FOREIGN.

THE SERBIAN WAR.
 NEW YORK, Aug. 4.—A special correspondent at Vienna telegraphs that the foreign ambassadors have interfered and entered a protest against the present conduct of the campaign in Servia. Several have given warning to the Sublime Porte that unless the present system of enlisting volunteers as crusaders against christianity is stopped, European military intervention is inevitable. As a consequence the Porte has ordered that no more volunteers be enlisted against the Serrians. Another correspondent says Abdul Ahmed will not accept the throne unless it is shown that the sultan's suzerainty is inviolable, and on the other hand his suggestion of a regency has not yet been conceded to.

The favorable action of the committee on the resumption repeal bill was secured by a change in the position of Gibson, who has heretofore voted with the republicans. Mr. Habbell, a republican of Michigan didn't vote, but says he will favor the repeal in the house. The vote stood—For, Cox, Payne, Godde, Gibson, Raymond, Burhard, of Wisconsin. Against—Townsend, of Pa.; Miles, of Wisconsin.

GOV. HENDRICK'S LETTER OF ACCEPTANCE.

INDIANAPOLIS, Ind., July 4, '76
 Gentlemen—I have the honor to acknowledge the receipt of your communication in which you have formally notified me of my nomination by the national convention at St. Louis as their candidate for the office of president of the United States. It is a nomination I had neither expected nor desired and yet I recognize and appreciate the high honor done me by the convention. The choice of such a body, and pronounced with such unusual unanimity and accompanied with such an expression of esteem and confidence ought to outweigh all merely personal desires and preferences of any one. It is with the feeling of having been called from a deep sense of public duty that I now accept the nomination, and shall abide the judgment of my countrymen. It would have been impossible for me to accept the nomination if I could not heartily endorse the platform of the convention. I am gratified, therefore, to be able unequivocally to declare that I agree in the principles, approve the policies and sympathize with the purposes enunciated in that platform.

The institutions of our country have been sorely tried by the exigencies of war, and since peace, by fish and corrupt management of public affairs, which has plunged us before civilized mankind, by unwise and partial legislation, every industry and interest of the people have been made to suffer, and the executive department of the government, dishonesty, rapacity and venality have debauched the public service. Men known to be unworthy have been promoted, whilst others have been degraded by fidelity to official duty. The public office has been made the means of private profit, and the country has been offended by a class of men who boast the friendship of the sworn probators of the state, smacking of nepotism, and by the prevalence of the treasury, and by the prevalence of the treasury, and by the prevalence of the treasury, and by the prevalence of the treasury.

Our commerce has been degraded to an inferior position, our high seas and manufactures have been diminished; agriculture has been embarrassed and the distress of the industrial classes demands these things shall be reformed. The burdens of the people must also be lightened by a great change in our system of public expenses, profligate expenditures which have increased the taxation from \$5 per capita in '60 to \$18 in '70, tells its own story of our need of a fiscal reform. Our treaties with foreign powers should also be revised and amended in so far as they leave citizens of foreign birth in any particular, less severe in any country on the earth than they would be if they had been born upon our own soil, and the iniquitous coolie system, which through the agency of wealthy companies imports Chinese bondmen and establishes a species of slavery, and interferes with the just rewards of labor on our Pacific coast should be utterly abolished in the reform of our civil service. I most heartily endorse that section of the platform which declares that the civil service ought to be subject to a change at every election, and that it ought to be made a reward of the party zeal, but it ought to be awarded for a proved competency and held for fidelity in the public employe. I hope never again to see the cruel and remorseless prescription for political opinions, which has disgraced the administration of the last eight years. I am, gentlemen, your obedient servant.
