ANTI-STRIKE PLAN BEATEN IN HOUSE

Rail Workers Score a Complete Victory in Two Votes.

METHOD IS VOLUNTARY

Compulsory Arbitration and Middle Ground Proposal Are Both Rejected.

FORM ADJUSTMENT BOARDS

Divide Workers Into 3 Classes; Organization for Each and Appeal Commission

WASHINGTON, Nov. 14.—Railway workers scored a complete victory in the house today through incorporation of their plan for voluntary arbitration of labor disputes in the Each railroad bill.

SUGGESTS PLAN TO STOP TIEUPS

Hughes Would Set Up Machinery for Industrial Justice.

PITTSBURGH, Pa., Nov. 14.—Machinery for industrial justice which would prevent the interruption of service essential to the community, was advocated tonight by Charles E. Hughes...

Offer Three Plans. The three proposals expected to aid the two factions in arranging the new wage agreement were set forth by the labor secretary as follows:

1.—Negotiations through joint wage scale committees representing all districts.

2.—Negotiations through concurrent sessions of committees from the various districts, and

3.—Negotiation first of an agreement in the central competitive field and then of agreements for other fields with that of the central district as a basis.

After hearing Secretary Wilson, the conference adjourned until 10 o'clock tomorrow to permit the

Students Refuse to Let Hindenburg Go Before Quizzers

By The Associated Press. BERLIN, Nov. 14.—Pan-German students today refused to permit Field Marshal von Hindenburg enter the Reichstag building to testify before the subcommittee which is investigating war responsibility...

It was a nationalist demonstration for both von Hindenburg and General Ludendorff, and for a time it assumed serious proportions. The crowd which gathered consisted mostly of students of both sexes, who carried with them an old German flag...

There also were shouts of "brothers, we will not allow such a disgrace!" "for us there is only one kaiser and emperor!" and "we will not endure that our glorious kaiser be besmirched!"

Along the route was a statue of the former emperor, the name on which was hidden under a canvas. The students tore off the canvas with cries of "hooray" for the one-time ruler and the empire.

ALL MUST YIELD COAL MEN TOLD

Secretary Wilson Opens Conference With That Demand

CONFLICT OVER SCOPE

Miners and Operators Not in Agreement on Extent of Wage Negotiations.

TELLS PUBLIC INTEREST

Cabinet Member Says People "Must Pay" in the End; Offers Three Plans.

WASHINGTON, Nov. 14.—Demands of coal miners for a 30-hour week and a 60 per cent increase in wages and an unyielding position by the operators, alike, were declared "impossible" by Secretary Wilson in opening today the conference called to bring peace to the bituminous coal fields of the nation.

Declaring that the Washington wage agreement still is legally in force, Mr. Wilson told the operators and miners that the people of the United States were not "shylocks" and do not want to exact "the technical provisions of a bond when the conditions under which the bond was made have changed."

He added that "if any great change is made in the contract, the people are the ones who will have to pay" and throughout his remarks emphasized the public interest in the coal settlement.

Offer Three Plans. The three proposals expected to aid the two factions in arranging the new wage agreement were set forth by the labor secretary as follows:

1.—Negotiations through joint wage scale committees representing all districts.

2.—Negotiations through concurrent sessions of committees from the various districts, and

3.—Negotiation first of an agreement in the central competitive field and then of agreements for other fields with that of the central district as a basis.

REDS COME HERE THROUGH MEXICO

Underground Line From Soviet Russia Found

By U. S.

Profiteers in Sugar Convicted in Gotham to Get Prison Terms

NEW YORK, Nov. 14.—The first sugar profiteering conviction in this federal district was recorded today when Julius and Charles Roth, commission merchants, were found guilty by a jury of selling at 22 1/2 cents a pound sugar purchased at 9 3/4 cents a pound. Federal Judge Knox indicated that he would send the men to prison.

"If the law is to have any salutary effect at all," Judge Knox said, "that can only be accomplished by the imprisonment of persons convicted of profiteering in the necessities of life."

It became known that the immigration service and the department of justice are both concerned at the influx of Russian radicals and other agents of red tendencies over the Mexican border. Furthermore, government agents have traced much red propaganda over the Mexican line.

Letter Is Seized. A letter written October 23 by Ramon P. de Norgi, Mexican consul general in New York, to Elvira Borquez, a Mexican senator endorsing the principle of "nationalization," has come into the hands of the government, and already has been called to the attention of the state department by at least two senators as showing de Norgi's association with "radical activities" in the United States.

In the opinion of officials here the publication of de Norgi's letter may lead to an embarrassing situation. It is known that the senators who called the attention of Secretary Lansing to it recommended cancellation of the consul general's exequatur.

Government agents also have gathered evidence showing distribution of red propaganda in the United States through Mexican sources and this is expected to be shown publicly soon.

Secretary Lansing explained today that a diplomatic inquiry had been held in Brussels remedying the placing of numerous orders by Mexico in Belgium. The government adopted that course rather than that of a protest and is now satisfied that no shipments are to be made. The exact nature of the orders placed by Mexico in Spain, Secretary Lansing refused to discuss although it is known that the government has full knowledge of them and it is expected that a satisfactory means will be found to prevent orders.

Government investigators have reported that radicals seemed to have first attracted to Mexico by certain

RADICALS MASS FORCE

Gathering Is Reported at Mining Town; All Prepare for Battle

TACOMA, Wash., Nov. 14.—Reports were received by the authorities here tonight that a concentration of I. W. W. was being attempted at Cumberland, a mining town in Blaine county, that point being chosen for its isolation and the fact that the miners at present are not working.

