

# SOCIETY WOMAN'S WORLD AND WORK

Death robs the living, not the dead—they sweetly sleep whose tasks are done.

But we are weaker than before who still must live and labor on.

For when come care and grief to us, and heavy burdens bring us woe.

We miss the smiling, helpful friends on whom we leaned long years ago.

We miss the happy, tender ways of those who brought us mirth and cheer.

We never gather round the hearth but what we wish our friends were near.

For peace is born of simple things—a kindly word, a good-night kiss.

The prattle of a babe, and love—these are the vanished joys we miss.

**Who Said D. Cupid Had Cold Feet?**  
BY EDITH E. MORIARTY.

Tucked away among stories of terrific murders, traffic accidents, political conventions, high cost of food and clothing, rent profiteers and scandalous divorces was found the most promising bit of news the papers have carried in some time. It was to the effect that the month of June set a new record in marriage licenses in New York city and other

cities throughout the country. In New York alone there were 5,002 couples married, which is an increase of 1,000 over 1919.

Five thousand couples decided to take the step despite the startling and terrifying predictions of pessimistic prophets. High rents, sugar prices, labor unrest, coming elections and the overwhelming number of matrimonial failures seem to have no effect whatever upon one Mr. Dan Cupid. It makes one feel that the bottom has not dropped out of Tulsa and it makes one almost sure that the world is just about the same old place after all.

Some folks would have had us believe that love was a weak little thing which might be frightened off by the housing condition and the high cost of living. They would

have had us believe that the war and women's new economic independence were two great causes which would unite to bring about fewer marriages, fewer American homes and fewer future citizens. Then when one is almost convinced of these things, when one sees friends postponing marriage indefinitely and breaking engagements and getting divorced, and when one reads all the other depressing news about birth rates, death rates, to say nothing of railroad rates, what a great and glorious feeling one gets upon reading that June has set a new record in marriages, 5,002 in New York city alone.

**1900 Cataract Electric Washer**

Takes the drudgery out of wash day

**WHY YOU SHOULD OWN THIS ELECTRIC WASHER**

The magic figure 8 movement of the 1900 Cataract Electric is an exclusive feature. The soapy cleansing water is forced through the clothes in a figure 8 movement—and four times as often as in the ordinary washer.

You don't find any parts in the tub of the 1900 Washer to rub against your clothes—and there are no heavy cylinders to lift out and clean after the wash is finished.

The wringer works electrically, too, and swings from washer to rinse water, to blue water, to clothes basket without moving washer an inch.

The 1900 Cataract Washer saves time, money and clothes—costs less than 2c an hour to operate.

**HOOOSIER**  
SAVES MILES OF STEPS

**Are You Happy In Your Kitchen?**

**H**OW many American women are really happy in their kitchens? To how many does the housewife's work-shop hold anything but dreary drudgery?

You can do all the preliminary work of meal-time preparation, seated before your Hoosier, with every kitchen tool and utensil within easy reach.

Satisfy yourself that this is true before you invest in a kitchen cabinet. Go to your nearest Hoosier dealer. Sit in front of the orderly Hoosier Beauty. Note its big, uncluttered work-table. Notice what thoughtful provision has been made for your every kitchen requirement.

And then, when you are convinced that the Hoosier is best—as are these two million other women—order the step-saving, back-saving Hoosier sent to your home.

You, too, can know this relaxation, even in the midst of household duty.

Two million American women—the two million who own Hoosier Kitchen Cabinets—have been placed in complete mastery of their kitchen work. They consider the Hoosier America's most practical labor-saver, because it has abolished the old-time stooping, reaching, standing and walking about that used to make kitchen work so wearisome.
