Important Wildcat Showings

The Texon Oil company test in the northwest corner of the north-east of section 22-21-12, is a showing of oil and is standardizing. The well is eight miles southwest of the Empire pool.

The Bay State Refining Company

When the Bay State Refining company's plant at Healdton, Oklahoma, charged its stills last week, another refinery was added to the list in Oklahoma. This company, which was organized a few months ago by Earl G. Hastings of this city, and J. Murray Walker of Boston, promises to be one of the most successful independent refining concerns in the mid-continent field.

Prairie Well Reported Flowing

A late report from the Prairie well in section 17-22-2w, near Perry, Oklahoma, is that it is beginning to flow. This has not been verified here.

Urschel Pool, Kansas

The Skelly Oil company's test of the Urschel pool, in the northwest of the southwest of section 22-21-5, has 2,000 feet of fluid in the hole and will be put on the pump to see how much oil and how much water there is in the well. The sand was found at a depth of less than the original well, which it offsets.

North of Kellgville.

The Leo Oil & Gas Co., and S. J. Mathews has made a location for a test in the northeast of the southwest of 29-15-10.

West of Schuller

The Transcontinental Oil company's test in the southeast corner of the southeast of 14-12-12, seems to have indicated the trend and it now looks as though there would be a direct connection found between the old Schuller pool, and the stuff in the northwest of township 12-12.

New Tests in the Osage

Clem and McCoy are spudding in on No. 1, located at the center of the south line of the southeast of the southeast of section 14-23-10. J. R. Phillips, et al., have a rig on the ground for a test in the northeast corner of the northwest of section 26-24-10.

machines moved in for No. 2 in the center of the south line of the southeast of the southeast of 2-27-10. The American Pipe Line company's No. 73 well, in the center of the south half of the northeast of 3-27-10, is a rig. The Indian Territory Illuminating company's No. 2, in the southwest of the southeast of section 9-27-10, is a rig on the ground.

Many Oklahomans in Kentucky

Geologist Julia Fehs has arrived from Tulsa, and is reported as saying this is one of the most promising fields of America.

Urging Wilson to Stop Deflation

Protesters against the deflation policy of the Federal Reserve Bank, urged Wilson to stop deflation.

Services for New Church

Investing without Capital Many people now invest in high grade listed stocks and bonds without cash. They buy them on the Kriebel Systematic Saving Plan and pay for them out of their monthly earnings. They are finding it highly profitable. It is not a short cut to wealth, but it invariably yields liberal interest plus a profit.
