EXCHANGE STILL GAINS

Foreign Market Increases—Prospect of Gold Imports From England Still Discounted

NEW YORK, March 5.—Foreign exchange continued to show increases of the day of interest from foreign local and foreign interests of the financial interest even to small sales.

C. D. Steffan & Co., financial agents of Dr. Wilson, yesterday gave out the statement that, without knowledge of such a movement, Advices from London were pointed to the early probability of pending gold shipments to New York.

There were further advances to all gold countries in South America but local authorities believe a pause to that movement will soon occur. Several shipments of imports of the metal from Canada were said to be without bearing upon the report of Anglo-French situation.

Trading in British bills during the day was quite extensive, with only moderate fluctuations in French exchange. Quotations were somewhat irregular in the absence of any decisive developments and guilt as to the future of that country.

At the high rate of $5.70 for Cable bills the London rate was 12 cents to the pound sterling over sterling, a maximum used 31 cents above the maximum recorded on February 21. After the close of the stock market offerings of bills on London forced the price back to $5.68 1-2, with variable reactions in French and Italian quotations.

Thermometer Drops 17 Degrees in One Night at McAlester

McALESTER, March 5.—Breaking all March records for low temperature and with one of the swiftest drops known, the temperature Tuesday left spring weather and in this morning recorded 17 degrees winter weather.

A drop of 41 degrees precipitated the city from comparatively summer breezes to a temperature of 24 degrees, one of the four greatest decreases of the past 10 years. A chilling wind from the north with a light flurry now added to the discomfiture of the sudden change. Many were torn down in the city and over the county, with residents suffering the greatest discomfort so far as real estate was concerned.

STATE IS TO BE NEUTRAL

Governor Not to Assist Others in Testing Dry Law

By Associated Press Daily Wire.

OKLAHOMA CITY, March 5.—Governor Robertson will not lend the aid of Oklahoma to other governors of the country who are defending the federal prohibition amendment to the supreme court of the United States, it was learned here today. The governor is said to have been advised to take this course by Attorney General S. P. Freeling before he left for Washington.

Governors of 22 states headed by Governor Milliken of Maine, have retained Charles E. Hughes, former chief justice of the supreme court, to defend the amendment against attacks by New Jersey, Rhode Island and California.

The attorney general entered the governor to take no part in the litigation since the identical question is now before the supreme court of this state.

Another telegraph cable will be laid between Peru and Ecuador to give those countries, as well as Colombia and Central America, better service with the United States through Galveston.
