COMMISSIONERS' PROCEEDINGS

Little Business, Aside From Auditing Claims—Circuit Court Monday.

Commissioners' court convened for the May term on Wednesday last, with full board present, and remained in session three days. Little business was transacted outside the auditing of numerous claims against the county, and we give here a brief summary of all that transpired.

Report of viewers and surveyor on county road near Cecil was accepted and the road established. A. M. Slocum was awarded the contract to furnish 70 cords of slab wood at the court house, at \$4.90 per cord.

Petition of Dr. J. J. Murray, veterinarian, to be appointed county stock inspector, was received and continued for term.

City of Heppner granted franchise to dig and maintain a well on the county road at the mouth of Donaldson canyon, and also to dig and maintain ditch for pipe line leading to Heppner from such well where same lies within the boundaries of county road.

Petition to vacate a part of the Wayne Howard road, continued for term because of failure to file affidavit of posting of notice.

The following is the list in full of miscellaneous claims audited and allowed:

MONTHLY MEETING OF CITY COUNCIL

Progressive Policy Adopted By City Fathers Results in Needed Improvements.

Regardless of the fact that it was show day, and all the wild animals were in town, besides lots of other people, the city fathers were able to gather themselves together on Monday evening for a regular meeting of the council, with a goodly attendance. Mayor Van Vactor presided, and Councilmen W. O. Minor, Cornett, Barstatt, Curran and Kirk present.

The presentation of bills for the month took up the fore part of the meeting. These were a little in excess of the usual budget, owing to the extra amount of street work that has been done the past couple of weeks, and in detail were as follows:

A. J. Stevenson, labor	\$ 10.75
Henry Baglow, labor with team	32.00
Vernon Jones, labor	2.00
Latwight Blahm, labor	2.50
Alonzo Wright and Jas. Gentry, 12 days labor on streets, 2 men and 18 horses	180.00
Roy P. Campbell, labor	4.75
George Moore, labor	7.50
J. Frank Smith, labor	2.00
Minor and Co., sundries	64.70
Vaughn & Sons, shovel	1.00
Gilliam & Bisbee, sundries	20.50
G. E. Hedde, labor	3.50
L. Grover, labor	4.25
E. L. Berry, painting and papering	16.00
Mack Smith, salary	75.00
J. P. Williams, salary	16.65
L. W. Briggs, salary	8.33
H. L. & W. Co., current	99.00
Mack Smith, killing three dogs	3.00
Mack Smith, repairs on stove	.20

The committee on streets and public property reported to the council that they are progressing with the work of the new well which they are digging to furnish water for street sprinkling purposes; that they had already reached a sufficient flow of water and would go no deeper at the present, waiting until the dry season comes on, and then if the well should show a depreciation in the flow, to dig deeper. This committee also made its report as to the work they had already performed in the grading of the streets and reported the grading of the north end of Main to the bridge, the street leading to the depot and beyond and Chase street out to beyond the property of Arthur Smith. They will not likely proceed with any work on other streets at this time, as they fear it may turn a little too dry to do a successful job.

Councilman Curran is keeping the matter of hard-surfacing alive in the council, and does not fail to have something of note to offer on the subject at each meeting. As stated before in these columns the council is fully wise to the fact that such work as has been done is only of a temporary nature, and just as fast as they can get shaped up to do so, they will undertake the work of hard-surfacing the principal streets of the town, to say nothing of the other streets that will receive their attention in due course of time.

A motion was made and carried that the city construct a 30,000 gallon reservoir of concrete for the holding of water for street sprinkling purposes. The site for this reservoir has not yet been chosen, but the committee on streets and public property are empowered to arrange for this and secure a suitable location somewhere in the vicinity of the power house. Upon motion, the same committee was empowered to immediately locate pipe line, secure right of way for same, and ascertain the size of pipe required and order the same in sufficient quantity to connect the well with the reservoir, and also to advertise for bids for building reservoir and digging ditch.

The committee on fire and water was instructed to see to the extending of the water main on Alkali street for distance of at least three hundred feet westward and have a hydrant put in. It seems that an order was entered up more than a year ago to have this done and it is understood that the water company agreed to do it but the job remains undone. This is necessary to protect property on the west end of this street that it is impossible to reach from the point of the nearest hydrant at the present.

and public property were instructed to contract with Mr. H. L. Price for the construction of a concrete crossing on Center street, connecting the pavements abutting the property of the Christian church and that of J. P. Conder. It is understood that this crossing is to be built at a cost of \$115.

IONE VS. HEPPNER.

Ione and Heppner mixed in two games of baseball on Heppner grounds last Saturday afternoon. The first game was between the nines of the grammar schools, resulting in a victory for the home boys by a score of 10 to 3. The game between the High School teams was a splendid contest, Heppner winning 6 to 1. Errors in the first inning by Ione, let Heppner have two tallies they were not entitled to and up to the eighth it looked like a shut-out game for Ione. Heppner's battery was Jones and Young and Ione's was O. Rietman and A. Cochran. You will seldom see a better game played.

The Demons of the Swamp

are mosquitoes. As they sting they put deadly malaria germs in the blood. Then follow the icy chills and the fits of fever. The appetite flies and the strength falls; also malaria paves the way for deadly typhoid. But Electric Bitters kill and cast out the malaria germs from the blood; give you a fine appetite and renew your strength. "After long suffering," wrote Wm. Kretwell, of Lucama, N. C., "three bottles drove all the malaria from my system, and I've had good health ever since." Best for all stomach, liver and kidney ills. 50 cts. at Slocum Drug Co.

Circuit Court.

The regular May term of the Circuit Court convenes at the court house on Monday. The docket is short and the session promises to be a short one. The grand jury meet tomorrow to finish up any business that may be called to their attention. The Mills case will come up for trial again, and there are a few civil suits to settle. Should the grand jury find no new business, the May term will soon be over. The jury list is as follows:

There never was a time when people appreciated the real merits of Chamberlain's Cough Remedy more than now. This is shown by the increase in sales and voluntary testimonials from persons who have been cured by it. If you or your children are troubled with cough or cold give it a trial and become acquainted with its good qualities. For sale by Patterson & Son.

Loyal Workers Meet.

Last Friday night 24 of the Loyal Workers of Eightmile met at the home of Henry Gay and a most enjoyable evening was spent. Mr. Bert Gay and Grandpa Bennett furnished the music to the delight of all. These young people meet once a month. Mr. Leo Gay discovered a gold mine a few days ago in the craw of an old hen. He found two nuggets worth about \$1.50. Who says there is no money in a chicken?

This time it is for the

C. & W. Squirrel Poison

Last year we were the only store handling it in Heppner, and you all know the sensation a two-bit poison caused.

It is sold under a money back guarantee, if not satisfactory.

We have yet the first complaint to hear from.

Now is the time to do effective work in ridding the farm of these little pests, the squirrels.
