Crude Oil Products

Refiners report following prices:

56-58 Gasoline	24½c
62-63 Gasoline	30c
49-52 Naptha	12c
Kerosene	10c
Gas Oil	7½c
Fuel Oil	1.50

Producers & Refiners Have Big Week

The Producers & Refiners were going strong last week, an in addition to other wells which have been reported, No. 4 Pink Hawkins in 11-14-11 was completed for a 600-barrel producer and is being drilled deeper into the sand. No. 5 in section 7 on this lease is either a rig or rigging up. Same company No. 7 Tobe Jefferson in 36-15-11 was completed for a 100-barrel well and No. 6 is good for 150. No. 8 is making 400 barrels and is being drilled deeper into the pay. The same firm No. 2 Getz (Coleman) in 19-15-11 is spudding and No. 1 is still making 600 barrels

Old Timer Is Decd

T. H. Steele, one of the most beloved of the old timers, is dead and is being sincerely mourned and especially by those who during the many years of his long and useful career as an oil producer, have known him well and have known him to love him for his many sterling qualities of heart and mind.

Mr. Steele was one of the pioneers and helped develop the great old fields in the vicinity of Findlay, Ohio. Later on he moved to Robinson, Ill., and was associated with F. B. Howland of Titusville, Pa., in the development of some splendid properties operating as the Kewanee Oil & Gas Co.

Six years ago the firm decided to get into the mid-continent and Mr. Steele moved to Tulsa with his family and his success here has been rapid and at the same time along most conservative lines. He was, at the time of his death, 74 years of age, and leaves, besides a wife, two sons J. B. Steele of 1209 South Newport avenue and T. B. Steele of Robinson, Ill., Mrs. H. Clyde Harmes of Santa Paula, Cal., is a daughter and Mrs. Albert Stevens who resides at Ocala, Fla., is a sister. One brother, L. A. Steele, of Oakland Cal. The funeral services will be held from the family residence 1601 South Boulder at 5:30 this afternoon. A large attendance of old time oil men is expected.

OIL AND GAS

Leases, Supplies, Production, Etc.

Oil Production for Sale by Receiver.

The Weible lease north half section 36, township 21n, range 8e, Pawnee county, Okla., in the Cleveland pool, 60 producing oil wells average depth 2,350 feet; lease well equipped. Also 153-acre lease in section 23, township 17n, range 10e, Creek county, Okla., known as the Davis lease, on which there is one producing well; depth 2,200 feet. Also 160-acre lease in the northwest ¼ section 24, township 17n, range 10e, Creek county, Okla., known as the Myers lease, with one producing well, 1,850 feet deep. All of these leases will be sold separately at public auction to the highest bidder, on Wednesday, June 30, 1920, at 12 o'clock noon, at the south front door of the county courthouse in Tulsa, Okla. Charles F. Noble, receiver for the Arkansas River Red Oil & Gas Co., 1042 Kennedy Bldg.

FOR SALE—25 HP F & T. boiler; 25 HP Oil Well Supply Engine; 250 bbl Iron Tank; 250 bbl Wood Tank; standard rig located in 16-16. Sell in whole or in part. All in good condition. Call Osage 4573-J or write R. Bateman, Guthrie, Oklahoma.—Advt.

Wanted at Once

A practical oil well driller to furnish all equipment and casing and drill for share of the production. Very valuable 320-acre lease located in eastern Butler county, Kansas, near many producing wells. If interested apply immediately. Address P. O. Box 554, Fort Collins, Colo.—Advt.

For sale, 50-horsepower Besse-compressor and tank, friction clutch, mer gas engine, A-1 condition; air Kw. ignition; immediate delivery. Call Osage 9634.—Advt.

Wanted, assistance in finishing well to deep sand, Beggs field; will give half interest to responsible parties. Address 946-D, care World. —Advt.

For sale or drilling contract; will guarantee well; 40-acre lease, shallow production; sand at 580 feet; west of Claremore, offsets five producing wells. Address Box 958-D, care World.—Advt.

Responsible people want drilling proposition on semi-proven acreage, willing to pay bonus if acreage justifies it. Give all details in first letter. Address P. O. Box 1938, Tulsa, Okla.

New Novo water pump, 6-horsepower; used only on one well; 12,000 feet 2-inch line pipe; second-hand, but good. Phone Cedar 239.—Advt.

