MEDFORD MAIL TRIBUNE

Full Leased Wire Report.
United Press Association.
The only paper in the
world published in a city
the size of Medford hav-
ing a leased wire.

FOURTH YEAR.

MEDFORD, OREGON, THURSDAY, NOVEMBER 11, 1909.

No. 202.

NEW PAMPHLET TO SURPASS PREVIOUS ISSUES

Committee Hard at Work Choosing
Photos for Its Pages—Edition of
50,000 Arranged For—Pub-
lishers at Work.

CARLOAD OF SPECIAL
PAPER IS ORDERED

Will Be Ready for Delivery in Jan-
uary—Persons Having Photos
Requested to Send Them.

The new issue of the Medford pamphlet will be more beautiful than any that has been issued heretofore by the Medford Commercial club, although Medford has been awarded the palm of supremacy where beauty has been considered in the past. The committee is hard at work choosing new photos for the pamphlet, which will be the same size as the one last year, or 64 pages.

The pictures used will all be new ones and will be enough to cover 40 full pages. Not a single view that has been used in the past will be duplicated.

The first cover will bear a colored photo of Crater Lake, a new one, while the back will carry a picture of Red Blanket falls.

A carload of special heavy paper has already been ordered for the pamphlet, which will be ready for distribution in January.

The committee wishes every person having views of local subjects to send the same to the club. The edition of the pamphlet will be 50,000 copies.

THREE MEN DIE IN POWDER EXPLOSION

(United Press Leased Wire.)
WILMINGTON, Del., Nov. 11.—Three persons are reported to have been in two explosions of powder today in the Hegley yards packing-house of the Dupont Powder company.

REAMES TRACT NEAR PHOENIX IS SOLD

Anderson-Green Company Sells 57
Acres of Raw Land—Is
Sold for \$6000.

Wednesday the sale of 57 acres of the Reames tract near Phoenix was closed through the agency of the Anderson-Green company, the price paid for the tract being \$6000.

The tract is part of the original Reames estate and the grantors are O. and Dora Harbaugh and the grantees are W. W. Glasgow and others.

This tract includes some of the best orchard land in the upper valley and the purchasers have evidently secured a bargain in acquiring this land.

RENO, Nev., Nov. 11.—It is understood here today that Margaret Illington, the actress, who was divorced yesterday from Daniel Frohman, the famous theatrical producer of New York, will go very soon to Tacoma, Wash., where it is said that a house already has been furnished and prepared for her reception.

WILL NOT INJURE PIPE TO LAY DRY UNTIL APRIL

Consulting Engineer Roberts Says
That Damp Ground Will Swell
Pipe Gradually and That It
Will Not Be Injured.

MUST HAVE WATER BEFORE
DRYING PROCESS STARTS

Line Complete to Hanley Premises—
Mills Ordered to Stop Manufac-
ture of Pipe Some Time Ago.

That the pipe line of the gravity water system will not suffer any deterioration by not having water in it during the winter months, but that, on the contrary, it will gradually be expanded by the damp earth, is the statement of A. J. Roberts, consulting engineer of the city, under whose direction the water system is being installed. But in April or May the pipe must be filled with water or the most serious results will obtain.

"When water is suddenly turned into a wooden pipe line," stated Mr. Roberts, "especially one of high pressure, the strain and sudden swelling is bound to have a hard effect, injuring the pipe more or less. But where the pipe lays in the ground for a few months in the winter, with the ground constantly damp, the swelling of the pipe is gradual and does not injure it."

"In April or May, however, the line must be filled with water or the most serious results will obtain."

The laying of the pipe line has been completed to the Hanley premises and the remaining two miles of pipe has not been manufactured, the mills being ordered to stop some time ago.

Back to Bear Creek.

During the winter there will be a month when the city will have to fall back upon Bear creek for its water supply, as the Fish Lake Ditch company must clean out its canal. The company, however, will use such means as are in its power, however, for speed.

Engineer Roberts has been retained by Cottage Grove to install a water system there in the spring. The water is to be brought a distance of 19 miles through a 12-inch main.

GIRL SUING DITCH FOR BREACH OF PROMISE

(United Press Leased Wire.)
CHICAGO, Ill., Nov. 11.—An attorney for Sadie Currie today made public a letter which the girl claims that Frank Getch, the champion heavy-weight wrestler, whom she is suing for \$25,000 for breach of promise, wrote to her. She declares that the letter was received October 28 of this year.

The letter which is published today says:

"Dear Sadie: I am sorry that you are having so much trouble. Am sure that you must have enough to pay your board at any first-class hotel. They must have helped you spend that bunch I gave you last summer. Inclosed you will find \$20."

