

**GIRLS! DRAW A
MOIST CLOTH
THROUGH HAIR**

Let "Danderine" save your hair and double its beauty.

Oh, girls, such an abundance of thick, heavy, invigorated hair; a perfect mass of wavy, silky hair, gloriously fluffy, bright and so easy to manage. Just moisten a cloth with a little "Danderine" and carefully draw it through your hair, taking one small strand at a time; this magically removes all dirt, excess oil and grease, but your hair is not left brittle, dry, stringy or faded, but charmingly soft, with glossy, golden gleams and tender lights. The youthful glints, tints and color are again in your hair.

"Danderine" is a tonic-beautifier. Besides doubling the beauty of the hair at once, it checks dandruff and stops falling hair. Get delightful Danderine for a few cents at any drug or toilet counter and use it as a dressing and invigorator as told on bottle.—Adv.

To Acquire Greatness.

The best guarantee to greatness is an intense interest in a great program. Then it is that the fellow becomes so full of the job that he hasn't time to think about whether he's great or not. He sees the thing to be done and becomes so full of how to do it that he rises without knowing that he's becoming great in the eyes of the world. So the best thing is to be filled with your job and work it until it gets the fruits.

The increasing demand for furs in Japan has induced a group of prominent Japanese business men to organize a company with a capital of \$250,000 to engage in the raising of foxes. It is proposed to import the first stock from Alaska.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the "real kidney, liver and bladder medicine."

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

DODSON TELLS THE HORROR OF CALOMEL

You Don't Need to Sicken, Grip or Salivate Yourself to Start Liver.

You're bilious, sluggish, constipated. You feel headachy, your stomach may be sour, your breath bad, your skin sallow and you believe you need vile, dangerous calomel to start liver and bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tonic and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling splendid. It is perfectly harmless, so give it to your children any time. It can't salivate.—Adv.

Clay Output Falls Off.

The quality and value of the clay mined in the United States in 1918 showed a considerable decrease in output but an increase in value compared with 1917. The total quantity of clay mined and marketed as such is estimated at 2,840,000 short tons, valued at \$9,207,000, or \$3.28 a ton. This is a decrease of about 304,000 tons, or 10 per cent, in quantity, but an increase of about \$1,165,000 or 14 per cent in value. The imports decreased in both quantity and value.

"FIDDLE-FIT"

Keep Liver and Bowels Clean and Active with "Cascarets"

Sick headache, biliousness, coated tongue, sour, gassy stomach—always trace this to torpid liver; delayed, fermenting food in the bowels.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret tonight will have you feeling clear, rosy and as fit as a fiddle by morning. They work while you sleep.—Adv.

The following simple recipes have no harmful ingredients and will accomplish results as well as ready mixed remedies for the same ailments.

An Astringent Cream.

A well-recommended astringent cream is made from four ounces of mutton tallow, one and a quarter ounces of glycerin, one-half a dram of tincture of benzoin, a quarter of a dram of spirits of camphor, one-eighth of a dram of powdered alum, one-quarter of a dram of Russian isinglass and one-half an ounce of rose water. The rose water is warmed in a china cup set in hot water and the isinglass is dissolved in it. The mutton tallow, which has previously been tried out at a gentle heat and added to the glycerin, is then blended with the rose water, and the other ingredients are added while the mixture is being beaten. This makes a cream which is astringent, tightening the skin, without allowing it to become flabby, as often happens when one is reducing flesh.

Receding Gums.

Good teeth are requisite for both health and good looks. Go to a dentist and have the tartar removed from under and around the gums, then use table salt on the gums several times a day. Scrub the teeth downward, never crosswise. The teeth should be cleaned before breakfast, after each meal and before retiring.

For a Slight Scar.

Spirits of camphor, touching the skin with it twice a day, will sometimes eradicate the spots left from pimples. The liquid should be gently rubbed in.

To Remove Corns.

Salicylic acid, 1 dram; trim the corn with a very sharp knife or razor blade. Apply the acid; cover with a piece of court plaster. In three days remove the plaster and the corn will come with it. Soft corns may be cured

by wrapping the afflicted toe with a soft linen rag which has been saturated with turpentine, night and morning. Care should be taken to wear shoes sufficiently wide but not too large.

Excessive Perspiration.

Sponge off the parts affected at least once a day with boric acid; use 20 parts of hot water to one of acid. Also dust the face and neck and wherever it is necessary with a dry boracic powder.

To Overcome Odorous Perspiration.

When bathing put a few drops of ammonia in the water, dry the skin well and dust with the following powder: Oleate of zinc, ½ ounce; powdered starch, 1 ounce; salicylic acid, 1 scruple.

For Chapped Lips.