New Novo water pump, 6-horsepower; only used on one well; 12,000 feet 2-inch line pipe, second-hand, but good. Phone Cedar 239. —Advt.

New Novo water pumps, 6-horsepower; ony used on one well; 12,000 feet 2-inch line pipe, second-hand, but good. Phone Cedar 239. —Advt.

For Sale—160-acre lease, east of Beggs field in 22-15-13 at $15 per acre. Box 934-D, care of World.—Advt.

First Lick Struck on Big Tanker

The Harlan News, published in the interests of the Bethlehem Shipbuilding Corporation at Wilmington, Delaware, has the following to say of Albert E. Watts, jr., five-year-old son of Albert E. Watts, vice president of the Sinclair Oil company, when he drove hte first rivets to start construction on the first two 10,600-ton oil carriers for the Sinclair company.

"We've heard a lot of fellows getting their stride early in life but here's a youngster who has made a double start at the age of five. Perhaps you've all heard about it by this time, or you've already seen pictures depicting the incident in this issue.

"Young Albert E. Watts, jr., made his double beginning when he held down the trigger on the gun which drove up the two first rivets on Hull 3474, to be known as the "Albert E. Watts," in honor of his father, vice president of the Sinclair Consolidated Oil company. It was his initiation into the mysteries of shipbuilding—a riveter at five and the start of one of the two 10,600-ton tanker which Harlan is building for the Sinclair company. The big vessle will carry these two rivets in its keel to the ports of the world long after most of us have passed beyond the Great Divide.

"Of course, 'young Al' as we will take the liberty to addressing him could not have driven up the rivets by himself. "Red" Welch was there to do the actual driving and he had an able corps of assistants with Jack Connelly supervising the job; Johnny Reinholz, holder-on and Bill Duffy, heater boy. He couldn't have picked a better crew.

"Young Al," who came all the way from New York to do his riveting stunt was accompanied by his aunt, Miss Mabel Joseph, Miss B. Wilansky, secretary to Mr. Watts, Walter M. Candee, an official of the Sinclair company; J. G. Johnson marine superintendent of the Sinclair Company and Mr. and Mrs. H. A. Stendrup. Mr. Stendrup is owner's representative of the Sinclair company and he attended to the receiving of the guests with the assistance of General Manager E. B. Germain.

A special hammer was provided for the occasion by Plant Engineer Jim Marshman, and the die used, suitably inscribed, was presented to "Young Al," as a memo of the event."

With the Chicago Bunch

During the convention in Chicago it happened that the subject of newspapers came up and comparisons were made between The World and the leading Chicago journals and surprising as it may seem, some of the Chicago people who are familiar with all of them made the statement that if The World were to move to Chicago, it would instantly gain first place in public estimation, on account of its reliability, and general all-round news service. But while this is no doubt true, The World will stay right here.

Charles Gustafson was at West Baden during convention week, but returned from a 10 days' trip to that popular health resort, and was looking unusually fine. He says that the exercise a patient is forced to undergo is the main reason for his improvement.

Bob Sharpe and R. T. Musser were in the city during the convention, doing the honors for the General Tank Car company.

George Bole, who attended the convention, called attention to the fact that George E. Black, prominent democratic politician has been strong for Harding for a long time. It shows Mr. Black is a good judge of presidential timber, as well as having a gift for sizing up the situation.

Walker Ellis Is Dead

Walker Ellis, known far and wide for his happy disposition and wonderful strength, and who would be the last man in the crowd as marked for death, passed away at the Sand Springs hospital Sunday night at 7 o'clock after a brave fight against the ravages of what has become an almost obsolte trouble, gangren, which started from a small injury to his foot, and for some reason had taken violent hold on this strong man, and now his friends are all in mourning.

It is with sad hearts that his friends are offering sympathy to the bereaved widow and can find but little comfort in the world anywhere that such a death should occur, and cause every man to ponder deeply when he thinks that so little and trivial accident might carry a man so robust in health and of such abounding spirits.

Mr. Ellis was born in Culpepper Courthouse, Va., November 6, 1866, and was married to Miss Ada Way of San Antonio on July 10, 1910. He was a veteran of the Spanish-American war; saw duty in the Philippines and was for a number of years connected with the fourth regiment of the national guard in Texas. He had resided at various times in Houston, Dallas and Shreveport, and has had a wide experience in different lines of endeavor.

