STOCKS EASE OFF ON HIGHER MONEY

Bull Pools Held Sway, but Prices Decline in Final Hour.

SALES ARE 900,000

Oils, Motors and Specialties Move With Rails on Upward Trend.

NEW YORK, July 9.—Bull pools held undisputed sway during the greater part of today's active stock market session, their more confident maneuvers in selected issues being attended by the largest and most comprehensive dealings of the month.

Many extensive gains were registered in the early and intermediate periods but these suffered material reduction in the final hour when only gains rose gradually from 7 per cent, the opening rate, to 10 per cent.

Trade authorities in their weekly reviews dealt in detail upon the downward trend of staple commodities prices. Approximately 100 articles of common use were lower by slightly more than 2 per cent from the peak of last February. In addition to oils, motors and their specialties, independent steels, tinplate and tin cans, the day's trading again embraced rails of high and low degree at extreme gains of 1 to 4 1/2 points. Sales amounted to 900,000 shares.

WALL STREET GOSSIP

Success of Armour Bond Issue of \$60,000,000 Indicates Ready Money for New Investment.

NEW YORK, Liberty bonds closed: 1st 4 1/2, 2nd 4 1/2, 3rd 4 1/2, 4th 4 1/2, 5th 4 1/2, 6th 4 1/2, 7th 4 1/2, 8th 4 1/2, 9th 4 1/2, 10th 4 1/2.

NEW YORK, July 9.—The offering of Armour & Co.'s issue of \$60,000,000, 10-year 7 per cent convertible notes were all sold at 100 and the books closed. The first issue was largely over-subscribed at 134.84 to yield 7 1/2 per cent.

The strength in rails is due to the belief that the interstate commerce commission will render a decision on rates soon. The opinion is advanced in some quarters that the decision will be forthcoming within the next few days.

Houston Oil, which was admitted to listing on the stock exchange ten days ago, sold up for a total of 25 points. Friday, the highest point in its addition to the market, was 25 1/2 points above the high reached on the curb last year.

Harris, Winthrop & Co.—The stock market has had a good advance and we look for some profit taking for the week-end. We are not bearish, but believe if stocks have a slight setback it would be unusually early for that section.

Cash prices were unchanged early and one cent higher but failed to maintain best prices. Premiums were practically unchanged as compared with July.

Reading is being strongly bought. Southern Railway is reported in line for higher prices. Pool channels are building equipments, sugars, oils, shipping and copper specialties.

President Seger of the U. S. Rubber company, after an inspection trip of New England, Canada and central states, says that he found conditions in the rubber industry over-extended, and will endeavor to speed up production.

The chairman of 16 railroad unions are to meet in Chicago July 25 to consider labor board award, which is expected about July 20.

Stock Options. Clark, Childs & Co.—Purchases of steel, equipments, dividend paying oil stocks and well financed rails looks like a pretty safe policy.

Harris, Winthrop & Co.—We look for a further advance in prices and favorable bases on any reaction. Josephthal & Co.—We believe that present accumulations while prices are still attractively low, are highly desirable.

Traders who have been buying Mexican oil stocks lately have been disappointed. Results of new drilling operations will be given out before the end of July.

Final June figures on shipments of Island Oil & Transportation corporation show a 28.8 per cent increase during the month. Thus far an July five tank steamers have been loaded with a total of 398,311 barrels.

Wall Street Journal.—Sinclair's annual earnings are running at an annual rate much nearer \$100,000,000 before taxes and depreciation than \$30,000,000 which was recently estimated. The earnings, while large, do not reflect to any extent expenditures of something like \$40,000,000 in the last year out of earnings and the sale of common stock, nor approximately \$47,000,000 realized from the sale of 7 1/2 per cent notes. When present refineries are brought up to pipe line capacity, Sinclair's oil conditions favorable, should have an earning power of \$50,000,000 annually. Estimated earnings of \$36,000,000 this year would compare with \$21,890,898 in 1919; \$19,940,717 in 1918 and \$15,134,987 in 1917.

New York—The Imperial Oil corporation, affiliated with Middle States Oil and controlled by the same interest, has been granted a charter under the laws of Delaware, with authorized capital stock of \$10,000,000 common and \$10,000,000 preferred stock, both of par value \$10. The preferred is cumulative at the rate of 8 per cent beginning next September. The Imperial now has under ownership or contract approximately 8,700 acres in Oklahoma, Texas, Kentucky and Indiana, with aggregate daily production of 4,600 barrels.

New York—The Peters Oil company, a subsidiary of Middle States Oil, has completed 14 wells on its lease in the Osage, with average production of 110 barrels at a depth of 560 feet.

