Leonard Cope passed through our town Saturday with a fine load of nice watermelons selling them to the people along the road.

Why don't the subscribers of the News write to the paper and give the news from all sections of the country? That is what makes a county paper interesting, we would like to hear from all over the county. X. Y. Z.

BAILEYTON, TENN.

I will give you the news from this place, the health of this section is not very good, some some sickness here, Mr. Wattenbarger started this morning to the hospital with his wife for an operation for appendicitis, we hope for her a successful operation and an early recovery.

Rev. Gilespy has returned home with his wife from Greenville, she having gone through an operation, she seems to be getting along fine.

There was quite a large crowd at Bob Jeffers Sunday and enjoyed eating watermelons, I must have eaten twenty pound myself and they tasted good when I quit.

Miss Johnnie Wattenbarger caught a fellow Sunday but it was a light job as he was pulled green and could not get out of the way.

The young folks has everything to enable them to enjoy life in this country, they have good roads, and good farming lands, and level, crops are cut about half on the upland on account of drouth, they raise lots of wheat and tobacco in this country, the little town of Baileyton has a nine month school every year and is a thriving little place, I like this country fine and the people also.

I meet lots of Virginia people here but no Hancock people, I wish every body would write to the News and get up an interest in the paper and the readers, if this don't fall by the wayside and I see in print I will come again.

SNOOKUM'S ESSAY ON A SHINGY MAN,

He will ride around a week looking for a \$2 pig, he will sprain his back lifting something to show how stout he is.

He will pay \$3 for a new bride and let a calf chew it up before Sunday, and he has a lifelong ambition to wear a dirty shirt.

He will get all his neighbors to help him get his cow out of a bog and then let her starve to death.

Stock will get in and destroy his crop at a place in his fence he has put off fixing for six months.

He will complain of hard times and tear his pants climbing the fence where a gate ought to be.

He will get up before day and wake up the whole neighborhood and then sit around till sun-up before he goes to work, and then grumble at the weather and go out and mash his thumb nailing a board on the fence. He will talk all day Sunday about what he knows about farming and ride around all over the neighborhood Monday looking for seed potatoes he will go to town Saturday and come back with fifty cents worth of coffee, a paper of pins, and a dollar's worth of chewing tobacco. He will go in his shirt sleeves all day to show how much cold he can stand, then go home at night and occupy two thirds of the fire place till bed time.

He is economical; economy is his whole theme he will give his little boy a dime to go to bed without his supper and make him pay a dime for his breakfast, he will use a wart on his collar button to keep his shirt from coming off, he will work all day without his dinner eat enough supper to make him sick, he will save ten cents worth of axle grease and ruin the spindle of a hundred dollar wagon. He won't subscribe for a paper, but will borrow one from his friend and forget to bring it back, he won't look at his shadow for fear that it will ask him for a chew of tobacco.

OUR SCHOOL.

Ten years ago a large number of our public schools were taught by poorly educated inefficient teachers, but today we have a splendid lot of well educated and efficient teachers.
Why this great change in so short a space of time? The answer is, our County High school. Our boys and girls are graduating from this school in large numbers, and most of them are choosing the profession of teaching. Each year a large number of these graduates and others attend the E. T. State Normal, L. M. University, Carson Newman and other colleges. We believe our teachers compare favorably with the teachers of other counties.
The State Superintendent of public instructions have been gradually raising the qualifications of teachers until the illiterate are being weeded out. To these we would say, "Go to school." Our County high school is open to them and needs them. No person who fails to pass the required examination should be permitted to teach. Our present State superintendent has said that no temporary certificate will be issued. Fortunately for our teachers don't need them.

PLAN WELL FOR BETTER HOGS, SHEEP AND CATTLE

Here Are Points Mentioned About Livestock in the Tennessee Farm Program for 1919.

1. Keep enough livestock in addition to the necessary work stock to consume all of the pasture and unmarketable hay and forage of the farm.
2. Supply livestock sufficient grain, hay, and silage to insure the most economical utilization of pastures and cover roughages.
3. Make the most possible use of cottonseed meal, clover, beans, tankage, and similar concentrates.
4. Provide suitable rubber crops in the field, whenever more profitable than harvest other crops. Save labor.
5. Carefully save animal manure for increased crop production.
6. Improve breeding animals by careful selection and the use of pure-bred stock.

On Tuesday night Aug. 31st, four of the six prisoners confined in the Sneedville jail made their escape by sawing the chains into which they were confined, they went up through a hole in the garret loft and picked the brick out at the top of the wall of the outside and took the chains off the bed and the bed-clothes and lowered themselves to the ground and escaped and so far have not been apprehended. Two of them, Bill Kinsler charged with murder and Burley Mullins convicted at the last term of Circuit court and given thirty dollars fine for public drunkenness, refused to leave while John Burton, convicted for selling liquor and given ninety days in jail, Lewis Odell convicted of selling liquor and given four months, Parkey McMillen convicted of Assault and battery four months, and Monroe Burton charged with murder and who was also convicted of selling liquor made good their escape. The Sheriff was not at home that night and no one in charge except the Sheriff's wife and children.
