FISHING IS SUPERB

Williamson River Resort Will Be Popular Place This Summer

Frank Silvie came down from his Williamson river fishing resort yesterday to get supplies and attend to business matters. He has recently built a large addition to his house and is now in a position to give excellent accommodations to small parties who want to enjoy the fishing, but who do not care to camp out while at the resort. For the benefit of the campers he has fixed up some camping grounds both along the Williamson river and Spring creek and has added a number of tents to his equipment. New boats have been put on the river and everything is now in readiness for a lively season. Many

people from this city are already making arrangements to spend a few weeks at this popular resort this summer. So far few people have been there this year, but the fishing is exceptionally good and the few who have been there have made large catches. Mr. Silvie has also made arrangements whereby he will meet parties at the Klamath Agency and convey them to his resort and from there they can secure accommodations to go to Crater Lake. The telephone line to the resort has been put in good condition, giving campers and pleasure seekers a direct communication with Klamath Falls.

Earning his Homestead

F. M. Priest, the insurance agent located on a homestead near Bonanza some few months ago and he has been out there this Spring building a house on his ranch. It is two and a half miles from his place to the nearest mill and the trail is very rough and rocky, but Mr. Priest has packed every stick of lumber he has used in his house from the mill to his building site. It was a slow process but the road to his place is exceedingly rough and rocky and it takes eight miles of driving to get from his home to the mill so he decided to show good faith by packing the lumber on his shoulders. He might of used logs in building the house but he preferred frame and in order to have it worked hard for several weeks. It can not be said that he has not started out to earn his homestead.

Closing the Campaign

One of the closing events of the campaign will be the grand candidate ball at Merrill tomorrow night. Nearly every aspirant for office will be in attendance and it will also likely be their last visit to that part of the county. The Republicans of that part of the county are thoroughly organized and the Democratic candidates have put in their time quite liberally in Merrill and vicinity, and it being one of the largest precincts in the county it is next to Klamath Falls the battle ground for political success. All of the candidates who can possibly get away will attend this closing political function in Tule Lake precinct so that there is every assurance that the dance will be a grand success.

number of prominent men throughout the territory a number of months ago was recently convicted at Hillsboro, Sierra County, for swindling the district attorney of the county out of \$50. Complain of Loose Stock

Loose stock has for some time been an annoyance to property owners in this section. The officers have aimed to keep it out of the city and their efforts have been successful to a certain degree. However, in the additions to the town, and especially in the Hot Springs tract where the feed is good it has been impossible to keep out the large droves of cattle that come into the town to graze. It is not an uncommon thing to see as high as fifty head of cattle on this tract at one time and a large number of the small trees that have been planted on the addition have been ruined and killed by the cattle. Other parts of the city have suffered in a similar manner and even the cemeteries have been invaded by the stock. It has been suggested to the owners of the stock that they must herd their cattle or else have them impounded. This suggestion has not been heeded and probably the next move will be to lock up a large number of the runabouts. Chief of the Police Low has on several occasions driven the cattle into the country, but he has found this method useless as they return soon to the city and its additions where there is good feed. Complaints about the stock are becoming so frequent that some action

James Edwards, who was injured a short time ago by a premature explosion of a powder blast, is getting along as well as could be expected. His hand was so badly lacerated that it is very slow in healing.

TRAVEL MANY MILES

Political Aspirants Put in Much Time on Roads of the County

Participants in the political race are beginning to realize that it is work to run for office and expensive work at that. Most of the candidates have been on the go for more than two months and in some instances have driven almost a thousand miles. W. A. Delsell, the Democratic candidate for County Clerk, has kept track of the number of miles he has traveled, and at this time it is approximately nine hundred. He, like most of the other political aspirants, has visited every section of the county and some places a number of times. It is safe to say that by next Monday he will have covered more than a thousand miles. Mr. Delsell had no opposition for the nomination and it is safe to say

that some of the Republican nominees who made an active campaign for the nomination have traveled a greater distance than that covered by Mr. Delsell, even though he has been on the go steadily for several weeks.

Bert Withrow, the Republican nominee for assessor, has been on the go for almost two months and when the campaign closes he will likely have more miles to his credit than any other of the men in the race for office. It is expensive to make these trips and the politicians are beginning to feel the steady drain on their purses.

However, they are all taking part in the game in a good natured way and at this time none seems discouraged with the outlook.

CHANGE IN MAIL ROUTE MONDAY

Orders Have Been Received by the Postmaster Transferring Mails From Pokegama to Dorris Route

The change in mail routes which goes into effect on Monday will bring all mail from the South into this town twenty hours earlier than under the schedule now in effect. The mail from the North will be four hours later, if the train arrives on schedule time. The mail, is due in this city at 7:30 in the evening, but it will arrive here according to the train service. If the trains are late the mail will be late in reaching this city. The order for the change was received by Postmaster Emmitt last night and Monday morning the mail will leave on the boat going by the way of Dorris. The service will get better as the railroad improves its service and when the water is reached, this city will have as good mail service as can be expected until the trains begin running into Klamath Falls.