BEARS SEEM TO RULE CORN PIT

Early Break Followed by Rally of 3 Cents, but Weakened at Close.

SITUATION IS WEAK

Government Report About as Expected—Argentine is Shipping Much Corn.

(By Evans & Co., Hotel Tulsa)

CHICAGO, July 9.—Corn was unsettled, breaking early on scattered liquidations and some pressure from bears, only to rally around 3 cents after the early drop of 2 1/2 cents, shortly being forced buyers on the way up. Best prices were not maintained, however, as there was considerable buying up toward the last as the government report was due at 2:15 p. m. Chicago daylight time.

Chicago.—The Modern Miller says: "The report from the mouth of the west bear out earlier estimates of larger yields and excellent quality of water wheat. The weather is favorable for threshing."

An Argentine cable says: "Weather is intensely cool, rains are predicted by Sunday and this will be very welcome for new crop preparations have been considerably retarded in sections by the absence of sufficient moisture."

Minneapolis. Average spring wheat unchanged, but in good demand, as ready to cash which sold 50 higher, mixed durum slow and weaker; winter wheat unchanged.

Chicago.—Clement, Curtis & Co., says: "We have completed a special inquiry over the northwest as to the condition of spring wheat. The reports are uniformly favorable. The growth is excellent, although there is slight damage from dry weather in scattered spots in the west, and some damage from grasshoppers. Most of our correspondents believe there is sufficient moisture to carry the crop to maturity. No black rust developments discovered, and the general opinion is that conditions are against spread. The period of its appearance is from July 10 to July 25, hence the next two weeks will be the critical period. If present conditions are maintained any delay in the start of harvest will make \$50,000,000 bushels."

New York Wire: Argentine offered 800,000 bushels corn in bags at \$1.18 in New York. The Corn Products company has a contract to buy 400,000 bushels of Argentine corn for four months' supply contracted for. The trade throughout the east is reported to be in a state of anxiety to close to December before they will need more. London cables the corn market is demoralized.

GOSSIP OF GRAIN PIT

Government Crop Report Was About As Expected—London Cables Corn Market is Demoralized.

CHICAGO, July 9.—The government crop report was about as expected. Corn condition, 84.6 per cent, acreage, estimate 103,448,000, estimated yield, 2,779,000,000 bushels.

Spring wheat, condition 88 per cent, yield indicated 291,000,000 bushels. Winter wheat, condition 78.7 per cent, indicated yield, 518,000,000 bushels. All wheat, condition 82.3 per cent, indicated production of all grades wheat this year, 809,000,000 bushels.

Chicago.—The Modern Miller says: "The report from the mouth of the west bear out earlier estimates of larger yields and excellent quality of water wheat. The weather is favorable for threshing."

An Argentine cable says: "Weather is intensely cool, rains are predicted by Sunday and this will be very welcome for new crop preparations have been considerably retarded in sections by the absence of sufficient moisture."

COTTON LOSES ON DOWN TURN

Trend Continues Bearish, Due to Depressing Influences.

(By Evans & Co., Hotel Tulsa)

NEW ORLEANS, July 9.—The trend of values continued downward today under the depressing influence of generally favorable weather in the interior, improving crop accounts, indicating a larger yield than promised two weeks ago, and because of unfavorable textile trade advices from New England and Manchester.

Chicago.—The Modern Miller says: "The report from the mouth of the west bear out earlier estimates of larger yields and excellent quality of water wheat. The weather is favorable for threshing."

An Argentine cable says: "Weather is intensely cool, rains are predicted by Sunday and this will be very welcome for new crop preparations have been considerably retarded in sections by the absence of sufficient moisture."

Minneapolis. Average spring wheat unchanged, but in good demand, as ready to cash which sold 50 higher, mixed durum slow and weaker; winter wheat unchanged.

Chicago.—Clement, Curtis & Co., says: "We have completed a special inquiry over the northwest as to the condition of spring wheat. The reports are uniformly favorable. The growth is excellent, although there is slight damage from dry weather in scattered spots in the west, and some damage from grasshoppers. Most of our correspondents believe there is sufficient moisture to carry the crop to maturity. No black rust developments discovered, and the general opinion is that conditions are against spread. The period of its appearance is from July 10 to July 25, hence the next two weeks will be the critical period. If present conditions are maintained any delay in the start of harvest will make \$50,000,000 bushels."

New York Wire: Argentine offered 800,000 bushels corn in bags at \$1.18 in New York. The Corn Products company has a contract to buy 400,000 bushels of Argentine corn for four months' supply contracted for. The trade throughout the east is reported to be in a state of anxiety to close to December before they will need more. London cables the corn market is demoralized.