8 MARKED FOR DEATH

Threats Received; National Guardsmen Mobilized; Seize All Radicals.

TACOMA, Wash., Nov. 14.—Reports were received by the authorities here tonight that a concentration of I. W. W. was being attempted at Cumberland, a mining town in Blaine county, that point being chosen for its isolation and the fact that the miners at present are not working.

A telephone message from Cumberland stated the town was covered with handbills and posters announcing an I. W. W. mass meeting for tomorrow night and that a large number of strangers have been coming into town the last 12 hours. From how large a territory the meeting plans to draw could not be determined here tonight.

LOS ANGELES, Cal., Nov. 14.—Eight men were arrested and a quantity of alleged "red" literature was seized late today in two raids on radical headquarters. Police officers said they were going to kill the chief of detectives. When he located Picketing officers had disarmed McCready.

And again Picketing handed his gun to a fellow officer and whipped McCready. Neither of the men was arrested, when they promised they would return to Sand Springs and "not come back."

Police officers said McCready and his comrade had been drinking.

WETS MEET WITH REVERSES

Three Federal Judges in New York Refuse Injunctions Asked For.

NEW YORK, Nov. 14.—Federal Judge Learned Hand refused today to grant injunctions restraining enforcement of the Volstead prohibition act.

Federal Judge John C. Knox in decisions handed down this afternoon in similar cases also held that the prohibition laws are constitutional.

Jacob Ruppert & Co., brewers, for whom Elihu Root was counsel, sought an injunction so that sale of 2.75 per cent beer might be resumed. Dr. F. H. Hugg & Co. in another proceeding sought permission to remove distilled spirits from bonds.

Federal Judge John G. Rose of Baltimore, late today, dismissed an application of the Maryland Distillers company for an injunction which would have released for sale large quantities of whisky now in bond. Judge Rose was the third federal judge to sustain the prohibition law here today in suits brought before them.

REFUSE TO ALLOW DAMAGES

Jury in Case of Tar and Feathers Victim Returns for Defendants.

MANKATO, Minn., Nov. 14.—After deliberating an hour and a half the jury in the case of John McInty, who sued 22 residents of Luverne, Minn., for \$100,000 damages, following an alleged kidnapping, returned a verdict for the defendants in the federal court here tonight.

McInty alleged that on June 20, last, he was taken from his home at Luverne and escorted out of town by citizens who objected to his stand on the war. He returned, and on August 19, last, it was alleged, was again taken out of town and was tarred and feathered.

The World Must Increase Rates, Both Advertising and Subscription Immediately

Throughout its entire existence The Tulsa World has always served this community to the best of its ability. During its early experience, at least, it was a better newspaper than the field actually warranted. But the faith which The World has always had in this city and in itself has from time to time led it to make improvements and enlarge its plant in anticipation of the actual necessities. During the past two years The World has extended itself in such a marked manner as to attract attention throughout the entire country. It installed a 48-page sextuple press, the equal of which, up to that time, had never been installed in a city the size of Tulsa, together with a complement of modern machinery in keeping with its press facilities. Improvements were made in every direction. These had scarcely been under way when the United States entered the European war, spreading its depressing influence as it did to all lines of business and especially to the newspaper business. But The World unflinchingly held its course straight into the head-on wind, in the very teeth of rapidly increasing cost of operation, maintaining a high degree of service in day and out. All of this is well known to this community, to the public at large, but what the public has only glimpsed, as it were, was the resultant increase in the cost of producing this newspaper. Its payroll, for example, will be just exactly double for the year 1919 what it was in 1917, and every other item of expense has gone up in proportion. The cost of print paper has more than doubled and the amount consumed has increased nearly 100 per cent. Had not The World been thoroughly established and its business management been of the soundest, it could never have weathered the storms and maintained its progressive standards.

During the recent weeks the shortage of print paper has been the greatest difficulty it has ever had to meet, but by paying a marked increased price during next year it hopes to be able to secure paper in accordance with its needs. Within a short time we hope to be able to maintain a fair proportion of reading matter, but in order to do so will be compelled to put into immediate effect drastic regulations as to advertising, with increases in both subscription and advertising rates. Therefore, effective today, a new advertising rate card goes into effect and beginning December 1 the subscription rates will also be advanced from 15 cents to 18 cents per week in the city of Tulsa and suburbs. It is either do this now or cut down the service to the community or suspend and go out of business. The World, under no conditions, will consider doing either of the latter alternatives. If it can not make the character and kind of a newspaper which it believes this city is entitled to its management has no desire to make any other kind.

This is the first notice of this character The World has ever published and it trusts it will be the last. The World knows this community too well not to know that it will stand by and support the best there is in everything whether it is newspapers or whatever line of business it may be, and we beg the indulgence of the public for thus briefly calling attention to conditions affecting this newspaper, conditions and not theories, conditions which it must face and which it proposes to meet and face courageously. No newspaper deserves to be published that can not meet the cost of production out of its own revenues and if The World can not do that it has no desire to live and it has no intention of shaking off this mortal coil and, in the vernacular of the streets, "kicking the bucket" either now, in the immediate future or at any time throughout the years to come. Newspapers everywhere are up against the same conditions prevailing in Tulsa, practically 100 per cent increase in the cost of operation, including printers' wages, white paper and everything else connected with production. The prime object of newspapers is service, and the question of advertising rates, after all, is only a comparative detail.