CLEVER HOTEL SWINDLER AT LAST IN THE TOILS

(United Press Leased Wire.)
LOS ANGELES, Cal., Nov. 11.—Mrs. Augusta Barts, alleged to have swindled hotelkeepers in San Francisco, Oakland, Berkeley, Pasadena, Los Angeles and other coast cities, occupies a cell in the city jail today, pending the passing of sentence for the theft of artists' materials from the home of Mrs. J. C. Rockhold of this city. Mrs. Barts was found guilty yesterday in Judge Williams' court.

MARTIAL LAW EXPECTED IN SPOKANE WITHIN WEEK

PAVING PLANT PLACED IN MOTION

With Few Days of Fair Weather
West Main Street Will Be Paved
to City Limits—Plenty of
Crushed Rock on Hand.

The Warren Construction company has commenced paving operations again on West Main street. The crushed rock for the foundation has been laid for a block or more and the mixing plant was fired up this morning.

For the past week the Rogue River Valley railway has been hauling crushed rock from the rockcrushing plant at Jacksonville on every train—from three to seven cars to the train, and several hundred tons of material for paving has accumulated. With a little fair weather, which now seems probable, the paving of West Main street will be finished within the next few weeks.

"So far," stated one of the foremen this morning, "there has not been enough rain to delay proceedings for long and we will be able to finish the work in a few days when we get started. With a few days of this weather we will get the street finished, as we have orders to rush the work."

"There is plenty of rock available and it will not take long to get it down and the bitulithic on top of it."

MISS NEIDERMEYER WEDS H. E. CONGER IN JACKSONVILLE

H. E. Conger and Miss Emma Louise Neidermeyer were united in marriage at Jacksonville Wednesday, Rev. Robert Ennis officiating. Both bride and groom have a wide circle of friends in Jacksonville and the surrounding country.

LOCAL SHRINERS TO VISIT ALBANY FRIDAY

Big Ceremonial Planned for Satur-
day Night—Shriners From All
Over State to Be Present.

Tomorrow evening nearly every Shriner in the city will leave on a pilgrimage for Albany, where El Kader temple of Portland will put on a big ceremonial, a class of 50 candidates being ready to cross the burning sands. A trainload from Portland will be on hand.

Nearly every Shriner in the state is expected to be present. An elaborate program of entertainment has been prepared and something is expected to be doing every minute.

MAN SHOTS IN DEFENSE OF HOME

(United Press Leased Wire.)
SANTA CRUZ, Cal., Nov. 11.—Edward Pierce, who yesterday afternoon was shot by John Garst, died here today at a local hospital. Garst, who declares that he shot Pierce in self-defense, claims that Pierce broke up his home. Both men are well known ranchers of Valencia.

WAR CLOUDS GROWING DARKER

1500 Recruits Added to Socialist
Forces—Believed That Police
Will Be Unable to Cope With
the Impending Trouble.

(United Press Leased Wire.)
SPOKANE, Wash., Nov. 11.—The federal authorities have co-operated with the Spokane police to the extent that the guardhouse at Fort George Wright, where 600 colored troops are quartered, has been turned over to the police to be used as a temporary jail.

A hundred industrialists, of whom 20 will be deported as aliens, have been taken there. The police have possession of an abandoned schoolhouse and now have room for 5000 prisoners.

Thirty government emigration officers have reported here for the purpose of ferreting aliens for deportation.

Recruits Arriving.
Revolutionary recruits are arriving from the entire Pacific northwest, middle west and parts of the east.

After nine days of steady fighting the situation is becoming more serious, despite the hunger-strike among the 300 convicted industrialists.

The police are doubling the special force, yet they fear they will soon be unable to cope with the situation. It is predicted that the city will be under martial law within a week.

A delegation of labor unionists met with the city council yesterday in a special session, asking for a modification of the street-spending ordinance. Unable to reach an agreement, the labor unionists state that they will invoke the initiative to compel the council to adopt an ordinance patterned after one in operation in Seattle, giving the right to speak on streets at any time, with the exception of hours of heavy traffic, by giving the police several hours' notice.

Refuse to Eat.
More than 200 industrialists have not eaten for seven days, thrusting the bread and water out of their cells when offered. Eighty are in the care of physicians on account of their refusal to eat. James Wilson, Charles Thompson, F. J. Fonte, J. Cousins and C. L. Feligne, industrial leaders and workers, were sent to the hospital today.

The city is flooded with Pinkerton detectives. Many citizens are agitating the formation of a citizens' alliance to control the fight.

