THE BETTER GRADES OF COAL

are what I handle exclusively. This year I have a better supply than ever of the

Niggerhead - Rock Springs - Hanna

coal. Some of you used this coal last winter and know its value. Prompt delivery.

August Erickson.

The Farmer's Restaurant

Special Dinners served every Sunday.

Open from 5 A. M. until midnight.

J. Y. Barber Prop. Newell, S. D.

Good Eats Are Always Cheap At This Store.

That is the reason why we sell groceries to people all over this section of the country.

That is the reason why we hold our old customers.

That is the reason why one person tells another to trade at this store.

That is the reason why you gain if you are trading with us, and it is the reason why you lose if you are not.

H. Paulson - the Grocer.

We Sell "Ball-Band" Footwear and We Believe It is the Best You Can Buy

Men who have been wearing rubber footwear for years, and who have worn all kinds, tell us they get more days' wear and comfort and better fit in "Ball-Band" than in any other make.

BALL BAND

In the long run "Ball-Band" is the cheapest, too. It's so good to figure how much is best cost until you know how long it is going to wear. Count the days' wear that you get from "Ball-Band" Footwear and you will see that it gives the greatest service for the money.

Ball is the grade mark of "Ball-Band" Footwear

Prohibition Mass-Meeting At Church.

Arrangements have been made for holding a mass meeting at the Congregational church in the interest of state-wide prohibition. Hon. Charles J. Hall of California, will be the speaker. Mr. Hall has a national reputation as a chautauqua and lecture-course entertainer, having been before the people for twenty years. Under the auspices of the prohibition state committee he came to the Hills to speak at Rapid City, Deadwood and Belle Fourche, and while in the vicinity is speaking also at Newell, Spearfish, Sturgis and Whitewood. The admission is free and everyone should attend the meeting Friday night.

Public School Gets Additional Block.

Department of the Interior. United States Reclamation Service Newell, South Dakota, February 18, 1916. Mr. George A. Fry, Clerk, Independent School Dist. No. 7, Newell, South Dakota.

Dear Sir: I wish to inform you that your application requesting that block 10 be set aside for agricultural demonstration work in connection with the high school has been approved by the Secretary of the Interior, and you are hereby authorized to take possession of block 10 and fence it and improve it in whatever manner you deem fit or necessary.

Very truly yours,
B. E. Hayden, Proj. Mgr.

One evening last summer the writer together with Mr. W. D. Buchholz were looking over the school property and talking over school matters in a general way, when the latter suggested that it might be a good thing to ask the government for an additional block that we might expand a little in the direction of agriculture in the high school. As a result of this conversation the matter was later brought up and discussed at a meeting of the board of education. A petition was prepared and presented by the board to Mr. Hayden who expressed himself at the time as being favorable to such a move as being a good thing for the schools and for the project. Through his efforts from that time up to the present we have the tangible result announced in the above letter. The entire community will feel very much indebted to the government and to all who have in any way helped this matter along is the belief of,
Yours truly,
G. A. Fry, Supt.

Watch For Thumps In Early Pigs.

Thumps is quite a common disease in young pigs, particularly in winter and early spring. Thumps very seldom, if ever, attacks a litter in the summer time, when the sow has plenty of range and the little pigs follow her, thereby getting the necessary exercise to keep them in good health. But with the litter farrowed early in the spring, when the winter weather is cold and it is impossible to turn them out, other measures must be taken to insure that they have proper exercise, enforced if necessary. If weather conditions are such that the sow and pigs cannot be turned out, a good plan is to put the little pigs outside of the pen, and in running around trying to get back in, they will get the exercise that they need.

The direct cause of thumps is an irritated condition of the nerves leading to the diaphragm. The diaphragm is the fan-shaped muscle which separates the organs of the abdominal cavity from those of the chest. This condition is caused

principally by digestive disorders, overloading of the stomach, and lack of exercise. In hog cholera, thumping often develops as a complication late in the course of the disease.

Watch the little pigs carefully, as thumps is nearly always fatal, and always leaves them stunted when recovery does occur. Medicine is hard to give, and is not satisfactory.—By W. J. Wilson, Assistant in Serum Production.

Farmer Develops Case of Insanity.

Jacob Rabia, who has a claim about five miles northwest of town, has been acting rather queer the past several months and has been suffering from hallucinations of various kinds and lately has been growing worse. John W. Anderson, his neighbor, and family had taken it upon themselves to look after the unfortunate young man and he had practically made his home with them. On Monday morning he left their house under an excuse and ran for his own where he barricaded the door and armed himself with a shotgun, threatening to shoot anyone who disturbed him. The door was finally forced, however, and Mr. Rabia was disarmed. He was brought to town that afternoon and Sheriff True came down and escorted him to the county seat.

Party Voters Should Register By May 12.

The registration books are now in the hands of the town clerk and those who wish to vote at the primary election the 23rd of May should not fail to register on or before the 12th day of May, but not thereafter. He may also register at any annual or regular election, while the polls are open, to be held in their respective towns or townships, provided that such election be before the date above mentioned, as unless such party registration is made on or before the 12th day of next May, the elector failing to so register will not be allowed to vote at the primary election. An exception is made in the case of those who have necessarily been absent from the county.

Why Not Florida and the Sunny South This Winter?

Low Round Trip Fares are now in effect to Florida and the Gulf Coast—quickly and comfortably reached by the splendid daily train service of the Chicago and North Western Ry. and its connecting lines. All trains arrive in the new passenger terminal at Chicago.

Escape the cold and disagreeable winter and early spring months. Enjoy the fishing, motoring, golfing, tennis, hunting, surf bathing and all manner of other outdoor amusements amid the balmy breezes of the Gulf Coast.

For tickets and full information apply to ticket agents Chicago & North Western Ry. 2t.

Cream Separator Should Have Level Solid Base

Be sure that the cream separator stands level on a good solid foundation. No separator can do perfect skimming when it stands on a plank floor that is vibrating at every turn of the handle. The separator should stand on a solid concrete foundation. If this is not possible take a large box, fill it with concrete, and put the separator on the top of this chunk of solid concrete. This heavy material takes away the vibration and will cause the separator to run a good deal smoother than if it stood on a wooden floor directly.—Professor C. Larson, S. D. State College.

Will Bitney and son Leslie were in town from Nisland between trains Monday.

The Times Have Changed

In olden times people were afraid of banking institutions and when they had any money saved up they either kept it or buried it in a sock. Those days are past, however, for people have become educated to the advantage there is in having good banking connections. Now when they have any money, they deposit it in the bank, either on a time certificate or check account, and Know It's Safe.
