DR. McLANE'S CELEBRATED LIVER PILLS... Hepatitis or Liver Complaint, DYSPEPSIA AND SICK HEADACHE... Symptoms of a Diseased Liver...

PAIN in the right side, under the edge of the ribs, increase on pressure, sometimes the pain is on the left side, the patient is rarely able to lie on the left side, sometimes the pain is felt under the shoulder blade, and frequently extends to the top of the shoulder, and is sometimes mistaken for a rheumatism in the arm. The stomach is affected with loss of appetite and sickness, the bowels in general are constipated, sometimes diarrhoeic with the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight dry cough is sometimes present. The patient complains of weakness and debility, he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin, his spirits are low, and although he is satisfied that exercise would be beneficial to him, yet he is unable to exert himself. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the liver to have been extensively diseased.

AGUE AND FEVER... DR. McLANE'S LIVER PILLS, IN CASES OF ACUTE AND CHRONIC DYSPEPSIA, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a fair trial.
