The natural, unchecked course of disease is from bad to worse as the fall and winter wear on. It is not that rheumatism, neuralgia, insomnia, and kidney trouble are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the first symptoms of disease.

Thousands of lives that are now fast wearing out, would be prolonged if Paine's celery compound were in each instance used to stop those ominous pains over the kidneys, to build up the rundown nervous strength, and cure permanently those more and more frequently recurring attacks of headache and indigestion.

MRS. SENATOR WARREN!

Why Paine's Celery Compound Is Famed in Washington Families.

Many persons out of health have found an excuse in hot weather for doing nothing toward getting well. "I will wait until fall," they have promised themselves.

It is now time, if ever, in thousands of cases, to keep that promise. Nothing should now interfere with building up the weakened nerves.

Now is the time of year when rheumatism and neuralgia must be checked, when bad health must be mended—if one hopes to get well. The natural, unchecked course of disease is from bad to worse as the fall and winter wear on.

It is not that rheumatism, neuralgia, insomnia, and kidney trouble are hard to cure—Paine's celery compound has made a host of sufferers well—but people make themselves chronic invalids by neglecting the first symptoms of disease.

This most remarkable of all known remedies has won the sincere approval of the most progressive part of the community. Here is a testimonial recently received from the wife of U. S. Senator E. F. Warren of Wyoming, those distinguished services for the country's best farming interests are so well known:

"I was persuaded to try your Paine's celery compound in the early spring when in a very run down condition. The duties devolving upon the wife of an official in public life are naturally very exhausting and I was tired out and nervous when I commenced using the remedy. I take pleasure in testifying to the great benefit I received from its use, and can truthfully say that I am in and almost perfect health again. If I ever find myself running down again I shall certainly give it another trial and will in the meantime recommend it to every one needing it."

It is a fact verified by the practice of the best physicians, and by thousands of personal testimonials that Paine's celery compound makes new, pure blood, builds up the nervous system, and cures disease where all other remedies have failed.

Its absolute reliability is shown its steady employment by trained physicians and in homes made happy by its unquestioned power of making people well.
