

### BLENNERHASSETT ISLAND.

An Historic Spot Which Will Soon Be a Thing of the Past.

The historic Blennerhassett Island in the Ohio River is gradually being washed away, and lately the water has found a channel through the center, which is rapidly aiding the work of destruction. It will soon be a thing of the past.

Perhaps no spot along the Ohio has such an interesting history as Blennerhassett's Island. Its lore is that of the nation itself. It was here that Aaron Burr's treachery was practically checked, and the triumph of that event is meliorated by the sadness of the fall of poor old Blennerhassett—the dupe of Burr. Over a century ago this gentleman settled on the island, building himself a delightful residence, and ever afterward dispensing most elegant hospitality. Here it was that Aaron Burr seized him in his scheme for entering Mexico, where, in case of success, Burr was to be Emperor. Theodosia Alston, Burr's daughter, was to be empress, and Blennerhassett was to receive the title of Duke and appointment as Ambassador to England. Blennerhassett expended large sums in fitting out an expedition, and, though discouraged when he learned of Burr's real designs, the intriguer had such influence with Blennerhassett's wife that the old man still adhered to him. After becoming thoroughly interested in Burr's visionary enterprise, Blennerhassett took him over to the town of Marietta, Ohio, for the purpose of purchasing supplies for the voyage. Provisions were bought and orders given for building fifteen boats. Further work was interrupted in December, 1806, by the militia, who, discovering Burr's plans, took possession of the boats. The days following were lively times on Blennerhassett's island. Burr and Blennerhassett both having to go heavily armed to protect themselves against suspicious citizens. When, after one day, they fled to Cincinnati and the South, Mrs. Blennerhassett showed her loyalty to her husband by sending her trustworthiest servant, Peter Taylor, after the old gentleman to bring him back.

Blennerhassett was arrested in 1807 and held for trial as a traitor, but Burr's acquittal set all suspected people free. His beautiful island and home had been sacrificed to creditors, and he went to Natchez a bankrupt. He undertook a cotton plantation, but the war with England ruined commerce and he then removed to Montreal, where he practiced law. In 1822 he went to Ireland, but here he failed to secure certain property, and continued to fail in every project he undertook. In the last years of his life he was supported by his sister, who had left a small estate to his wife and children.

It is no trouble to get a striking picture of a pugilist.

### Both Had Eczema In Its Worst Form

After Physicians Failed, Hood's Sarsaparilla Perfectly Cured.

Great mental agony is endured by parents who see their children suffering from diseases caused by impure blood, and for which there seems no cure. This is turned to joy when Hood's Sarsaparilla is resorted to, for it expels the foul humors from the blood, and restores the diseased skin to fresh, healthy brightness. Read the following:

"We thank Hood's Sarsaparilla is the most valuable medicine in the market for blood and skin diseases. Our two children suffered terribly with the worst form of Eczema for two years. We had three physicians in that time, but neither of them succeeded in curing them, even in giving them a little relief. At last we tried Hood's Sarsaparilla, and in a month both children were perfectly cured. We recommend Hood's Sarsaparilla as a standard family medicine, and would not be without it."—Mr. and Mrs. M. M. Soller, 142 Second Avenue, Altona, Pa.

Hood's Sarsaparilla cures liver, biliousness, constipation, biliousness, jaundice, sick headache, indigestion.

FOR THE MAIL FREE, a package of Dr. Hood's Sarsaparilla and a copy of our book on Eczema and Indigestion to be sent to you.

### A REVIEW OF TRADE.

This Shows the Best and Worst of Business—Wheat Lower Than Ever Before, Other Lines Good.

R. G. Dun & Co. in their weekly review of trade say: There is a car famine from Pittsburgh to the Rocky Mountains. This single fact shows the best and the worst of business. The West is marketing enormous crops, probably exceeding in quantity all official or unofficial estimates, but Europe is buying only moderately, the demands of the East are not greater than usual and all the elevators both east and west are crammed with grain and the yards full of loaded cars.

Wheat is selling at the lowest price ever known in New York. Many years ago it touched 75 in one day, but the quotation is now 74 for October delivery.

Receipts at western ports have been 5,500,000 bushels in four days and more than 26,000,000 bushels in four weeks, while the exports from Atlantic ports in four days have been 1,300,000 bushels. The price here has declined 1/2c, and the opinion steadily gains ground that all estimates of the crop have been below the truth. Corn has advanced 1/2c and oats 1/4c. The belief is that the yield of corn, though larger than was recently expected, will not quite equal the year's demand. Oil has declined 1/2c, while coffee has risen 1/2c, but the price of cotton is the same as a week ago. At Boston money is tight and collections satisfactory. Woollen manufacturers are busy with prices unchanged and the shoe manufacturers are pressed with orders. At Philadelphia the iron trade improves. The demands for worsteds is satisfactory and carpet and knit-goods works fairly employed.

A jump in prices of soft steel is seen at Pittsburgh, but the glass there is not in good condition. At Little Rock the outlook is remarkably large at Kansas City, receipts of cattle and hogs are heavy, though the car blockade checks transactions there. At Omaha trade is heavy in groceries, in dry-goods and hardware, and at Denver good in all lines. At Little Rock the outlook is bright, but at Louisville trade is satisfactory, and steady at Memphis, though below the normal. Business is fair at Nashville, but somewhat quiet at New Orleans owing to labor troubles.

Though it is not the season for special activity in bonds and shoes it is stated that not for years has there been such a demand. The demand for paper is so large that price of fine quality has risen 1 cent and bond paper from 1c to 1 1/2c. Textile manufacturers are busy as usual.

Exports of domestic products continue much below last year's in value as is natural, the decrease in New York for four weeks being 20 per cent. Imports continue remarkably large and treasury receipts are heavy, that of the week ending Sept. 28, 1904, amounting to \$2,200,000, while \$1,700,000 more paper was put out. The stock market has been stronger, but speculation is still unsupported by any public demand.

The business failures occurring through out the country the past seven days number 157, as compared with a total of 255 for the corresponding week of last year.

### FOUND HANGING TO A TREE.

A YOUTHFUL PAIR OF LOVERS KILLED AND STUNG BY THE MURDERERS.

A girl of about 17 and a youth of about 19 years were found hanging to a tree in the park wood near Dessau, Germany. The couple were strolling in the wood when they were attacked and robbed, and the girl, assaulted. The youth perished in endeavoring to defend his companion. His skull was crushed, as if by a blow from a club. The murderers then hanged the bodies in order to create an impression of suicide.

### ANOTHER BALLOONIST FALLS.

L. H. Driscoll, an aeronaut, was fatally injured while making an ascension at Harper, Kan., yesterday afternoon. When the balloon had reached a considerable height it suddenly collapsed. Then Driscoll started to come down in his parachute. At a height of 80 feet the balloon struck the parachute, knocking it sideways and causing the balloonist to fall to the earth. When picked up Driscoll was insensible, and his injuries were pronounced fatal.