Nine days after "free-speech" day the city of Spokane finds itself in the situation of the man who suddenly sees a red flag waved in front of him. The warning signal has been flung to the breeze. It is possible that the crisis may be peacefully passed, but unless the Socialist forces weaken very materially or the authorities meet their propositions, the crisis will be anything but a serene affair.

Fifteen Hundred Fighters.
Today there are in round numbers 1500 active Industrial Workers of the World men in the fight waged in this city against the city curtailing the privilege of speaking on the streets. Reinforcements are pouring steadily from Montana, Idaho, British Columbia and from Portland and Los Angeles. A few days ago the police turned streams of water on crowds in the streets and arrested

(Continued on page 2.)

BENSON HARD AT WORK ON CASE

After This Evening Will Not Con-
sider Any Further Petitions Re-
garding Finch or Daly—Re-
serves His Opinion.

(United Press Leased Wire.)
SALEM, Or., Nov. 11.—"Unless all efforts have ceased within a reasonable time on the part of either Finch or Daly's friends to secure the commutation of their death sentences, I will be unable to give out a final decision and at the present time I cannot tell my opinions regarding the petitions already submitted, as it would not be fair to give out information concerning either one's chances until the last effort has been made toward that end, and I will not consent to consider any more petitions after tonight."

This statement was made by Governor Benson to a reporter of the United Press in an interview this morning when asked regarding the Finch and Daly cases, now so intensely interesting to the general public in Oregon.

Fisher Does Not Appear.
Last night Governor Benson received word that the brother of the late Ralph Fisher would call on him some time today, presumably in regard to the Finch case, but so far he has failed to appear. The governor sent to Portland last night for further testimony in the Daly case. Much of the testimony has already been handed to the governor, but in order to look more closely into the case, he was compelled to secure the testimony introduced at the first stage of the trial.

In connection with the probable interview with the brother of Ralph Fisher and the additional testimony in the Daly case to look over and examine, Governor Benson was informed last night that a petition was being circulated among the citizens of

(Continued on page 2.)

BUICK WINS LONG HARD ROAD RACE

Louis Chevrolet Annexes Hard-
Earned Victory in Atlanta, Av-
eraging 72 Miles an Hour.

Clarence H. Snyder of the Snyder Motor Car company is greatly elated over the victory in Atlanta, Ga., of the Buick car, driven by Louis Chevrolet, as he has the agency of these cars and will have one on exhibition in a few days in his garage. Press dispatches telling of the victory say:

Louis Chevrolet, the Swiss pilot of the Buick car, who has jumped into racing prominence within the last year, annexed another hard-earned victory here today when he captured the 200-mile stock chassis race, averaging about 72 miles an hour.

Chevrolet's victory came as a climax in a record-breaking contest in which Atlanta's new two-mile speedway was opened.

Chevrolet's winning of the 200-mile race in 2:46:48 was a brilliant exploit, lowering Burman's record of 3:24:13 4-10, made in a Buick at Indianapolis. The big pilot stopped but

once in the 100 laps, and then only when his machine caught fire. Chevrolet assumed the lead in the first lap and increased it slowly but steadily for 72 miles. The Chalmers-Detroit cars for a time took his exhaust at distances that seemed to increase only by inches, but in the first ten laps their inches had multiplied into almost a mile.

No serious accident marred the day's sport. The nearest approach to such an accident occurred in the 85th lap, when Harry Stillman, whose Marmon had not experienced a single delay, ran into the inner gutter of the track. Neither he nor his assistant was hurt beyond a few bruises.

Three wheels flew off the car, one of them rolling 200 yards. At this time Stillman seemed certain to beat out the Chalmers-Detroit drivers for second honors, having worked to the fore of the machines, while one was replacing a tire and the other was renewing its fuel.

Stillman's withdrawal left the two Chalmers-Detroit to fight it out for second place. Charles Basle's Renault stayed hopelessly to the finish, many miles behind, but the other cars had gradually been eliminated.

500 ADDITIONAL MEN WANTED TO WORK ON ROAD

John R. Allen Returns From Trip to
Portland, Where He Left Orders
With Employment Agencies
for 500 More Men.

SOON TO ASK FRANCHISES
ASHLAND AND GRANTS PASS

Work on Pacific & Eastern to Be
Rushed—Plenty of Men, Says
Allen, But Will Not Work.

Five hundred additional men are wanted for construction work on the Pacific & Eastern extension, and employment agents in Portland have received instructions to forward them as rapidly as possible. It was for the purpose of securing these men that John R. Allen has spent the past few days in Portland, returning today. With 500 additional men, the force on the Pacific & Eastern will total between 800 and 900 men.

