## FATE OF MILLION CHRISTIANS REST WITH PEOPLE OF AMERICA.

### Red Cross Thanked by King George for Relief Work.

Washington, Nov. 21.—Upon the quick charity of America largely depends the fate of a million Christians driven from Asia Minor by Turkish military success, it is declared that National Headquarters of the American Red Cross. Greece either will be a sepulchre or a place of rebirth for these stricken people, whose desperate plight is further depicted in a cablegram received by the Red Cross from Vice Chairman A. Ross Hill who is directing relief work from Athens.

King George, of Greece, through Dr. Hill, sent thanks to the Red Cross for its aid and expressed the appreciation of his nation to the American people. The Red Cross is rapidly perfecting its organization in Greece, said Dr. Hill's message, which went on to state:

"Hundreds of thousands of refugees are filling the Greek cities and islands. These consist largely of mothers with children who, with old people, are sole remnants of once flourishing populations driven into sea by the Turks. These miserable women, cold, hungry, despairing shelterless, walk the streets with babies clinging to their skirts. In many refugee centers women who lost sons and husbands gaze from leaden eyes, life over. Their little children are only hostages for the future of that element of Greek people who first established themselves in Asia Minor three thousand years ago.

"In many barracks children and old people lie day and night, flies eating at sores on their bodies and faces, their future black.

"King George thanks the American Red Cross for its help and extends the appreciation of his nation to the American people.

"Smallpox is spreading from concentration camp to another. Meanwhile Greece is awaiting new floods of refugees. The race is on between American Red Cross supplies and these fresh shiploads of people. The Greek government has telegraphed its representatives in counties asking the utmost help from every nation immediately."
