SATURDAY, MAY 9, 1908.

The expressions heard everywhere throughout the city in regard to the reorganization of the Chamber of Commerce are most favorable. The new Directors meet with approval and will receive the hearty support of every business man in the city. One prominent business man was heard to remark, "I have not always been a very active member of the Chamber, but with such men as now compose the Board conducting the affairs of the Chamber, I shall be glad to lend any assistance in my power towards its success and feel assured that at last we are in shape to accomplish much good. I do not want any office but will gladly contribute towards the support of the organization and do anything I may be asked to do." The above seems to represent the general feeling among the leading men of the city and bodes well for the work to be undertaken by the new managers. The active work being done by Mr. Dolbeer's committee towards securing new members is meeting with success and indications are that Klamath Falls will soon have one of the strongest commercial organizations in the state.

The United States Senators want to know why Taft has gone to Panama. The Senate has adopted a resolution introduced by Senator Bacon, calling for correspondence since January 18, 1904, between the United States and Colombia in relation to the secession of Panama. Prior to that time Colombia felt aggrieved at what was interpreted to be interference by the United States in her troubles with the State of Panama, and demanded \$10,000,000 of the United States. Colombia also asked for arbitration of this claim, which was refused by the United States, on the ground that this country had been charged with fomenting revolution in Panama and abetting the secession of the isthmian portion of Colombian territory.

Contrary to the fond expectations of the Democrats, the followers of Fulton are not flocking to the banner of George E. Chamberlain. The knifing of Cake, which the Democrats figured on, is not developed in the manner anticipated. Instead Senator Fulton has opened headquarters at the Imperial Hotel in Portland and has men working enthusiastically for Taft and Cake.

A general arbitration treaty has been signed at Washington between Japan and the United States. The treaty provides for the settling of all disputes except those involving territory and sovereignty by the Hague tribunal.

Sixty witnesses have been summoned either for the prosecution or the defense in the trial of former Sheriff C. Sam Smith, on the charge of burning the shearing plant of ex-Congressman J. N. Williamson, in Crook County.

It can be set down as certain that if the Republicans control the next house of representatives there will be a determined fight against the re-election of Speaker Cannon.

Republican Candidates

U. S. Senator—Hon. H. M. Cke, as U. S. Senator, is all that we can ask for in one candidate. Mr. Cke is a man of pleasing appearance, an eloquent speaker, a man that understands the political situation. While many regret that Mr. Fulton was beaten, yet we realize, by the vote Mr. Cke received in his home county that he is as popular there as Mr. Fulton was here. Mr. Cke is deserving of his party vote.

Congressman—W. C. Hawley points to his past record with pride; in fact his record is his platform.

Justice of the Supreme Court—R. S. Bean needs no special mention.

Dairy and Food Commissioner—J. W. Bailey is also a Winner.

R. R. Commissioner—E. K. Campbell is a man for the people and is entitled to the support of the entire party.

Prosecuting Attorney—D. V. Koykendall, as Prosecuting Attorney, is practically without opposition. He is well qualified and Klamath and Lake Counties are to be congratulated on having been able to place so competent an attorney in nomination for the place.

State Senator—Geo. H. Merryman, as State Senator, is a rising young Statesman having served one term in the Lower House and demonstrated his ability.

Representatives—Our State Representatives, H. P. Belknap and H. A. Brattain, are strong candidates and will more than poll their party strength.

Sheriff—W. B. Barnes is well qualified to fill the office, having served as assessor of Lake County, also as deputy sheriff. He has a good education, is an active man, well acquainted with all the surrounding county and make an efficient officer. Vote for him.

County Clerk—C. R. Delap, as County Clerk, is well known to you all, having served this county as School Superintendent in a way that is a credit to himself. He is now serving as Deputy Sheriff of this county and is known to be a thoroughly competent man.

County Treasurer—L. Alva Lewis, as Treasurer, is well known to you all and he points with pride to his past record.

School Superintendent—J. G. Swan is a man that has been conspicuously before the public for the past five years and has accomplished wonders in educational lines. He is well fitted for the place.

Assessor—Bert E. Withrow, as Assessor, is the right man in the right place, having served a number of years in the Abstract Office and having a complete abstract of every piece of deeded land in the county, puts him in a position to better judge the value of real estate than any other man we know.

County Surveyor—M. D. Williams has been conspicuously before the public during his term of office. His work speaks for his efficiency.

County Commissioner—C. J. Swingle is a pioneer of Klamath County. He is a conservative business man and has made a success with his own business venture, and it is fair to assume that he will do as well with the county business.

The human skeleton consists of some 200 bones, though the number of separate bones varies at different times of life. Bones which are distinct in early life become fused in old age.

Saved by a Smile.
"Yes, I had a narrow escape once. It was in Calcutta when the plague was raging—many years ago, when Europeans had little better chance than the natives. The hospitals were full to overflowing, and I, with many others, was lying in a large shed put up for the purpose. Some of the poor chaps were dead and I pretty near it when a man came around with one of the doctors to measure the bodies, and I learned from their talk that they counted me already among the corpses. I was too far gone to cry out. I could not move; I could not even open my eyes."
"What did you do?"
"Oh, I just smiled!"—Westminster Gazette.

A Historic Old College.
The first Greek letter society—Phi Beta Kappa—was organized at William and Mary in 1776, and among the charter members were John Marshall, chief justice, and Bushrod Washington, associate justice, of the supreme court; Spencer Roane, who was considered the ablest jurist ever produced in Virginia; John Brown and Stephen T. Mason, senators from Virginia; William Short, minister to Spain and Holland, and Eliza Parmelee, a native of Massachusetts, who established chapters at Yale and Harvard when he returned home. William and Mary was the first college to adopt the elective system of study and the honor system in the government of its students.

Caring For the Nose.
"It's a funny thing," said a doctor, "that the average man pays less attention to the most prominent feature of his face than to any other part of his countenance. Yes, it's the nose I'm speaking of. We clamp it with eye-glasses that pinch too much or impose upon its spectacles that are altogether too heavy. Then we wonder why it increases in size or perhaps in redness."
"But this lack of care for the nose is not restricted to those whose vision is defective. I venture to say that not one man out of ten washes his nose in the way that he should. Every other part of the face comes in for a vigorous scrubbing, but the nose, which needs it most of all, is not to be passed over gently—probably because it is being used to breathe through during the ablutions. The result is that the nose gives more and more evidence of being neglected. The tissues become flabby, and the pores are filled up. A little massage would work wonders in such cases, but it is rarely given."
"Notice the men you see in half an hour's time, and then tell me if my comments are not justified. Then see what you can do for your own nose."—New York Press.