"There are plenty of laborers in Portland," said Mr. Allen upon his return, "but they do not seem to care to work. I left orders, however, to have the employment agents forward all available."

Rush is the keynote of the situation on the Pacific & Eastern extension at present. With the arrival of more men, more camps will be established and the extension of the line hurried.

To Ask Franchises.
At the next meeting of the city councils in Grants Pass and Ashland Mr. Allen will apply in those cities for an electric road franchise. As rapidly as possible he will get the many matters in shape in order to start construction of the road.

BATTLING NELSON OFFERS PURSE FOR BIG FIGHT

(United Press Leased Wire.)
NEW YORK, Nov. 11.—Batting Nelson, the world's lightweight champion, broke into the "wind-bidders' circle today by offering \$85,000 for the Jeffries-Johnson fight.

Neither of the fighters, however, has heard anything about a certified check accompanying the offer.

The fight fans are incredulous, as Nelson proposes to stage the fight on his Nevada mining property, where there is neither an arena nor a railroad.

once in the 100 laps, and then only when his machine caught fire. Chevrolet assumed the lead in the first lap and increased it slowly but steadily for 72 miles. The Chalmers-Detroit cars for a time took his exhaust at distances that seemed to increase only by inches, but in the first ten laps their inches had multiplied into almost a mile.

No serious accident marred the day's sport. The nearest approach to such an accident occurred in the 85th lap, when Harry Stillman, whose Marmon had not experienced a single delay, ran into the inner gutter of the track. Neither he nor his assistant was hurt beyond a few bruises.

Three wheels flew off the car, one of them rolling 200 yards. At this time Stillman seemed certain to beat out the Chalmers-Detroit drivers for second honors, having worked to the fore of the machines, while one was replacing a tire and the other was renewing its fuel.

Stillman's withdrawal left the two Chalmers-Detroit to fight it out for second place. Charles Basle's Renault stayed hopelessly to the finish, many miles behind, but the other cars had gradually been eliminated.

once in the 100 laps, and then only when his machine caught fire. Chevrolet assumed the lead in the first lap and increased it slowly but steadily for 72 miles. The Chalmers-Detroit cars for a time took his exhaust at distances that seemed to increase only by inches, but in the first ten laps their inches had multiplied into almost a mile.

WILL BULLETIN PROGRAM OF MR. CODLIN MOTH

Several Breeding Cages Will Be Es-
tablished Where Incubation of
Moth Will Be Carefully Ob-
served and Warning Sent.

ORCHARDISTS THEN CAN
KEEP ORCHARDS CLEAN

Is Unique Plan and Rogue River Val-
ley is First to Adopt It—Will
Be of Great Benefit.

If the plans of Professor O'Gara and his helpers work out right, next spring the codlin moth will be kept so busy moving ahead of the spray wagons that he will have no place to lay his eggs.

Under the system projected breeding cages will be established at Ashland, Medford, Central Point and at other points in the valley, where the incubation of the moth will be carefully observed. The cages will cover a full grown tree upon which the cocoons of the moth will be planted. These trees will be open to all atmospheric conditions and the development of the cocoons will be normal. The development will be closely watched and at the proper times bulletins will be sent out to surrounding fruit growers stating upon just what days the spraying for the moth will be most effectual.

By having stations in different parts of the valley the crusade against the codlin moth will be more effectual, as the development of the pest varies several days between different parts of the fruit belt.

The plan is unique among the plans of fruit growing, the Rogue River valley being the first to attempt it.

TO ELECTRIFY WESTERN DIVISION NORTHERN PACIFIC

(United Press Leased Wire.)
EVERETT, Wash., Nov. 11.—Great Northern engineers are today working on plans for the development of a big electrical plant in the Lake Chema country that is expected to produce 80,000 horsepower, which is to be used for the purpose of electrifying the western division of the road.

GET AN EXTRA BLANKET TONIGHT

You'll Need It, for First Killing Frost
of Season Is Predicted by Mr.
Weather Man.

According to Mr. Weather Man, you'll need an extra blanket tonight, for he has predicted, for the first time this season, a killing frost.

Fair weather is predicted for Friday. Tonight will be colder, with heavy to killing frosts.

BOOSTER HARTOG OF EUGENE GETS JOB

EUGENE, Or., Nov. 11.—John H. Hartog, who has been employed by the Eugene Commercial club for the past two years to direct its promotion work, has resigned, to take effect at the expiration of his present contract, in December. He will enter business for himself, the nature of which has not been given out. Since Mr. Hartog came to Eugene, nearly two years ago, he has done excellent work in advertising Eugene's advantages in the east, and in that time the city has added perhaps 3000 people to its population.