Perhaps Walter Ellis will be remembered longest for his wonderful gift as an entertainer and many a pleasant evening will be be credited with in the memory of his friends in Tulsa. He had a wonderful memory of men and events and was gifted with a great power of expression—never failing to hold the center of interest where men congregate, and today there are many who are eager to relate stories of his great hospitality.

To Mrs. Ellis is extended the heartfelt sympathy of the entire fraternity. She has the burden to bear and in her great grief she is being sustained and comforted by old friends from her childhood home in San Antonio. That much comfort at least has been vouchsafed to her.

The funeral will be held from the Stanley-McCune undertaking establishment this afternon at 2 p. m.

Marland and Kay County Consolidate

Special to The World.

PONCA CITY, Okla., Jun 20.—At a meeting of directors of the Marland Refining and Kay County Gas companies here Saturday, a committee representing stockholders of both companies was appointed in March, to prepare plan for consolidation, reported unanimously favoring consolidation and recommended that Dr. I. C. White of Morgantown, W. Va., be asked to act as appraiser of properties of both companies, which appraisal would be in determining a basis for consolidation. The committee report was accepted by the boards of both companies and Doctor White has consented to serve. directors of the Marland Refining company Saturday declared regular quarterly cash dividends of 2½ per cent, payable July 1 to stockholders of record June 30. Directors of the Kay County Gas company declared the companies initial cash dividend of 5 per cent payable July 15 to stockholdrs of record June 30.

Late News From Okmulgee

Special to The World.

OKMULGEE, Okla., June 21.—New gushers drilled into the pay last week and increased flow from wells originaly reported a week ago bring the total new production in the Okmulgee field above 8,000 barrels for the week ending Friday night Completions were not numerous but were important. Two big wells in the West Okmulgee pool at Phillipsville, started off with a combined production of 5,000 barrels daily and a well in 11-14-11 increased its flow from 1,000 to 2,400 barrels per day. New wells were completed in deep sand in 19-11-11 and in 28-13-12 during the week.

Completions include the following:

Waite Phillips No. 4 well on Tucker allotment, northwest northeast southeast 22-14-11, 2,800 barrels, 28 feet in sand found at 2,764 feet.

Waite Phillips No. 1 Josephine Thompson, northeast southeast southwest 22-14-11, 2,200 barrels in sand from 2,781 to 2,815 feet.

Texas Company's, King farm well in southeast corner of northwest 11-14-11 previously reported as good for 1,000 barels, was deepened and squibbed and made better than 2,400 barrels on Wednesday. The wel is down to a total depth of 2,811 feet.

Holliday Oil company has a big gas well in the 1,900-foot sand in its twin well on 11 acre Birney land in the southeast corner northwest northwest 11-14-11 and is trying to mud off the gas and drill deeper. The Holiday's No. 1 Birney, was a 15,000,000 foot gas well and is now supplying gas to 29 boilers in the northwestern fields.

Waite Phillips and the Clifton Drilling company, No. 2 Thimpson, northeast corner southwest 22-14-11, reported last week a 2,000-barrel well, made 3,570 barels in 24 hours last Monday.

Gypsy Oil company, No. 1 C. E. Cover, southwest northwest northwest 5-13-12, 30 barrels daily after shot in sand from 2,114 to 2,126 feet.

Kingwood Oil company and W. C. Newman have completed their No. 1 Barnett in northeast corner northeast 19-11-11 and have a well good for about 130 barrels daily in 23 feet of sand from 2,826 to 2,849 feet. This well is being swabbed and may be shot.

W. C. Newman, No. 5 Harjo, center southeast northeast 21-12-12, showing for 300 barrels in 2,100-foot sand, not yet fully drilled in.

Lapey Neal, Drew Beams and Copeland & Wilder have completed their No. Michens in 24-13-13, where they found 18 feet of sand topped at 1,812 feet. The well is good for 150 barrels daily on the pump. L. Neal and associates are moving in tools in the northeast southwest northeast 28-13-13 and L. Neal and the Okmulgee P. & R. Co. are rigging up in the north half of the southwest of 27-13-13 for a twin well to the deep sand.

