- Mrs. A. T. Livesay orders the News to Mrs. J. S. Coleman New Tazwell, Tenn. and Mrs. M. L. Spencer, Jakesville, Va.

CHARLEY COLLINS SHOT AND KILLED BEDFORD ANDERSON ON SYCAMORE CREEK LAST MONDAY EVENING

On last Monday, May 2nd, in the 8th, district of this County, on the headwaters of Sycamore Creek, Charley Collins aged 19 years, who was a son of Ardill Collins; shot and killed Bedford Anderson. It is claimed that the trouble came up about some talk which had been handled about some of the women folks. All of the parties are closely related and one of them seems to want to go into details of the killing however, it is claimed that Bedford Anderson had come to the home of Ardill Collins late Monday evening and raised a fuss with a man by the name of Price, Anderson drew his pistol on Price at which time Ardill Collins ran up and interfered and Anderson turned on Collins with his pistol, and at this point Charles Collins who was a son of Ardill fired the fatal shot, which he claims was in the defence of his father. Collins was arrested early Tuesday morning by Sheriff L. F. Johnson and taken before F. D. Coleman, a Justice of the Peace and was given a preliminary hearing and was bound over to the next term of our Circuit Court. His bond was fixed at \$5000.00 and he being unable to make the bond he was committed to jail. Anderson was about 40 years old and the uncle of the man who killed him. He leaves a widow and seven children. This is the second murder case that has occurred within the last six weeks, and no doubt moonshine whiskey has been the cause of both as that is a notorious section of the county for making and selling moonshine whiskey.

SILAGE IN SUMMER FOR THE DAIRY HERD

Good Crops Properly Stored in the Silo Become Insurance Against Drought to the Dairyman.

(By C. A. Hutton, Division of Extension, University of Tennessee.)

During July and August pastures are short and dry, flies bad and the weather hot. Under such conditions cows can not profitably yield milk without some supplemental food. Experiment Stations and dairy farms have found that the summer silo best meets this need for supplemental food. Many of the most progressive dairymen consider silage as essential for summer use as it is for winter.

The dairyman who has a small silo can be just about indifferent to summer droughts. It is seldom so dry that fair crops of silage can not be grown.

Let the man beginning with a small herd and expecting to increase that herd build a silo small in diameter, but rather tall, of sufficient capacity to feed the present herd through the winter. A little later, when a larger silo is needed for winter feeding and the owner has become thoroughly convinced of the value of silage, the small silo may be filled for summer use and a larger one built for winter.

For summer feeding it is easy to ascertain the diameter of the silo needed. Complete tables will be sent to any one asking for them, but as a guide now, one may think of these facts: A silo with an inside diameter of 12 feet will accommodate 37 head of cattle if they are fed 20 pounds per head. If the feeding is made 20 pounds per head, 36 cattle may be taken care of; if 15 pounds, 75 cattle.

Now is the time to prepare to meet the drought of next summer. Crops of corn and sorghum may be planted on stubble land immediately after the crop of wheat, oats or barley is harvested. Prepare the soil by the "sub-soil method," and good yields of silage may be expected.

KILLED AT LONE MOUNTAIN

Officer Frank Arnwine Shot George Phelps.

Deplorable tragedy was enacted at Lone Mountain last Sunday afternoon in which Deputy Sheriff Frank Arnwine shot and killed George Phelps.

The facts as related to the scribe are about as follows: Phelps was around the station with others during the day and is alleged to have been under the influence of liquor. He displayed his pistol when the officer remonstrated with as to his belated conduct. The officer took to "stand-off" to avoid trouble. Later in the day, it seems that Phelps was in a car with some companions and his conduct was so boisterous that the officer was urged to arrest him. Mr. Arnwine summoned Bud Claxton to help make the arrest. When they approached the car Phelps shoved the officer away and drew his pistol, but Arnwine got his

weapon and fired first, with fatal result. Arnwine immediately came to Tazewell and surrendered to Sheriff Miak. He is a son of Wm. Arnwine, and is known as a steady, industrious young man. The dead man was a son of Sam Phelps and was an over-sea-soldier and as such made a good record. This tragedy is chargeable to the liquor traffic, and other like tragedies may be expected to occur as time goes by. How long will the evil go on, backed by influences that ought to be for a better condition of affairs in the county? Preliminary trial set for Thursday. —Chabone Progress.

Sheriff Johnson, R. O. Darnell and L. D. Arnold, made a ride on Mulberry Creek last Friday night and early Saturday morning they captured a complete outfit near the home of Wiley Gibson on Muleshoe Collins farm. The outfit was a complete copper still and about thirty gallons capacity.

