Silent Politicians.

The contributorial editor of the Yorkville *Enquirer*, in his quaint style, thus notices the silent politicians at the present juncture. The notice is well worth reading:

Some of our contemporaries express surprise at the fact that many of our hitherto voluminous advisers and country-savers are now silent—now, when, if ever, we need the advice and wisdom of experience to guide us. It does not surprise us.

The case is a very clear one.

If you have ever seen a coon up a tree while the hunter was chopping at the tree, and watched his course, you can readily understand the point of our illustration.

The coon gets high up in the tree, among the topmost boughs, and selects a fork. He keeps in this fork, keenly eyeing both the dogs and the axeman, especially the latter. After the tree begins to totter and fairly to start over to one side—and there is no longer a doubt which way the tree will fall—he jumps.

Our silent politicians are like the coon.

Whenever it becomes perfectly apparent which way political affairs are going to turn, then these Solons will speak out—will speak out vociferously, as soon as it is safe for them to do so.

Mark these men—these silent Solons. They are cowards, and we want brave men in times like these.

Gov. Perry is a brave man. He may be wrong—we believe some of his conclusions are—but we a thousand times prefer such men to those cowardly coon-politicians who are waiting until we are ruined, in order that they may see what advice will be most profitable *to them* to give us.

Away with such patriotism.

To the dogs with such politics.

If inaction is the true policy, let them *say* so.

If they believe in radicalism, let them announce it *now*.

If Gov. Perry is right, let them *say* so.

Here half a dozen men have spoken, after months of agony and tyranny. Are these half a dozen *all* our political leaders?

Indeed, seven years ago, (*after* secession was an inevitable fact,) we had eloquent speakers, and advisers, and country-savers, so many that with a dozen each night, it took a month to hear their speeches and all their advice.

Where are all these men?

A few of them sleep on the battle-fields; but the great body of those eloquent men never got sleepy in that way.

Eternal silence, it is true, would become them well; but knowing that they are ready (as soon as the tree begins to fall) to jump to the front and tell us all about it, we deem it proper to call their attention to the subject now.

Col. Wm. C. Preston (peace to his honored memory) once described certain of our politicians as resembling the sea gull—that the sea gull, buffeted, driven and dashed onward by the violence of the storm at sea, seeks a foothold at last upon some jutting crag, and looking back upon the tempest—the troubled waters beneath and the thundering clouds above—and fancies, poor thing, that it is *leading* that storm!

Did any of our readers ever see one of those political gulls?

NEW COUNTERFEITS.—A new and dangerous two dollar greenback, well executed, and calculated to deceive. Examine all two's carefully, especially new bills of that denomination.

Also one dollar greenbacks, close imitation, but the engraving is coarse, especially the head of Chase, which differs from the genuine in the eyes and mouth, but more particularly in the nose, which is of an entirely different type.

Five dollar greenbacks. The words "United States," compared with the original, have a scratchy appearance. In general appearance, paper and printing, they are well calculated to deceive.

THE WEATHER AND CROPS.—Nearly every part of our District has been blessed with good rains during the past ten days; the prospect of fair corn crops have improved, and many sad countenances have been brightened. From what we hear, notwithstanding the injury sustained from drought by some, and from overflows by others, an ample supply of corn for the wants of the District will be raised.—*Camden Journal.*

THE CROPS.—Cheering reports reach us from every section of the Districct as to the prospect of a good cotton crop. The corn crop has suffered to some extent by the drought, but the rains of the past week which have been abundant for present need, will no doubt increase the yield beyond the anticipations of a few days ago. The farmers are in much better humor and of course we share in the general spirit.—*Lancaster Ledger.*

VERDICT OF THE FACULTY.—STIMULANTS INDISPENSABLE AS MEDICINES.—The most distinguished physicians in the United States have recently been placed on the witness stand, and have, with one voice, declared that pure stimulants are valuable medicinal agents. This decision of the faculty refers especially to medicated stimulants, of which the purest and best known is HOSTETTER'S STOMACH BITTERS. Its basis is the alcoholic principle of the finest rye grown in the United States, and its herbal ingredients comprise the extracts of a large number of plants, barks and roots, produced in various parts of the world, and all noted in the countries to which they are indigenous for their powerful sanative properties. As an invigorant and tonic, the value of the Bitters can scarcely be overrated. Hence its extraordinary effect in fever and ague and intermittents and remittents of every type. Its anti-bilious properties are marvelous. Persons of bilious habit, by taking a small quantity once or twice a day, may completely change their constitutional tendency to liver disease, and escape all the unpleasant consequences which arise either from the undue sensitiveness or the unnatural torpidity of the biliary organ. Chronic constipation is eradicated thoroughly, and in a very short space of time, by small doses of this wholesome regulator, taken night and morning; and for all the disorders which are superinduced by exhalations from decomposing vegetable and animal matter in the streets of cities, or the miasma of swampy districts, it is, when taken as a protective and preventive medicine, the most reliable of all safe-guards. THE TRIUMPH OF ART!

MORE TESTIMONY IN FAVOR OF

Heinitsh's Queen's Delight.

EXTRACTS FROM LETTERS: "The Queen's Delight is beginning to awaken the attention of our physicians. Its remarkable curative power is seen in its wonderful effect upon disease. As a blood purifier, there is no medicine like it known to the profession. A gentleman told me that his son has been taking the Queen's Delight, and is more benefited by it than by any other medicine. He wants a dozen bottles."

Extract from a letter: "It is due to you to state in this public manner, in order that the people may know the truth, that I have tried your Queen's Delight, and found it not only what you said it was—"a pure medicine"—but the best medicine I have ever taken for eruptions and general bad health. I had an eruption all over my body, with impaired digestion and disordered liver, and have tried a great many medicines without any benefit. I have taken one bottle of your Queen's Delight, the eruption has disappeared, my appetite is better, my liver and digestion is improved. I am satisfied one or two more bottles will cure me."

Extract from a letter: "At the close of the war, my constitution was shattered. I could not eat, sleep or perform any duty whatever, such was my prostrate condition. Medicine and medical aid I had in abundance, such was my condition up to a few months since, when I began the use of your Queen's Delight. I have used two bottles, my constitution is greatly improved, my appetite is good, enjoy refreshing sleep, and am able to perform my share of daily labor."

Extract from a letter—Wonderful effect of only one bottle: "I have used only a half bottle of 'Queen's Delight' for boils and eruptions of the skin and itching humors of the blood, which annoyed me very much. I am entirely cured. I think your medicine a valuable one."

A remarkable case of liver complaint and headache cured by the use of "Heinitsh's Queen's Delight:" A lady of unquestioned worth and reputation voluntarily gives testimony of the wonderful effects of this medicine. She has been from early years a martyr to headaches, caused by imperfect action of the liver, producing intense headache and pain over the eyes. She has taken only four bottles, and assures us of the perfect cure it has made. She now enjoys good health.

Still another: "During last spring, I had been troubled with obstinate chills and fever, which, when cured, left my system in a wretched condition, blood impure, and I was afflicted with an angry, and, as I at one time thought, an incurable, cutaneous eruption over my entire body. The most violent remedies suggested failed to work a cure, until, at the instance of a friend, I tried Dr. Heinitsh's Queen's Delight. Less than two bottles cured me, leaving my skin in a healthy condition. My general health is as good as ever. For such purposes, I have, ever since my cure, unhesitatingly recommended your Queen's Delight."

Don't buy any but the right kind. All genuine Queen's Delight has the copy-right mark on the outside, and it is the only medicine which produces these wonderful cures. For sale wholesale and retail at