To prevent the chapped lips that so frequently result from the high winds try rubbing the lips each time before going out with rose water and glycerin, mixed in the proportion of two parts of the former to one of the latter.

For the Feet.

No. 1—Wash the feet in warm water to which a little hydrochloric acid or chloride of lime has been added.
No. 2—Bathe the feet often in a strong solution of borax or in common kitchen soda dissolved in water. Change the hosiery every day.

Breakfast Linen.

Colored breakfast linen is in favor. Square cloths which hang only a few inches over the edge of the table and small napkins, about 14 inches square, are either of colored linen or else are bordered with color. Some in sets show border wreaths of red roses, some show red roses with bright green leaves. They suggest breakfast sets of English china with its gay colors and stiff figures. The all-colored sets show pink, blue or yellow flowers on tan or gray linen.

Slim Lines and Gorgeous Fabrics

Dinner and evening gowns, perhaps as the result of a reaction after the restraint of war times, have swung to the other extreme and are as elaborate as ingenuity can make them, and rich beyond anything that has gone before for many a year. Cloth of gold and silver, satins with gold or silver figures scattered over their surfaces, brocades, rich embroideries studded with jewels, laces and nets that are a mass of twinkling sequins, fringes of all kinds, and always more gold and silver cloth, entice those who are looking for regal things to choose from. Metallic threads are woven in with silk in all the lovely evening shades so that rose and silver, turquoise and gold, Nile green and silver make wonderful shimmering cloths. Wherever fashionables foregather there will be much glittering this winter.

And these rich fabrics are not monopolized by the full-fledged women of society. The younger set is allowed them as the foundation for frocks, usually veiled with tulle. Artificial flowers deck out pretty dance frocks and sparkling hands of sequins in all colors are used on tulle to match in color. For older women ostrich plumes enrich gowns where one might look for flowers, and are used in the evening

coiffure and in the most splendid of fashions.

A lovely example of a sequin-covered gown for evening appears at the right of the two pictured above. It is a combination of white and black, in which these glittering fabrics are at their best. This gown has long and almost straight lines and the skirt shows the disposition to grow shorter which is making itself felt. It is shortened at the front. A tuft of ostrich feathers at the left side in black and a big fan of black ostrich feathers themselves in a perfect setting. A wonderful Spanish comb makes a simple coiffure, impressive and in keeping with the gown.

But not everyone cares for so much glitter even for evening wear. At the left is a less pretentious gown that is dignified and beautiful. Black satin, georgette crepe and beaded bands of jet are put together in a composition that can hardly be improved upon—its lines are classic. Three-quarter length sleeves and a draped skirt (that is unusually long) take cognizance of the mode.

RUSSIANS HIT BY FAMINES

Shortages of Food Date From 1600—8,000,000 Persons Reduced to Starvation in Famine of 1911.

TRACTOR WON'T JUMP FENCES

Some of the Arguments in Favor of Its More General Use—Will Not Bite, Balk, or Run Away.

Next to the proletariat of India and China, the Russian peasant feels the pinch of poverty and hunger more keenly and more frequently than any other, says the National Geographic society. One of the earliest Russian famines on record was that of 1600, with a death toll of 500,000 peasants. Cats, dogs and rats were eaten, and even the strong overcame the weak. Human flesh was sold in the markets. Three Russian famines of recent date were among the most severe in history—in 1891, 1906 and 1911. During the ten years following the first of these, the government allotted nearly \$125,000,000 for relief, but the sums were not always judiciously expended. In 1906 the government gave 40 pounds of flour a month to all persons under eighteen years old and over fifty-nine. Those between these ages received no allowance, and the older and younger shared their pittance with the others.

The famine of 1911 extended over one-third the area of Europe and affected 30,000,000 persons, while 8,000,000 were reduced to starvation. Weeds, the bark of trees, and bitter bread made of acorns, constituted the chief diet.

Some of the many arguments in favor of the tractor are given as follows in Farm Life:

It will not bite, balk or run away. It will not shy at a loose scrap of paper in the road. It will not kick the stall at night and keep the tired farmer and his wife awake. It will not crib the manger.

It will not break out of the barn at night, jump the fence and eat your neighbor's cabbages.

It will not lie down in a particularly moist spot in the barnyard, roll over on its back and elevate its four feet into the air.

It does not have to be curried, sponged off or treated with horse liniment.

It is not addicted to cough, cough, heaves, spavin or wind-gall.

It will not snort in your ear or whisk its tail in your face.

It will not "haw" when you tell it to "gee" or vice-versa.

You do not have to pull on the lines and holler your head off when you want it to stop.

It does not "up and die" just as the spring work is coming on.

One ton of water may be colored by a single grain of indigo.

A Saver to pocket book, and health, and a delight to the palate.
