere—that's selling such good coats as low as we are. We don't base our prices on "replacement value" the way some do, but on the actual cost to us under contracts we placed long before prices started on their latest upward swing. As we bought these coats, so are we selling them, and so shall we continue to sell them, no matter how high wholesale prices go.