Barbara Oil company's Nos. 5 and 6 Pinuns northwest of 18-15-11 are both completed in the Dutcher sand and each is reported good for 200 barrels.

McIlowell and others No. 7 Fat, southeast 34-13-14, 35 barrels in 1,200-foot sand.

Barbara Oil company, No. 1 Barnett, southeast northeast northeast 2-16-12, on top of sand with gas showing at 2,610 feet.

John H. Rebold No. 1 Fisher, northwest southwest southeast 24-12-10, found a trace of oil and 42 feet of good looking sand at 3,488 feet and is now drilling in, had lime at 3,660 feet.

E. J. Drilling company No. 2 Carruth, middle north line northeast southeast 21-13-13, 20 barrels in sand from 1,714 to 1,726 feet.

The Gladys Belle Oil company and the Lyons Petroleum company are due with two wells in the big pool at Phillipsville. Their No. 2 Thompson, is drilling past the tools and their No. 4 is drilling at 2,600 feet. No. 3 Thompson, is drilling at 2,000 feet.

Kingwood Newman Well Is Big

The Kingwood Oil company and Newman No. 2 in the southeast of the southeast of 16-11-11 is making 400 barrels at only a few feet in the sand, the top of which was found at 2,500 feet.

4,000 Barrels for the Gypsy

The Gypsy Oil company No. 64 in the center of the northeast of the northeast of 1-21-7 is making 4,000 barrels at last report. No. 20 on the same lease in the center of the east line of the northwest of the northwest of the same section is good for 1,500 barrels.

At Beggs.

The Skelly Oil company and Frank Billingslea are due in the Wilcox sand and will drill in the first of the week in their No. 1 Leslie Richards, located in the southeast corner of the southwest of 33-14-12. Total depth is now 2,785 feet.

J. Alex Dingwall is drilling at 1,785 feet on his Doney Thompson No. 1, located in the southeast of the northwest of the southwest of 16-15-12, and will get the sand this week.

The Skelly Oil company and Frank Billingslea are running the 6-inch casing on top of the Dutcher sand, and are expecting to drill in about Monday on their Martha Sevier No. 1 in the northwest corner of the southwest of 4-15-11.

The Producers & Refiners corporation skidded the rig and is now drilling at 700 feet on Joe Johnson No. 2, located in the northeast quarter of 20-15-12.

Robinson & Letcher have abandoned locations and are now drilling at 700 feet on Joe Johnson No. 2, located in the northeast quarter of 20-15-12.

Robinson & Letcher have abandoned locations and are moving rig away from their test at the center of the north line of the northwest of the northwest of 22-15-12.

Texas.

Templeman Oil corporation J. H. Lee No. 1, 1,000 feet southeast of the Vestal well of Consolidated Oil company, in Callahan county, Texas, is drilling at 1,300 feet.

With the Oil Men

M. J. Stetson of Titusville Pa. who is operating in the Beggs and Okmulgee fields visited Tulsa yesterday, and states that he has news from his home town that they are making great preparations for the big oil convention to be held in Tulsa beginning August 27, which is in commemoration of the Drake Memorial day. Mr. Stetson says there will be a large delegation from New York and Pennsylvania of all the oldest and most prominent oil operators of by-gone days. He suggests that a committee should be formed here in Tulsa to look after the visitors.

D. K. Jeffreys a prominent lumberman of Chicago paid Tulsa a few hours visit Saturday afternoon, on a return trip from his chain of mills in Louisiana, Mississippi and Texas. Mr. Jeffreys was much enthused over Tulsa as a business center—in fact so much so, that he expects to return shortly to look into the oil situation.

W. G. Selby of the Selby Oil & Gas Co. left last night for Marietta, Ohio, where he will join Mrs. Selby and will go over the plans with her for the planting of a new property recently acquired on the peninsula at Sarkasota, Fla.

L. B. Jackson, who is one of the busiest men in the Kellyville district and is now drilling eight wells in the northern part of 15-10, was in the city yesterday.

The Biggest Man on Wall Street

Who is he? What is he buying? How does he manage his investments? How can you make money on stocks by following his plan?

All this is told in our booklet, "The Biggest Man on Wall Street." It is a fascinating story of fundamental conditions in the stock market.

Every investor needs to read it. It will awaken you to new conditions. It will show you a better way to invest. We will send it to you gladly, without charge. Dept. I.