HIGH SCHOOL NOTES.

Every thing is going along nicely on the hill, and every body is busy reviewing and getting ready for the commencement.

Prof. Hill and Thos. Harrison Jr. spent the week end in Knoxville.

Miss Archer has been called away because of the serious illness of her sister. She has our deepest sympathy.

Prof. G. H. Hatfield was a welcome visitor of the High School Monday morning.

The Sneedville Literary society contemplates some very interesting discussions from now until school is out. Thos. J. Harrison is president and George H. Baker vice president.

Garfield Drinnen spent the week end with home folks.

The ferns that have been placed in the auditorium, give it a more attractive and home like appearance.

L. J. Catron county superintendent and C. M. Collins Chairman of the High School board visited the school last week.

Several committees have been appointed to get ready for the Ice Cream Supper which will be Saturday evening May 14. A great time is expected.

Tyler Parkey and Lawrence Thomas spent the week end with home folks.

Several students attended the Fifth Saturday meeting at Brewers Chapel. Prominent and conspicuous among them was Mr. Elderidge Arch Bowen.

If any of the girls around town need any toys to entertain their beaux on Sundays call on W. S. Moles who keeps a full line.

ICE CREAM SOCIAL

SNEEDVILLE HIGH SCHOOL

Saturday May 14, 1921

Afternoon 3 p. m. to 9 p. m

Refreshments, Games, Songs, Speeches, Contests.

An occasion of social enjoyment.

Everybody Cordially Invited

I SCREAM "ICE CREAM"

LUTHER, TENN.

I notice in your issue of The Sneedville News dated April 29th that moonshiners have a call meeting for August the 8. I wonder if deacons and church members will be admitted, if they are not I don't think they will have been treated right.

Stop the drunkards and the moonshiners and bootleggers will go out of business. It is a shame the way some people will demean themselves claiming to be the best people in the world, pulling and fighting whiskey then stoop down and drink the rotten stuff.

Church members wake up and do thy first work or else you may get spewed out of the mouth of thy creator.

Depnty Sheriff Albert Shell located a complete copper distillery last Sunday on Newmans Ridge, about three miles West of Sneedville, and brought same in to Sneedville Monday. The outfit was not in operation at the time it was found but it had been run not very far from where it was found as there was a furnace which fit the still and all other signs of a place where moonshine whiskey had been made.

Bill Wolfe, Col., of Treadway, had been missing from his home since Monday April 25, was found dead in the woods to-day "Saturday April 30." Wolfe has been in bad health for a number of years and has been deranged for some time. It is generally believed that he had killed himself, or that he had become seriously ill and unable to get back to his home and had died from want of attention. There was no signs on the body of foul play.

Mr. Wm. Short, of Treadway died last Saturday evening after a lingering illness, of several months. Mr. Short was a union soldier of the civil war, and a member of the Baptist church. He believed in the fatherhood of God and the brotherhood of man. He believed that the man who scatters flowers in the pathway of his fellowmen, who lets into the dark places of life the sunshine of human sympathy and human happiness, is following in the footsteps of his master.

Mr. Geo. Beckler, of near Luther, was cutting wood last Saturday and a stick flew up and struck him in the head and rendered him unconscious for a while. It was thought that his skull was fractured but upon examination by the Doctor who says that he will lose one of his eyes from the accident.

INCREASE YIELD OF WHEAT CROP

No Better Time Can Be Found To Think of These Things Than Now

Experience has shown that from three to five bushels per acre increased yield in wheat can be made by plowing the land deep and early so as to plant the soil time to settle. The wheat plant likes a firm seed bed just below the surface. If the land is quite loose the roller should be used. The increase in yield from the firm packing of a roller will often pay for the roller in one crop.

Another chance to increase the yield per acre is by using sound, plump seed that will grow. Fan and screen out all small and shriveled grains.

The average yield of wheat can be increased five bushels if one will give attention to these details. It requires nearly a whole year to grow a crop of wheat. Why not get the highest crop possible by doing the right thing at the right time. It does not cost any more and the profit is so pleasing and satisfactory. Do your best this time and note the difference. —C. E. Allred, Division of Extension University of Tennessee, Knoxville.

NEW HOME

NO OTHER LIKE IT. NO OTHER AS GOOD. Purchase the "NEW HOME" and you will have a life asset at the price you pay. The elimination of repair expense by superior workmanship and best quality of material makes this sewing machine a minimum cost. Invest on having the "NEW HOME". WARRANTED FOR ALL TIME. Known the world over for superior sewing qualities. Not sold under any other name. THE NEW HOME SEWING MACHINE CO., ORANGE, MASS. FOR SALE BY
